FOREWORD

This booklet is going to press at a time when the country is in the midst of a mad, mad general election (1989) which gives us enough opportunity to understand the working of the "Hindu mind". We are using the word "Hindu" because we have no other word that can be so popularly understood. By "Hindu" we mean the upper castes, Aryans, just about 15% of the country's population. They only are the "Hindus". The rest are non-Hindus. Scheduled Castes, Scheduled Tribes are the country's indigenous population and hence pre-Aryan. They are not Hindus and never Hindus. Together they make up a population of $20\% + 10\% = 30\%$. Backward Castes (BCs) listed by the Mandal Commission Report are Dravidians and hence they are also country's indigenous population. BCs are not shudras as many BCs themselves think. Only four varnas come under the *chaturvarna*. They are Brahmins, Kshatriyas, Vaishyas and shudras. If the BCs are shudras, they automatically become Hindus. But BCs are also Untouchables in varying degrees. So BCs are neither shudras nor Hindus and their population is an estimated 35% or so. That means $(20+10+35)$ a total of 65% of India's population is not "Hindu". We have repeated this sociological fact in many of our speeches and writings and said it in many issues of the *Dalit Voice* and also our books. To this day no Hindu "social scientist" has challenged either our facts or figures. The Muslims (15%),

Christians (2.5%) and Sikhs (2%), a total of about 20%, are any way not "Hindus". So the 65% of SC/ST/BCs and 20% of "religious minorities" make up a total of 85%. When the "Hindus" claim that Hindus constitute an "overwhelming majority of India" comprising 85% of its population, they are manufacturing statistics by including the 65% of the indigenous non-Hindu population with their 15% population. For purposes of job reservations, for sharing the human rights enjoyed by Hindus, SC/ST/BCs are not Hindus but outsiders. When the SC/ST/BCs seek admission into their temples, they are kicked, killed, burnt, raped and their little properties destroyed. They become "Hindus" only during elections, census operations and during anti-Muslim or Sikh riots. After these three limited purposes are over, these "Hindus" are discarded and treated as outsiders or hostile forces. This in brief is the story of the "Hindu love" for those fondly called "Hindus".

This Hindu discrimination against SC/ST/BCs and Muslims/Christians/Sikhs has led to widespread unrest and consequent violence endangering the very unity and integrity of the country of which we Dalits, its real owners, are very much worried. Because every division of India has been reducing our population making us more and more vulnerable to the Aryan aggression on Indian culture.

This tiny booklet is intended as a humble attempt at analysing the cause of this unrest and violence. The cause is the working of this "Hindu mind".

We would have been happy if such a working of the "Hindu mind" had brought peace, happiness and security at least to the Hindus, the rulers. But as per their own confession, they are miserable. They say they feel threatened every minute. Rulers feeling threatened? Heard of it anywhere? Since the country's entire wealth is concentrated in their hands, they are feeling insecure and hence raising the height of their compound walls and many of them are employing private armed guards. In Delhi, the country's capital, the rulers are living a

miserable life as virtual prisoners surrounded by armed security guards.

Nothing that is managed by them for their own pleasure and pomp is working satisfactorily. The Indian Airlines, the domestic carrier, is in a mess. The cities where the rulers live have turned into vast slums. One upper caste Hindu is complaining against the other about corruption and corruption is eating them wholesale. The scientific and technological institutions have broken down, abounding in frauds. Educational institutions have come to a standstill. Every section of the ruling class is on strike at one or other place or time complaining against another section of that class. Ecology has collapsed. Within 40 years of the "Hindu rule", India has been plundered, pillaged and pulped.

All this is the result of this diabolic "Hindu mind" the working of which we are honestly not able to understand. Not only it has enslaved the 85% of the non-Hindus, but pushed the Hindus themselves to utter frustration. The Hindus themselves are miserable and their misery is causing anxiety. All because of the working of this "Hindu mind".

We have not caused their mental sickness. They are the cause of their own madness. The latest defeat for Hindus on the Ram Janambhoomi, where they failed to demolish the Babari Masjid and the foundation for the temple of their favourite god, Rama, at Ayodhya was laid away from the disputed land, is the best example to prove their mental sickness. Everywhere they are meeting with defeat and as days pass they are reaching desperation and a dead-end. A careful reading of their own Hindu "national press" gives us ample clues to their panicked state of mind.

Had this sickness affected only them, it would have been a worry of the mere 15% rulers — though as the real owners of the country we want everybody to be healthy for the sake of the country's happiness. But this sick "Hindu mind" is not only

killing itself but this sickness is spreading unrest and violence to the rest of India. This is our real worry.

What is the remedy for mental sickness? People with unsound mind are called insane and are taken to a psychiatrist. And if necessary they have to be admitted to a mental hospital. Will the "Hindu mind" get itself admitted to a mental hospital?

We have little hope of the Hindus realising their mistake. Nay. A "Hindu" commits no mistake. His logic is that he alone is right and the whole world is wrong. He says he has nothing to learn or unlearn. The problem with the Hindus is that they don't know that they are mentally unsound. The stage for consulting a doctor and getting the disease diagnosed comes only when the patient realises that he is ill and wants to get himself cured. This hope is not there as the Hindu is not only not aware of his sickness but thinks that he is the world's most healthy, wealthy and wise man. That is why the Hindu is hated in Nepal, Lanka, Pakistan, Bangladesh, distant Fiji and even in African countries. Wherever a Hindu goes, he creates hatred.

So in the interest of saving our country's unity and integrity, it is the duty of the real owners of the country — the SC/ST/BCs and their co-sufferers Muslims/Christians/Sikhs — to realise the predicament of the Hindus, their helplessness and get the sick "Hindu mind" admitted to the mental asylum.

I thank the Dalit Sahitya Akademy for publishing this booklet.

Bangalore, India

Nov. 22, 1989

Know The "Hindu Mind"

The following is the edited and annotated version of the speech delivered at the Dalit Sangharsha Samiti Seminar on "Abattoir Controversy in Bangalore City", Senate Hall, Bangalore University, on Nov. 27, 1988.

Mr. President and Friends,

Hindu Nazis in Bangalore have raised a big controversy on the abattoir (a modern slaughter house proposed by the Karnataka Govt. in Bangalore). On this, I don't know whether to laugh or to weep. India's upper caste rulers have mastered the art of raising controversies on simple non-issues like this abattoir to divert the attention of the persecuted peoples from burning issues. Ever since India got "independence" (1947) they have been raising one "controversy" or other to make the slaves quarrel between themselves on such non-issues. Silly and stupid controversies are deliberately raised with the help of the press they own to divert the minds of the slaves from the grave issues like denial of human rights, food, clothing, shelter, health and educational facilities. If these peoples, denied their human rights, are allowed to think of their deprivation, they will certainly explode. And any explosion on human rights issue will affect the properties and privileges of the ruling class. Hence the rulers go on manufacturing non-issues like this silly controversy on abattoir. This is the secret behind the "abattoir controversy". To the upper caste rulers such "controversies" provide an opportunity to become heroes out of zeroes. And to

some others, it provides an entertainment at the cost of our pain.

However, these "controversies" are confined only to the upper castes/savarnas/Hindus/Aryans who are not even 15% of India's 800-million population. India's newspaper-reading population is itself less than this figure. Fortunately, the rest of the population is untouched by these silly "controversies". But by confusing the top 15% of the population, these Nazis create one havoc after another and thereby they are able to divert the time and energies of the people. This typical Nazi game is reduced to a fine art and *to understand this fine art, it is necessary that we should first make a study of the "Hindu mind"*.

The ruling class is deliberately creating these controversies to fool the Scheduled Castes/Scheduled Tribes/Backward Castes on one side and Muslims/Christians/Sikhs on another. And thereby enslave them. Alright? So the conspiracy behind this game is to frighten and fool us. And when we get confused, it is easier to enslave us. The "abattoir controversy", now raging in Bangalore, is one such.

Dalit-Muslim Unity: But please note that these Nazi rulers by creating this controversy have also done us some good. The very slaves whom the Nazis wanted to keep divided — mainly the Dalits and Muslims — got united on this issue. The "abattoir controversy" has given a big boost to the badly-needed Dalit-Muslim unity. The Nazis in opposing the abattoir are mainly interested in hurting the Muslims who as butchers are mainly engaged in the animal slaughter work. So they tried to engineer this "abattoir controversy" to hit the Muslim stomach. But the affected poor Muslims approached the Dalit Sangharsha Samiti whose Dalit followers are mainly beef-eaters. Hence this seminar. The Nazis while trying to enslave us are unconsciously digging their own grave. So on behalf of the SC/ST/BCs and Muslims/Christians, I thank the Nazis of Bangalore for creating this "crisis" and forcing the Dalit-

Muslim/Christian unity: the unity of sufferers and co-sufferers (cheers).

Such of the Nazi representatives sitting here, may note this. Please create more such "controversies" so that the slaves can identify their enemies and get united to throw away their slavery. Alright? (more cheers).

This evening, I want to place before you the different mind-manipulating tricks these Nazis — those killers of Mohandas Karamchand Gandhi — play to fool the gullible masses to keep them divided and thereby enslave them. The "abattoir controversy" is not merely an attack on the Muslim, using the cow slaughter issue as a stick to beat them, but more a sort of cultural aggression (V.T. Rajshekar: *Aggression on Indian Culture*, Dalit Sahitya Akademy, 1988) to silence and suppress the original inhabitants of India. Alright?

Unity and Integrity of India: The Nazis have thus provided us with a very wonderful opportunity. Therefore, I want to make the following points and I request the Nazi representatives to commit more such aggressions which in turn will help us correct our mistakes and promote the unity and integrity of India. Alright?

If the Nazis continue with such silly, stupid "controversies" on non-issues like the abattoir, they will be only promoting the disunity and disintegration of India. In the past, every act of dismembering the country was done by these very Hindu Nazis. It is these very Nazis who were responsible for driving out a section of the Muslims to form Pakistan. It is these very same Nazis who are today persecuting the Sikhs and forcing them to seek Khalistan.

Using this occasion, I want to give you a peep into the working of this "Hindu mind", ("Twist in the Hindu mind", *Dalit Voice* editorial Jan 1, 1989), this perverted mind, by giving you some striking examples:

Electric crematorium: When I was in the *Indian Express* (some 10 years ago), the Karnataka Govt. decided to start an

electric crematorium in this city. At that time also, these very same Nazis — the *chaddi* party boys — raised a big “controversy”. They opposed the electric crematorium saying that it was against their (Hindu) *dharma*. It is easy for them to raise any “controversy” because the press is in their hands and the *chaddi* boys going by the name of “journalists” can make a donkey into a race horse overnight. So hell was let loose on the crematorium controversy.

But today you go to the Wilson Garden or Harishchandra Ghat crematoriums (Bangalore), you will find these very Nazis standing in queue (laughter) to cremate their dead.

The point is the Nazis oppose every scientific and technological progress and build up “public opinion” against using scientific tools so that the masses remain backward and hence in poverty. At the same time, they will be the first people to make full use of science and technology and harness it to their best advantage.

This is what I call as the “Hindu mind”.

Computers: Then came the computers. Do you remember those days? India’s “sacred thread Marxists” raised a big furore against the introduction of computers. They said computers would result in large-scale unemployment. A countrywide “controversy” was raised. For nearly one year upper caste-led trade unions launched furious agitations against computers. AITUC, CITU etc. engineered strikes in LIC, banks and all over. Today, what is the position? You will see the same “sacred thread” people overnight turning into computer kids monopolising the entire computer technology. Not only they have taken over the computers but they are using these very computers against us. Alright? (loud cheers).

As the *savarnas*/Hindus/upper castes own the press, they can convert a donkey into a race horse and a race horse into a bloody ass. They can convert Prime Minister Rajiv Gandhi into “Mr. Clean”. And the very same “Mr. Clean” into “Mr. Dirtiest”

with Bofors and Fairfax. Because the press is in their hands. And thereby they can "manufacture" any public opinion.

So they made the SC/ST/BCs and Muslims/ Christians/ Sikhs to develop a prejudice against computers and when that field became free, the cross-threads went and grabbed it. That is why we should make a study of this "Hindu mind". Today, the entire computer technology is an upper caste monopoly (cheers). Alright?

India's Hindu rulers have perfected this ingenious technic of exploitation, this mind-manipulation technic. Unless we make a study of this technic, we cannot fight the Nazis. Alright? None in the whole world has perfected such a mind-manipulating technic in which our upper castes are the supreme masters.

English for the rulers: I will give you a more effective example to prove my point. You see this English language. The rulers made us believe that English is a "foreign language". They asked SC/ST/BCs to read Kannada, eat Kannada, sleep in Kannada and die in Kannada (laughter). (Sq. -Ldr. P.S. Rai: "Right to study English language denied to SC/ST/BCs and minorities: Upper caste rulers imposing linguistic imperialism" — DV edit. Aug. 16, 1988). A mad love for Kannada and a blind hatred against English has been created. (This is the case in every State of India). And all of us are made to blindly believe that Kannada is our "mother", our life breath and English is our deadly poison. English is the root cause of our poverty, enslavement. And every ill of the country is attributed to English. They said English, the language of the English rulers, was used to rule us for 200 years and keep India as a slave country. We all believed it blindly. Having been made bloody fools, we blindly believed this false propaganda as gospel truth. And we discarded English (the only international language) and even started hating it.

Anybody speaking in favour of English is dubbed anti-national. By resorting to this mind-manipulating fine art, they successfully denied the knowledge of English to over 90% of

India's population. But the cross-threads were the first to quietly master the English language which proved to be the gateway to knowledge (cheers). The slaves were made to develop hatred against English and they voluntarily left the English language to the upper castes who mastered and used very same English language to further enslave us.

That is why I say: study this ingenious "Hindu mind".

Language of dogs: Today, after 43 years of "independence", English has become the language of the rulers. And the slaves are told to be satisfied with the Indian languages. Upper caste children master English and become rulers and we become slaves taking a false pride in our "mother tongue" and thereby remain clerks (cheers). Alright?

This is the genius of the "Hindu mind". "Let anything happen to the country and its people but we must prosper at any cost". This is the genius of the "Hindu mind". Heard of it anywhere in the world?

Chief Minister Ramakrishna Hedge's children can't speak in Kannada (cheers). In Jayanagar, Indiranagar, in Palace Orchards, in all such fashionable upper caste localities, upper castes speak even to their dogs and cats in English (laughter). I was in some Brahmin house last week and was surprised to find the kids in his house speaking to their pet dog in English. When I asked the kids why they are not speaking in Kannada (their mother tongue) to their dog, they said: "Uncle, our dog doesn't know *Canada*" (more laughter). Even this word *Kannada*, their own mother tongue, they cannot pronounce properly.

Sanskrit Role: In the United States, the Whites are the rulers and Blacks are the slaves. But the White rulers have not denied the knowledge of English to the Blacks. So also in South Africa. Both the Whites and Blacks speak only English. *But India is the only country where even a language is used to enslave its people.* Earlier, these cross-threads used Sanskrit to enslave the *shudras* and today they are using the English to

enslave the *shudras* and all other non-Hindu communities, like SC/ST/BCs and Muslims/Christians/Sikhs.

That is why I say you must know the "Hindu mind".

Kannada (or Hindi) for the slaves and English for the rulers. This is the Nazi technic of enslaving people. I can go on giving any number of examples of such Nazi techniques.

Temple entry stunts: Upper castes are the very people who oppose the "Harijan entry" into temples. In different parts of India, Untouchables entering temples were beaten up and insulted. But at the same time they are the very people who are leading *Harijans* into temples. Both are done by the same people. "Socialist brahmins" like Gandhi, Agnivesh "lead" *Harijans* into temples and "sacred brahmins" like Puri Swami etc. get our people beaten up inside the temples. What happened at the Nathadwara temple in Rajasthan is a recent development. In the process, the former become heroes but our people remain where they are. Have you ever heard of such an indigenous technique?

This could only be the work of a "Hindu mind".

What is the purpose behind these temple-entry stunts? If they lead the *Harijans* into temples, those "leading" it — namely the "Gandhians" become heroes and those *Harijans* who enter the temple become better slaves. So this temple entry is a double-edged sword. It cuts both ways.

That is why you should make a study of the "Hindu mind".

Largest slave country in the world: *Harijans* are not Hindus and were never Hindus. They have nothing to do with Hindu temples. They are not interested in entering the Hindu temples. But Gandhi by creating a desire in the hearts of *Harijans* to enter Hindu temples, did the greatest damage to Untouchables. Because it is this temple-entry stunts of Gandhi that made the Untouchables think they are Hindus. And once they "think" they are Hindus, they can be annexed to the Hindu fold and given the status of a class below the *shudras*. If Gandhi

had not appeared on the Indian scene, the Untouchables of India under the leadership of Babasaheb Ambedkar would have established their separate entity through "separate electorate" (against which Gandhi went on a fast) and later en-masse would have become Buddhists. It was Gandhi who was primarily responsible for the present conditions of Untouchables hovering between life and death.

It is again this crooked "Hindu mind" that worked. Gandhi might have succeeded in his mission of blocking the liberation of Untouchables and thereby he might have secured to the Hindus the services of unpaid bonded slaves. But at what lost? Thereby Gandhi converted India into the single largest slave country in the world. This is the result of the queer "Hindu mind".

People talk of the Nazis of Germany. Muslims talk about the Zionists and say these two peoples have perfected a perfect technique of persecution. But I say that India's Aryan technique of enslavement has no parallel in the whole world. If anybody wants to test my claims, please read Chanakya's *Arthashastra* (Shama Shastry). Mrs. Indira Gandhi, India's most famous brahminical ruler, experimented the *Arthashastra* in her "Blue State Operation" (1984).

Beef Tallow business: The whole thing is intended to confuse us. Alright? You know this famous "beef tallow controversy" that went on for six months? Can you recall those days? Do you know who was finally arrested — the Shudda Vanaspati company owner — a Marwari Jain from Delhi. This man must have made tons of money by exporting beef tallow. And all those people who were in the forefront of the beef tallow agitations were mostly Jains and the *chaddi* boys. The "beef tallow controversy" was manufactured to terrorise the Muslims and to prejudice the minds of non-Muslims against Muslims, saying that Muslims kill the "mother cow" and its beef fat is mixed in vegetable ghee or vanaspati to prepare eatables. The whole idea was to picture the Muslims as monsters.

Even our local “abattoir controversy” is headed by a Marwadi Jain — aided and abetted by the *chaddi* boys. The whole intention is to frighten the Muslims and instigate the Dalits against them. And when the two brothers fight, it is these upper castes — Marwadis, the cross-threads and the Banias etc. — who reap the harvest.

That is why, I want you to make a study of this “Hindu mind”.

Who is anti-national?: The Aryans/upper castes/*savarnas*/Hindus are the people who call everybody else as anti-national, seditious etc. They are the people who frighten us daily with the two magic mantra of “unity” and “integrity”. But do you know that all those people who were arrested and now in jail for anti-national activities are all upper castes? They were arrested for spying for foreign countries. They were arrested for stealing cabinet secrets. Have you forgotten the case of Kumar Narayan (Iyer)? Not a single SC/ST/BC or Muslim/ Christian/Sikh was arrested so far on anti-national charges. Either in the “Bofors” or “Fairfax” — all those who took the bribes were upper castes. Who is Win Chadda? Our people have been never accused of anti-national activities. The Kudal Commission has indicted the country’s “Gandhians”, most of them Brahmins, for accepting foreign funds and using that funds for anti-national activities (“Nazis in the garb of Gandians ... DV edit, Sept. 1, 1989).

The Aryans speak of “unity and integrity” but they are the very people who destroy the unity and integrity of India. Alright?

Merit and Caste: They say that “caste criterion” to determine backwardness must go. They want “backwardness” should be determined on the basis of “poverty” — what they call as “economic criterion”. But they are the very people who promote caste by organising Brahmin conferences. R.K. Hegde, Gundu Rao inaugurated such Brahmin conferences when they were Chief Ministers of Karnataka. These cross-threads want “poverty as yardstick” and not caste-based job reservations.

But the same people want the post of temple priests should be a caste-based reservation, exclusively for Brahmins. Why they are opposing "merit-based" appointments to the posts of temple-priests? The Tamil Nadu Govt. had passed a legislation to train temple priests (*archakas*) from all castes on the basis of "merit" but the Brahmins challenged it and a pro-brahminical Supreme Court obliged them. Why they sing two different tunes?

To know the answer you must first make a study of the "Hindu mind".

Prani Daya: During the "abattoir controversy", they were speaking of *Prani Daya* (kindness to animals) but why can't they have some kindness for human beings (*Manushya Daya*)? (laughter). These Aryans have formed societies "to prevent cruelty" to animals, birds, insects, stones, trees, water, air, environment. All sorts of "societies" are formed to prevent "cruelty" but to this day we have not come across one single "society to prevent cruelty to human beings". The milk of human kindness is plenty in their breasts for anything and everything except for human beings. I have seen rich fat upper castes bringing bagful of grains and throwing it to birds at India Gate, New Delhi. I have seen them feeding rats and bandicoots. I have seen them feeding fish. I have seen them feeding monkeys, serpents and all sorts of dangerous creatures. But I have never seen them lavishing this kindness on human beings.

You will know their psychology only if you study the "Hindu mind".

Vegetarianism: Do you know why they speak of vegetarianism and glorify vegetarianism? This is to see that you (non-vegetarians) develop a contempt and hatred for your own food and hate what you eat. Once you give up eating non-vegetarian food, you will become weak and even the little animal protein is deprived of. When you are mentally enslaved and physically enfeebled, you will surrender on your own.

This is the genius of the "Hindu mind".

They are the people who are destroying our trees. The entire forest wealth of India was destroyed by this ruling class. SC/

ST/BCs and minorities are busy growing trees but it is these upper caste Nazis who are destroying the trees.

Chipko and Apiko: It is their own man (Sunderlal Bahuguna) who started the "Chipko movement". And another person of the same clan started the "Appiko movement" in Karnataka. Have you heard of these stunts? Sunderlal Bahuguna has "fallen in love with trees" and wide publicity is given to his going to forests and embracing trees (laughter). Why can't he for a change embrace a human being? (laughter). He is given national and international awards to frighten us.

These Nazis have formed "tree-lovers club", "animal-lovers club", "water-lovers club", "stone-lovers club", "insect-lovers club", "bird-lovers club", and "serpent-lovers club".

But to this day, they have not formed a "human-lovers club" (laughter).

Please note there is a very big controversy on this "environmental business". This is the latest fad. In *Dalit Voice*, we had even published an article: "Beware of environmentalists". It is a pure and simple upper caste game to perpetuate the Nazi hegemony at the cost of the SC/ST/BCs.

That is why you must make a study of this "Hindu mind".

Narmada Valley Project: This project is supposed to be the biggest river valley project in the whole country affecting three States of Gujarat, Madhya Pradesh and Maharashtra. Thousands of tribals are going to be uprooted and bundled out of their hearths and homes, their trees destroyed — so that the rivers are dammed and the fields of upper castes in Gujarat are made more fertile. (Ref: DV Feb. 1, 1988, p. 5, "Stop this Narmada Valley Project"). The person who is heading the project in Gujarat is Sanat Mehta, a Gujarati Brahmin, and the entire upper castes of Gujarat and other two States are all agog about the coming boon. Because the Narmada Project serves two purposes: to enrich the upper castes and to drive out the tribals from their homelands who can be "hinduised" and made to live as paupers and prostitutes. This is the grand upper caste

design behind all river valley projects and after having tasted the double benefit of it, they want to push through the country's biggest river valley project for which the World Bank is giving the money. This is another advantage.

Lo and behold: Who is opposing it? Their own jatwalas. Sunderlal Bahugunas, Baba Amtes, and Patkars. This is the beauty. Those wanting the Narmada Project are also upper castes and those opposing it are also the same set of people. Whichever party wins, the ultimate beneficiaries are only the upper castes. (cheers). During the day, the two fight like cats and dogs but in the night they dine together and sleep together because they are all cousins and blood brothers. But the Chipko, Appiko and Narmada drama are enacted to fool us. That is all. And they have their cousins in the press to conduct this puppet show. In the process, Bahuguna's and Amtes and such bogus people get awards and rewards but the tribals will be left high and dry. This is the whole game of our so-called environmentalists who have become the latest menace to our society. The whole game of those environmentalists is to confuse the SC/ST/BCs and further pauperise them.

The entire forest wealth of India was looted and destroyed by the cousins of these Amtes and Tamtes. Even the Himalayas are not spared in their tree-felling madness. But these Bahugunas and Shivaram Karanths go on getting publicity and all sorts of awards and rewards, while their jatwalas are recklessly felling the trees and eating up the forest.

Such a contradiction can exist only in India made possible only because of this amazing "Hindu mind".

Bogus scientists: Bangalore is said to be the "seat" of the country's premier scientific institutions. Indian Institute of Science, National Aeronautical Laboratory, Raman Institute, DRDO, GTRE, ISRO. Most of our "top scientists" live here.. Being scientists, they all must know that abattoir is a must for a growing city. But why no scientist is protesting against this unscientific controversy? Because those agitating against the abattoir as well as these "scientists" belong to the same *jati*

(cheers). They are all cousins. All these top "scientists" — ABCD Raos, BCG Raos, XYZ Raos, You R Raos, as well as Useless Raos, DDT Raos and the 420 Raos — know that abattoir is the most scientific method of slaughtering animals. But they will not say it in public. Why? Because the Nazis opposing the abattoir and the cross-thread scientists are all blood brothers (cheers). They are all bound by the same "sacred thread". (loud cheers). Alright?

Same is the case with our "sacred-thread Marxists" (laughter). Has one "communist" leader come out in the press denouncing this stupid controversy? Because our "Marxists", Nazis, Gandhians and "scientists" are all bound by the same "sacred thread". Blood is thicker than water. Abattoir is sure to contribute to the progress of Bangalore but to the upper castes their *jati* is above the society. They think they can prosper only if the society's prosperity is checked. It is this hatred in the Hindu heart that has made India what it is today.

Hypocrites: Yesterday, my relative living in Indiranagar (in Bangalore), was telling me that whenever he went to the market in the mornings to get meat, he invariably found one or other cross-thread friend coming out with a bag. Even without his asking, the friend used to say that he (friend) came there to buy meat for his dog (laughter). All these cross-threads eat meat secretly but want to put the blame on their poor dog (laughter). This is the typical "Hindu mind". A mind without heart.

Beef -eating Aryans: If it was meant for their dogs, they should take mainly bones. Why they take only the meat? (more laughter). Hypocrites. Nay. Traitors. They say one thing but do the exact opposite.

This is the result of the paranoid "Hindu mind".

The upper castes want to impress the outside world that they are "pure vegetarians" and that only vegetarian food is good for health. But fish and meat prices have gone up because of these grass-eaters have taken to meat. At least, we non-

vegetarians are choosy in what meat we eat. But these grass-eaters once they start eating meat, they will eat even human flesh also. (laughter). Yes, their behaviour proves they are man-eaters.

Hinduism and Communism: I want to point out to you yet another twist in this "Hindu mind". Hinduism with its caste system reflects the ascending order of reverence and descending degree of contempt. Hinduism does not believe in socialism, secularism and democracy. Nor does it believe in tolerance, equality, fraternity. Socialism and Hinduism simply cannot co-exist.

The Nazi philosopher, Guru Golwalkar, has listed in the Nazi Bible, *Bunch of Thoughts*, two internal and one external enemies for Hindus. The first two are Muslims and Christians. The external enemy is communism.

Golwalkar has made it clear that Hindus are dead opposed to communism.

But who is heading all the "communist" parties in India? CPI, CPM and even Naxalite parties? They are all mostly Brahmins or some other upper castes. I have pointed out this as the major cause for failure of Marxism in India today (*How Marx Failed in Hindu India?* DSA 1989).

Communism in India has been swallowed and digested by the cross-threads. In fact, Marxism is being used by the Aryans to fight the non-Aryan peoples of India.

All over India our people are today pitched more against "Marxists" than against Hindu fundamentalists. In other words, many *chaddi* boys are turning to Marxism to save Hinduism (laughter). In Maharashtra, a Brahmin has started a party after visiting Soviet Russia and impressed by the Soviet experiments at "controlling" the Muslims there. His theory (Practical Socialism) is that in India only Marxism can castrate the Muslims!!! Can you think of a more wonderful "Hindu mind" than this?

Regional Big Bully: These Aryan rulers speak of peace, non-violence but practice the worst kind of violence on the non-Aryan population of India. They are trying to impose their hegemony on the smaller countries surrounding India:— Lanka, Pakistan, Nepal, Bangladesh, Maldives, Burma, etc. So much so, India has come to be called the “regional big bully”. Lanka is the most famous example. The burning hatred in the Hindu heart is the cause of this widespread unrest and the consequent violence.

You must make a study of these serious contradictions in the behaviour of the Hindu.

They say “we must love the motherland”. But all those who run away to US and other European countries for “higher studies” and later settle down there are these upper castes only. Hardly 75 years ago a Brahmin leaving the shores of India was used to be ex-communicated. But today, it is just the reverse. Every upper caste family has one or two members in US. Many marriages take place in foreign lands only. Displaying foreign cars, foreign cameras, foreign gadgets, foreign handkerchiefs, foreign underwears has become a status symbol. A “foreign wife” is a great asset. A non-resident Indian (NRI) gets better treatment inside India than an Indian living in India. What happened to their “nationalism”? All bogus. Pilots, scientists are threatening to take up jobs in foreign countries. What happened to their patriotism? All bullshit.

But the problem is their sick mind is corrupting the whole country. It is high time that we who love the people of India get this sick mind admitted to the mental hospital.

Two sets of Law: We have two sets of law in India: one for the rulers and the other for the ruled. If a poor man out of hunger, unemployment steals a fowl, he is caught, handcuffed, and called a “thief” and lobbed in the jail. His picture is published in the press and the name mentioned.

But if a “rich” man does not pay crores of rupees to income tax, he is given *Padma Vibhushan*, all sorts of awards and

rewards. Upendra Baxi, according to the *Statesman* (Feb. 18, 1989) told a Delhi meeting that out of the 200-odd judicial commissions of inquiry relating to corruption charges in high places not a single one had so far resulted in conviction.

Karunanidhi was convicted by a judicial commission but has become the Chief Minister again. R.K. Hegde was convicted by the Karnataka High Court and the conviction was upheld by the Supreme Court — apart from the dozens of other charges about which so much is coming in today's press. But the Janata Dal, which once kicked him out, has re-elected him to lead it in Karnataka.

No film star has been so far sent to jail for not paying tax. They talk of socialism but their heart is in USA. They send their children to USA for studies. Our leaders go to US hospital for treatment. Even our Marxist leaders like EMS Namboodiripad, Jyoti Basu take treatment in foreign hospitals. They say they are "nationalists" but want to possess articles and goods made in USA and Japan. Only a "Hindu mind" can have such contradictions.

Dual Education System: We have two types of education. Expensive private convents with English-medium education for the ruling class. Such schools and colleges get no govt. grants and hence no reservations for SC/ST students. Being expensive, no poor student can get admission. Hence they are exclusive to the "rich". The rest go to municipal or govt. schools and colleges where the medium is the mother-tongue.

Two types of drinks: We also have two types of drinks (liquors). The "rich" drink what is officially described as "Indian-made foreign liquor", manufactured by private sector distilleries. The "poor" are given the adulterated govt. toddy and arrack so that they will quickly get intoxicated and die early.

They say *Matru Devo Bhava* but treat the woman as slave. Then we have the "Rule of Law" and the "Rule of the Manu". In Bangalore, one woman is burnt daily. Sati, Devadasi,

child marriage, dowry deaths, caste system, puja in every govt. office, TV Ramayana, Mahabharata are all promoted because of the Law of Manu. Shankaracharya of Puri defended Untouchability and Sati as per the Law of Manu. Mrs. Indira Gandhi as PM was not allowed to enter Puri Jagannath Temple because of this Laws of the Manu.

But the Constitution of India upholds democracy, socialism and secularism. It is built on the foundations of liberty, equality and fraternity.

But the Laws of Manu are opposed to the rule of law but the ruling class wants to maintain the Laws of Manu for the benefit of 15% Aryan population.

Sex crazy people: The upper caste religious scriptures lay so much stress on morality, charity, celibacy, character, abstinence, renunciation of sex, *brahmacharya* and dignity of woman and what not. But the Indian films will not run without a rape scene. Go to any Hindu temple sex spills on its walls through stone carvings and pictures. Does it not mean that this upper caste nation needs a psychiatric test? The upper castes are the most sex starved in the world. Their own temple carvings are a proof of their sex perversion. The wonder of all wonders is that these carvings are depicted as 'Indian culture'. What a sexual perversion? Look at the contradiction of this ruling class. Kissing is said to be prohibited in Indian cinema but rape is encouraged. This is because humiliation of the woman is a part of the upper caste ethos which every day swears by *Mathru devo bhava*. But not a day goes without one upper caste woman being burnt alive for dowry or some other reason. Mohandas Karamchand Gandhi beautifully portrayed this contradiction in the Hindu mind, said Sudhir Kakar, a leading psychiatrist, who examined this aspect of Gandhi. "Well-known" for his *brahmacharya*, Gandhi used to sleep with young girls. When his father died, Gandhi admitted in his autobiography that he was engaged in sex in the next room. Gandhi symbolises the kink in the Hindu mind.

Double-think on liquor-drinking: Liquor is a taboo in India. Gandhi brought prohibition and Morarji Desai, a Nagar Brahmin from Gujarat, stretched it too far. Drinking is strictly prohibited and those who drink are dubbed bad people. Anybody who drinks is called a drunkard and his future is ruined. A deputy chief minister of Maharashtra (Congress Party) had to lose his post for having been found drinking. What a punishment? But this is all for public show. In private all upper castes love drinking. Over 85% of the Indian people drink and drink is their daily diet. Except Muslims, who have a religious prohibition, all others drink and the drink is a part of their life. But the ruling upper castes made prohibition an obsession. In all govt. parties, liquor is not served. Any driver smelling liquor is caught and fined. Jawaharlal Nehru and Sardar Patel, the two chief lieutenants of Gandhi, were liquor addicts and they had their daily peg even while staying in Gandhi Ashram at Sabarmati. All this perfectly fit with the upper castes. They never found fault with Gandhi, who did not drink, nor with Nehru to whom Scotch was his favourite.

Only a Hindu mind is capable of this gimmick.

Indians are meat-eaters: So, we now know why the Nazis have raised the "abattoir controversy". It is to frighten us and impose their vegetarian values. SC/ST/BCs and Muslims/Christians/Sikhs are strict non-vegetarians. Over 95% of the Indian population is non-vegetarian. All over the world people eat meat. These Nazis are trying to impose their Aryan culture on the non-Aryan Indians. So this anti-meat eating campaign is part of the Aryan cultural aggression against us of which I have already spoken.

American cow: But you must know that during the Vedic period, the right of eating beef was reserved only for the Brahmins. All Vaidhiks now settled in USA eat cow. But if you point out this, their defence is: "we eat only the American cow which is not our mother" (laughter). That means only the Indian cow is their mother. What logic? Only a "Hindu mind" is capable of manufacturing such a logic.

Even today in Kashmir and Bengal, Brahmins serve meat as *prasad* in temples. When Indira Gandhi as Prime Minister went to Dakshineswar, the "holiest temple" in Calcutta, she was served the meat *prasad*. Do you know this? What do they mean by vegetarianism? We must make them stop this nonsense.

And we can make them stop playing with our lives only if we make a careful study of the "Hindu mind".

You Nazis must stop imposing your Aryan culture on us. It did not work in the past 4,000 years. Nor will it work today. Alright? (cheers).

Aryans and Non-Aryans: SC/ST/BCs and Muslims/Christians/Sikhs together forming over 85% of the Indian population will for ever and ever fight this Aryan aggression. You may continue your enslavement technics. You may refine and make it more and more subtle and sharp. But you can take it from us that the Aryan population in India was less than 15% over 4,000 years ago and even today the Aryan population continues to be less than 15%. And we continue to be 85%. You Aryans have gained nothing. On the other hand, every where, on every front, you Aryans are losing. Anything you touch becomes mud.

We two — the indigenous peoples and Aryans — are separate and two different nations. You are *savarnas*. We are *avarnas*. You are Hindus. We are non-Hindus. You are Aryans. We are non-Aryans. You are foreigners. We are the children of this soil — *Mool Bharatis*. We two can never mix and can never compromise. This fight between the two began over 4,000 years ago. This fight continues even to this day. And this will continue for ever and ever until you stop your aggression against us.

So if the Nazis are interested in peace, co-existence, unity and integrity of India, please cooperate or else you will be held responsible for inviting the charge that you are anti-nationals. (cheers).

So, for heaven's sake stop this empty, useless controversies on non-issues. Abattoir, Narmada, Chipko. And let us together get down to build this India.

Are you ready?

Idli-Sambar walas: C.M. Goenka of the "Prani Daya Sangha" (which is spearheading the Nazi agitation against abattoir) said (in his speech earlier) that vegetarian is the "healthiest food". But it is this vegetarians — *idli sambar walas* — who went to the recent Seoul Olympics (1989)? What happened? They ate dust there. It is our beef-eating Black Dalits who won all the gold. Alright? (laughter). It is our Dalit girls — P.T. Usha, Shiny Abraham, Valsamma — who brought us all the medals (more cheers). Mr. Goenka, why your vegetarian walas did not get any gold for India? Don't talk stupid things. In the international field of competition, your vegetarian arguments will take you nowhere. People will laugh at you. You may give a lecture on vegetarianism and draw big cheers in a "Rotary Club", "Lions Club" or "Donkeys Club" or a "Monkeys Club" inside India but when you go out of India you are judged by your efficiency, merit and strength. (cheers) Alright?

China and India: Goenka spoke about China and how China is "kind" to animals. He is bluffing. I had been to China twice. Goenka said he did not go to China. In China, all birds, wild animals, insects and dogs, cats etc., are shot dead. I did not find even flies, mosquitoes or bed bugs. This is because China says it is a "poor country" and they cannot afford to feed the animals, with their 1,000 million human population. In Goenka's "non-violent India", our pot-bellied "rich" upper castes feed pigeons, rodents, rats, monkeys, serpents, ants etc., to gain *punya* but starve the human beings.

Goenka also spoke about the "reckless killing" of animals in India. But he did not speak about the reckless killing of human beings — at Moradabad, Meerut, Jamshedpur, Belchi, Parasbhiga, Nellie — Muslims and Dalits are killed daily. Why can't you "animal-lovers" have for a change some sympathy for human beings? We can understand all these tricks. It will not work. You must stop this nonsense. Or else we will be forced to stop this in the interest of country's unity and integrity.

Farmers who rear animals also love their animals. Those who breed animals have also the right to slaughter and eat them. Goenkas don't breed animals. Why do you bother about these creatures?

But we must know that these Goenkas, Birlas and Dalmias speak only about *Prani Daya* (kindness of animals) not because they love animals. They don't mean what they say. They don't say what they mean. The whole thing is aimed at fooling the SC/ST/BCs and instigating these innocents against the Muslims/Christians/Sikhs.

That is why I say: please study this mentally unsound "Hindu mind".

You Nazis are finally warned. Please don't divide this country again. We SC/ST/BCs and Muslims/Christians/Sikhs — who form over 85% of the country will not give up meat-eating. If you want to be grass-eaters, we have no objection. But don't impose your vegetarian values on us.

But if you persist with the power of your "national" napkin press, we will resist it with the power of our numbers. And in this fight if the country's unity and integrity — of which you are so much worried — suffers, the responsibility is on you. Alright? (cheers).

Thank you.

Jai Bheem

ABOUT THE BOOK & THE AUTHOR

The rulers of India have spent 43 years since independence (1947) in quarreling between themselves and at the same time united in oppressing its weaker sections. This ruling class pre-occupation with quarreling leaves it no time to rule. And the only rule it knows is the rule of the sledge-hammer. Such a rule has led to widespread unrest and consequent violence touching every part of India. Even the ruling class itself is not happy. Every discipline has broken down. Every system is clogged. Thinking itself has come to a dead stop in India. What is this due to? Why one section of the ruling class is finding fault with the other? Why, knowing all this, the rulers continue to be helpless? What is wrong with the rulers? All these are very convincingly explained by V.T. Rajshekar, well-known for his original thinking so rare in India. The booklet may be small in size but it puts into capsule a Himalayan problem that has baffled every thinker and scholar. The words of the author have come from the bottom of his heart and hence they need careful study by all those interested in the country's unity, integrity and well-being. Author of over 20 books, V.T. Rajshekar is a well-known journalist and writer now Editor of the powerful *Dalit Voice*, an English fortnightly, also published in five Indian languages from different parts of India. Till 1971, he was the Dy. Chief Reporter of the *Indian Express*. His book, *DALIT — The Black Untouchables of India*, published from USA received international acclaim. He led two delegations to China and represented India at an international conference of Blacks in Libya (1986). He was invited to Japan to study the problem of Burakumin and to Sri Lanka to study the problem of Tamils. In 1986, he was arrested under the Terrorists Act and jailed at Chandigarh. Following international protest, he was soon released with an apology. His passport was impounded and made to face five criminal cases and two for sedition. His famous books include *Why Godse Killed Gandhi? How Marx Failed in Hindu India*, and *Dr. Ambedkar & His Conversion*. His works are counted among the few revolutionary writings of the country.
