FOREWORD

Christians, though just a tiny less than 3% of the Indian population, have been a powerful moral force until very recently. Upper caste rulers used them to get English education. But even this chapter is getting closed as (Hindu) upper castes have launched fabulous educational institutions to keep their children as “pure Hindu”.

If this is going on one side, Hindu terrorist organisations have been launching violent attacks on churches and Christian institutions “for converting innocent Dalits and Tribals”. Neither the police, the govt, the Hindu media, nor the so-called “civil society”, ever came to support the innocent Christians. Orissa’s Kandhamal attack (Dec. 2007) launched by the Hindu terrorist RSS is the latest example of the widely advertised “Hindu non-violence” and “Gandhian *ahimsa*”.

Why Brahmins fear conversion

The Brahminist worry is simple. It has manipulated the country’s caste statistics to suit its needs by calling the non-Hindu (if not anti-Hindu) SC/ST/BCs (65%) as Hindu. And adding this 65% to the mere 15% Hindu — comprising Brahmin, Kshatriya, Vaishya and Shudra — they announced to the world that Hindus form over 80% of India’s population. That is how India became a “Hindu nation”.

All bullshit.

Once the SC (20%) /ST (10%) — total 30% — get converted to Christianity, their false claim of “Hindu majority” falls flat.

This in fact is the Brahminical fear.

If this centuries-old Brahminic game of manipulation is going on one side, a powerful but a minority section within the church has been cunningly cooperating with the Hindu hate-mongers. This is specially the case with Kerala where no church or institution run by Syrian Christians is attacked by the Hindu terrorists.

In Bangalore, where the Brahminical Syrian Christian influence is strong, every church institution — whether Roman Catholic, Protestant or even Evangelical — is playing safe. There may be some minor exceptions but exceptions only prove the rule.

Though the Brahminical Govt. in Delhi is dependent only on the Western (Christian) funds, goodwill and every Brahminical boy or girl wants to migrate to West for education, employment and finally die there only — remaining essentially Brahminic in heart while exploiting to the fullest extent everything that is West (read Christian).

The Indian Christian leadership knows all these facts and yet keeps its eyes and ears shut.

Evangelical organisations are fabulously rich. They get their funds mainly from the US where the Evangelical church is controlled by the Jews-turned Christians.

Some Indian Evangelical churches have done a lot for Dalits and Tribals but its leadership dare not ask their American donors to prevail upon the US Govt. to stop supporting India's Hindu Govt. This is partly because the US Evangelical leadership is Jewish who are very close to the "Jews of India" ruling this country.

Because of such serious internal and external contradictions, India's upper caste church leadership confines itself to "god business". As long as the church

confines itself to "god" without touching its people, India's Brahminic rulers are not worried because it is also doing the same business.

It is not the church alone that is getting Brahminised. It is the case with Sikhs and to some extent with even affluent Muslims.

To the micro-minority Brahminists their religion and multi-million gods are a big business.

In *Dalit Voice*, we have been using our surgical knife to dissect all these god business mercilessly because most of the converts to Islam, Christianity, Sikhism, Buddhism are our people, the original inhabitants of India comprising SC/ST/BCs (65%).

So much so, India has become a vast intellectual Sahara.

Christian institutions under Brahminic threat

V.T. RAJSHEKAR

I am very conscious that I am addressing a highly respected religious order of the Roman Catholic church which is wilting, if not simply withering away, under the impact of Brahminism.

As a Dalit writer and journalist I have been very close to the church. But our experience in the last 30 years of *Dalit Voice* is the church has not only failed but in many cases it has joined hands with Brahminism.

You may be annoyed, if not shocked, by such a sweeping statement from a sincere friend of the church. But unfortunately it is true. Hence your invitation to speak on Brahminism to the religious order came as a surprise. This is because many a time a lecture is organised quite mechanically: A lecture for the sake of lecture. And all that I say falls on deaf ears.

SHOCKING STAND OF KERALA CHURCH

This is specially so in the case of the Kerala Catholic church. Kerala has its own parallel CBCI and in a recent resolution it defended the hated Hindu caste system (racism) and demanded it must continue. Shocking.

The caste system is the other name for Brahminism, which is the real name of Hinduism. When the Kerala Catholic church defends the caste system, it is defending Brahminism, the curse of India.

What is the point in asking me to talk on the defects of Brahminism when your leadership is defending Brahminism?

You have near Cochin a very big Roman Catholic institution which makes a deep study of all the Brahmin scriptures: Vedas, *Manusmriti* and all such bullshit.

DHARMARAM BRAHMINICAL COLLEGE

You also have in Bangalore the famous Dharmaram Vidya Kshetram, which has a church at the very entrance shaped like a temple, where all these Brahmin scriptures are studied and propagated. I used to be regularly invited to the Dharmaram College and its affiliated Christ College. When they started preferring Brahmin students and supporting Brahminism I told them to stop inviting me.

Church and Christianity brought light to the victims of Brahminism in India. The church liberated the Dalits and the oppressed castes, gave them education, shelter — and hope. That is history.

But lately this very church is becoming Brahminised. What a tragedy.

SYRIAN CHRISTIAN PROBLEM

In Bangalore, you have a famous commission which is part of the CBCI itself. It is called NBCLC. At its very entrance there is a temple and a priest distributing *prasadam*. I was shocked when I visited it 30 years ago and lodged a strong protest. After that they stopped inviting me.

I find a drift towards Brahminism particularly in the Roman Catholic church. Exceptions may be there but Brahminism is the rule.

The Catholic religious order is deep inside the stomach of Brahminism.

This is mainly because Kerala's Syrian Christians are holding top positions in the Catholic church, and these Syrians think they are Brahmin converts. Syrian domination is there in the protestant churches also. I see remote chances of the Catholic church going against Brahminism. So what is the use of your inviting me to speak on Brahminism? It may be of entertainment value. Nothing more. My words may be harsh but they are all verifiable facts of history.

KOTTAYAM CHURCH INCIDENT

At Kottayam (Kerala), I was invited to visit the headquarters of the Syrian Orthodox Church. At the very entrance to its huge library, I found a large painting which I was told was several hundred years old. Some of you here must have seen it. The painting showed bare-bodied Brahmins displaying their "cross thread" receiving the Bible from the White Western priests.

NAMBOODIRI ANCESTORS

The Chief Librarian said they were the very first converts to Christianity in Kerala.

I simply listened to him without challenging his version. He said all of them were Namboodiri Brahmins.

The Librarian said the Orthodox Church and all other churches in Kerala were very proud that they were descendants of Namboodiri Brahmins while the fact is they are the most hated lot in Kerala.

LATIN CATHOLIC REVOLT

It is this tragedy of false claim and false pride of Brahmin ancestry that forced the fishermen converts to Roman Catholic order to break-away and launch a separate Latin Catholic church which today has several Bishops, a

Malayalee daily paper and a separate Roman Catholic affiliation with the CBCI.

The Latin Catholics hate the Roman Catholic church. Am I right?

Brahminism has created a big problem within the Catholic church which has a big following from the Dalit, Tribals and Backward Christians.

My words may be harsh. Nevertheless they are the facts of history. How can the church win the hearts of the oppressed when its leadership is Brahminical?

TWO DEADLY CULTS

What then is Brahminism? The world has seen two dangerous and deadly, poisonous cults disguising itself as religion. The No.1 is Zionism in the West and No.2 Aryan Brahminism in the East.

Jesus was a Jew. And how this low caste carpenter-cum-shepherd was tormented, tortured and finally killed is known to you better as members of the elite religious order.

It is the Zionist Jews who did their best to destroy the Christian religion.

WITHERING AWAY OF THE STATE

Christianity is a great liberating religion. It liberated the India's oppressed SC/ST/BCs (65%). All those Dalits and BCs who became Christians got educated and reached top positions.

The entire North-East India is Christian and these Mangoloid Tribes are a powerful force today.

In the East, Aryan Brahminism came as another dangerous cult.

I have made a deep study of both Zionist Jews and the Aryan Brahmins.

I have read a lot and discussed a lot about this subject with Western scholars.

My finding is Brahminism is more dangerous than Zionism. However, both the cults are poisonous and their only aim is war, violence and destruction.

Since we are in India and Christianity came as a saviour for the over 85% victims of Brahminism, we need to go deep into the features of Brahminism, its effects and what should be our response.

I have made a deep study of Brahmins and their Brahminism. Brahmins themselves come to consult me. I have also written two books on this subject.

POPULATION STATISTICS

If today India is wilting, withering and facing a slow death it is only because of Brahminism. It is not because of Islam, Christianity, Sikhism or Budhism. All of them are liberating religions.

That Brahminism is a destructive cult is known only to a few "educated" people. The illiterate, village-dwelling masses know this fact too well.

Such is the secrecy surrounding this cult. Even many innocent Brahmins themselves do not know this secret.

Brahmins constitute just about 2.5% of India's population.

Hindu: Brahmin 2.5%, Kshatriya & Vaishya 1%, Shudras 11.5% - Total 15%.

Moolnivasis: SC 20%, ST 10%, BC 35% - Total 65%

Minorities: Muslims 15%, Christians 2.5%, Sikhs 2.5% - Total 20%
Total : 15% + 65%+20% - 100%

BRAHMIN WOMEN AS VICTIMS OF BRAHMINISM

Over 95% of the Indian population has been victims of Brahmins. For centuries. No. Even the Brahmins, particularly the Brahmin women are its worst victims. The problem is they do not know it.

M.K. Gandhi, the chief promoter of Brahminism, was killed only by a Brahmin. Read our book, *Why Godse Killed Gandhi?* (DSA-1997).

For your information there is no Brahminism without the Brahmin. But unfortunately the Brahmins do not know this.

Kerala's EMS Namboodiripad was a Brahmin. He propagated marxism to strengthen Brahminism. How do you like it?

INDIAN COMMUNISTS ARE BRAHMINICAL

M.N. Roy, founder of communism in India, was a Bengali Brahmin. He went into marxism only to strengthen Brahminism. Lenin, the Russian Jew, founder of communism, selected the Bengali Brahmin, the Jewish blood brother, to establish communism in India.

Jews and the "Jews of India" are cousins. I have discussed a lot on this subject during my visit to London, New York, Paris, Tehran etc.

The Indian communist party leadership is Brahminical.

TWIN BROTHERS

I can go on giving any number of examples to impress that Zionism and Brahminism are twins and today the two are working together. Brahminical India is having

the closest connection with zionist Israel — the world's most hated country.

In Kerala, Muslims, Christians, Dalits, OBCs prefer the Congress Party only because the marxist party is against them. Simple. The marxists in Kerala are not liked by the oppressed castes. In my first book on Brahminism, I have gone deep into its features and in the second book, *Weapons to Fight Counter-Revolution*, I have listed about 15 weapons to kill Brahminism. The first book is sold out long back. The second is kept outside for sale.

I had to face good lot of punishment for fighting Brahminism to save India and its over 85% victims. I was dismissed from the *Indian Express*, arrested six times, jailed once in Chandigarh, passport impounded for 20 years. Two attempts on my life. Many more will follow.

BRAHMINISM AS A MENTAL PROBLEM

But in the process I became closer to the hearts of Dalits, Muslims, Christians, Sikhs and all victims of Brahminism.

I am leading a Dalit delegation to Pakistan next month.

The only one section that is not interested in knowing its mental problem is the Brahmins.

Yes. I repeat: it is a mental problem.

There are quite a lot of "poor Brahmins". I am from a village in coastal Karnataka and I have lived with such "poor Brahmins". Brahminism itself did not solve their poverty. Their arrogance and false pride does not allow them to see reason.

Periyar E.V. Ramasamy, who is ranked next only to Babasaheb Ambedkar, was once asked by Gandhi: "Is there no good Brahmin?". His answer was: "The only good Brahmin is the dead Brahmin".

WHY BRAHMINS READ DALIT VOICE

I have not come across one single Brahmin whom I can say is a good Brahmin. Somewhere there is a twist in his brain. The women among them are better. For your information Brahmin woman is not a Brahmin. Only the man is the Brahmin.

I have many Brahmin subscribers to my paper *Dalit Voice*. Why do they read *Dalit voice*? They read it to find out what this "bastard" is writing. (*laughter*).

Dalit Voice has thousands of readers for our website. A majority of them are Brahmins. They keep a watch on DV to study what the enemy thinks of Brahmins and evolve steps to strengthen themselves.

That is why ever since Brahminism came to India, they have not produced a single revolutionary. All the greatest revolutionaries of India are not only non-Brahmin but anti-Brahmin.

GREATNESS OF MANGOLOID TRIBALS

Brahminism is a mental problem. Zionism has produced many critics within the Jews. But to this day we do not have one single honest, genuine critic of Brahminism among Brahmins. Brahminism, therefore, is a more serious problem compared to Zionism.

Except the North-East India, nowhere Christianity has been able to fight Brahminism.

In the North-East, the church succeeded because the

Mongoloid tribals are not Hindu and hence free from Brahminism. Today the North-East people are sought in all parts of India for their honesty, hard work, discipline. Their women are wonderful. Bangalore has thousands of them.

WHY CHURCH GAVE UP CONVERSION ?

The very fact the church, specially the Roman Catholic, has given up conversion, proves its failure.

The Catholic religious order has declared that it is against conversion. Brahminical outfit like the RSS etc. are also against conversion. That means the Catholic church is singing the RSS song. In other words the Catholics are giving up the deadliest weapon in its hand to fight Brahminism.

GREAT ROLE OF NUNS

However, we have great appreciation for your women in the religious order. I am happy a dozen nuns are sitting here.

They constitute 70% or even more in the total membership of the religious order. But what a tragedy that such an important section is working as slaves of the minority men in the religious order. Very harsh words but true (*cheers*).

Sorry to say we have no hope in the church.

In all big cities, the church schools and colleges are educating the children of the rich, meaning the upper castes.

That is why in the West the church was swallowed by zionism and in India devoured by the demon of Brahminism. (*cheers*).

WARNING

A last word of warning: Church is famous in India for running very good educational institutions. They are the best loved in the country.

Noted for the selfless service, secular education, noble work — though in many parts of India Brahminic outfits attacked even such institutions precisely for doing such a work.

I will tell you one thing: Soon all these Christian educational institutions will face closure. Because upper caste money bags have opened fabulous, expensive schools and colleges for their *jatwalas* in posh areas charging high fees. The upper caste boys and girls are rushing there. The Brahminical people are using these institutions to preach and strengthen Brahminical values and train their youth against the oppressed 85% Dalit-Bahujans.

The church education sector is in danger.

But we have not come across any church institution expressing alarm. This once again proves where the sympathy of the church leadership lies.

India's future itself is bleak. An institution which rendered such great services is not only under attack but will be soon forgotten and fade into history.

Thank you. ■

Speech delivered at the Indian Social Institute, Bangalore, to a group of Roman Catholic Jesuit priests on April 27, 2010 in Bangalore on "Brahminism".
