Just as zionism kills zionist Israel, “Jews of India” can never convert India into *Hindu Rashtra*

The 60-year-old monstrous zionist state of Israel, forged in fraud and boiled in blood, is doomed to die. This is the picture we get as the hated Jewish state celebrated its 60th birthday in May 2008.

The zionist state's 60th birthday is relevant to us because our country ruled by the “Jews of India” is also 61 years old and there is a powerful move to bring the two into a tight embrace with disastrous consequences to the limping and lingering Bahujans of India.

Gloomy future

Israel's Arab citizens, who form a fifth of its population, are treated as second-class citizens though Israel claims to be the best democratic state in the world. It is one of the richest countries in the world, a nuclear power, with the world's sole super power, USA, at its beck and call showering dollars and weapons whenever sought. All the zionist-controlled European countries like UK, Germany, France provide full security from any hostile neighbours. Over and above all this the Western world's zionist-controlled media always paints a glorious picture of Israel whatever may be its crimes.

With everything so favourable what is the situation inside Israel on its birthday? It is chaos, confusion, anarchy. More than anything the Israelis themselves are worried about their uncertain future. Thinking Jews are not even getting a sound sleep in the night.

On the top of all this the very existence of Israel is threatened by the Iranian bomb in the making and two

deadly “terrorist” neighbours —Hizbollah on one side and Hamas on another — are out to crush Israel like a bed bug. Such is the all-round hatred the zionists have generated in the hearts of Muslims and all other fair-minded citizens the world-over.

Israel cares a damn to the United Nations and never bothered to implement even a single binding resolution of the world organisation. How can it considered a civilised state?

Racism inside

Apart from the Arab-Israelis living in the country, treated as enemy within, the Jewish nation is practising racism against its own Jewish citizens. The Jewish immigrants from Russia, India and Ethiopian Black Falashas (Jews) are segregated and treated as a second-class citizens.

Ashkenazi Jews comprise Israel’s ruling class like the “Jews of India” enforcing the world’s worst form of racism against the country’s Untouchables forming 20% of its population.

While in the next-door enemy country of Palestine, the population of Arabs is simply exploding, the Jewish population is dwindling. Such a “demographic threat” is more serious than the Iranian bomb which can be countered and fought. But what can Jews, who cannot produce children, do if the swelling population of Palestinians produces reckless human bombs which the cowardly Jews cannot counter?

More than anything else, Israel is having a chaotic political set-up. It has 12 parties in the existing parliament. The Jews claim, like the “Jews of India”, to be the world’s brainiest people but no govt. in Israel can

last for two years. Each govt. is a coalition of several parties. So much so, Israel has become ungovernable. Differences between parties are so serious that no unanimity is possible even on a crucial issue. The hawks demand all-out attack on Gaza strip and Hamas. Such an attack will make the angry Palestinians to suspect Fatah Party chief, President Mahmoud Abbas, an American stooge, whose govt. will be the immediate casualty. If Abbas goes or killed, revolutionary Hamas will take over and that means for Israel a jump from frying pan into fire.

Democracy-mongers taunting China

The great democracy-mongers of the West, who teach lessons in democracy to China, are blind supporters of the anti-democratic Israel which is governed by its religion— zionism.

Israel is the only country in the world which has combined religion and nationality. Israel is only for Jews. Its religion is zionism. Is there any other state in the country which imposes such a condition? Can a racist country be democratic? What right America and the West have to teach democracy to China?

Of course, the Hindu terrorist party of RSS also wants to convert India into a *Hindu Rashtra*. But the 20% Muslim and 5% Sikhs and Christians, plus the non-Hindu 20% Untouchables (Dalits) will never allow it.

Self-destructive state

Even in Israel there so many “secular” Jews who are opposed to Israel being made a zionist state. But right now Israel is only for Jews and zionism its official

ideology. It is this dangerous ideology that makes Israel a self-destructive state. Zionism will kill the Zionist Israel. Hindu terrorist leaders itching to convert India into *Hindu Rashtra*, please note.

India's Brahminical rulers are great admirers of Zionist Israel. Several secret agreements have been signed between the two, including defence pacts covering even the Muslim state of Kashmir. India's intelligence is intimately collaborating with Israel, apart from merging its commercial interests. Several high level delegations including political visits have been made.

Brahminism caused Holocaust

We fully understand the Brahminical anxiety to follow the Zionist state and also blindly copy how it could "break the backbone" of the Muslims. "Terrorism" (read Muslim) has united the Jews and "Jews of India" in a tight embrace.

But we the victims of Brahminism in India would like to remind the Jews that these "Jews of India" were the very people who once engineered the rise of German Nazis and caused the mass murder of Jews in the so-called Holocaust. (Leon Poliakov, *Aryan Myth*, 1977, New American Library, New York).

Being rulers of India they can do whatever they want in the Brahminical interests. Because the Brahminical people consider themselves to be the "Jews of India".

Israel no model for India

But the similarity ends there. Israel is a tiny speck compared to gigantic India both in area and population. Not only that. India has the world's largest virile Muslim

population (next to Indonesia) who will never, ever allow India to be yanked to the zionist state.

Besides, India has hundreds of distinct ethnic identities not only different from the pure Aryan Brahmins, who are a micro-minority of 2%, but their very blood enemies.

India is a country of pure Dravidians and Adi-Dravidas who fought the Aryan Brahminists throughout history. Please read the book, *History of Hindu Imperialism* by an upper caste Hindu monk, Swami Dharma Thirtha, for centuries of blood feud between invading Brahminists and the indigenous Indians.

In other words, India has over 85% hostile people inside its bosom who will never, ever allow to convert it into a *Hindu Rashtra*. Remember this.

“Caste identity” weapon

The mere money, media and other strategic power it enjoys may help the Brahminical myth-makers to dazzle and entertain the fools willing to be fooled — mainly the 10 to 15% upper caste (Hindu) “literates”. But the other 85% oppressed nationalities, with their powerful “caste identity” weapon in their hands, will never, ever allow them to impose their Brahminical dictatorship.

The problem with the RSS and other Hindu imperialists is they only talk of “Hindu unity” but they don’t have any answer to the serious internal contradictions facing the “Hindu unity”.

The indigenous SC/ST/BCs are not Hindu and were never Hindu. Even if taken for granted they are Hindu, how to forge unity when they are divided into thousands of castes (ethnic identity)? The RSS merely talks of “Hindu

unity” but in action it is breaking the unity by strengthening the caste system (the other name for Hinduism), which is the supreme hurdle to any “Hindu unity”. The Brahminical silence on caste system is because their Hindu super-structure stands on the solid structure of different castes arranged on the basis of ascending order of reverence and descending degree of contempt.

Hurdles to *Hindu Rashtra*

Any attempt to break this centuries-old caste system will automatically topple the supreme Brahmin sitting atop this deathless structure of caste system which is the other name for Hinduism.

We have cited only some of the most important hurdles to constitute India into a *Hindu Rashtra*. There are ever so many other hurdles posed by Muslims and other religious minorities, the north-south divide, the deep distrust within the three top *dwija* apex-castes of Brahmin, Kshatriya, Vaishya and the hatred of the *shudras* (10%) who are part of the four-fold caste system. Plus the Mangoloid tribal distrust.

The Brahmins who are driving this ramshackle *goda gadi* (horse-driven cart) are distrusted by their own *Dwija* underdog like the Vaishyas and Kshatriyas. Brahmins themselves are not united except in looting us.

If these are the many internal contradictions, then there are very many ferocious external contradictions: like the ever-waiting hostile neighbours surrounding the “Hindu nation” — all untied to bite and butcher the Hindu hound.

Chaddi boys turn into Maoists

The RSS and its camp followers know all these. Yet they think they can “manage” the internal contradictions on the lines of the “Prachanda revolution” in the Himalayan Nepal. That is how many of the RSS *chaddi* boys are showing greater interest in the *Manuwadi* marxist movement and rushing to Nepal to learn from Prachanda’s proclivities.

You can take it from us this beef-eating Brahmin Prachanda will be thrown out within an year by the very indigenous toiling people of Nepal who groomed him.

So, which ever way the Brahminists look, darkness is staring at them because anything planned to destroy Justice and Truth is bound to boomerang. George W. Bush is the latest proof.

In this centuries-old blood-feud between the Brahminists and the Bahujans, India is torn to pieces and made mincemeat. Yes. This is true. Brahminists in desperation are finding a vicarious pleasure in seeing their *Hindu Rashtra* is neither living nor dead. We are fully aware of the Brahminical conspiracy to push India into greater and still greater misery, starvation and deprivation. Yet we will not yield.

The centuries old tug of war will continue. ■
