FOREWORD

Something seriously wrong with Muslims

After the Gujarat genocide of Muslims (2002) for the first time we find Muslims waking up and a genuine realisation that they have committed a big blunder in not joining hands with Dalits and not heeding our 20-year-old warning that Dalits alone can save Muslims and save India.

There followed a good deal of Debate in *Dalit Voice* and many Muslims admitted that there was a serious lapse on their part. While Dalits from the very beginning of history have been fighting Brahminism, the Enemy oppressor, the Muslims have not even **identified** the Enemy — not to speak of fighting it. Muslims simply are not able to understand the gravity of the situation and that the Hindu nazis are out to liquidate them. For the first time we are faced with a total breakdown of Indian civilisation.

Brother Rajendra, a Dalit intellectual from Karnataka who lives in the midst of Muslims, has written several articles on the lapses of Muslims. And many Muslims appreciated his sincere criticisms. This essay is a further development of his thoughts for wider discussion all over India. The Urdu translation of the essay is also ready.

The Gujarat genocide has given the Muslims the first biggest shock. The poverty-stricken masses of Muslims who are the real targets of Hindu violence are ready for "Dalit-Muslim unity" but the tiny Muslim ruling class is still harping on "Hindu-Muslim unity" which is an impossibility. Hindus will never, ever compromise with Muslims whose egalitarian religion is a threat to the very religion of the Hindu.

The only people who can save Muslims from the hate-mongering religion of Hindus are Dalits. And they are ever ready. They have already extended their hands of friendship. But the Muslim leadership is still hesitating. This is because

the Muslim *ulema* and the community leadership has not made a study of the "Hindu mind". They have not even made a study of Dr. Ambedkar's thoughts.

That is why we say there is something seriously wrong with the Muslim leadership.

This wrong must be quickly corrected. Lots of Muslim leaders have started coming to us. If the Muslim leadership fails to quickly mend itself, the Hindu nazis will stage a bigger Gujarat in UP. The Hindu nazi party (BJP) grows only by provoking anti-Muslim riots. Brahminism is notorious for its unquenchable thirst for blood.

The upper castes (Hindus) hate Dalits because of the racial divide. Brahmins are Aryans but Dalits are indigenous Dravidas and Adi-Dravidas. The twain shall never meet. The blood feud between the two is as old as Budhism. Over 3,500 years. And this racial war shall continue until we remove the poison from the Brahminical teeth. And restore this micro-minority to sanity.

Muslims do not know all this because they have not made a study of Indian history. The leadership has imprisoned them in the cocoon of their religion. They lack knowledge of Indian social structure. The Hindu nazis know all the weaknesses of Muslims.

The Brahminical Social Order (BSO) does not hate the Muslims as much as they hate us. Actually they are using the Muslims to *hinduise* (enslave) us. On one side, the BSO is attacking the Muslims and on another side it is enslaving us. Both the exercises are going on side by side with great speed. And in the process both Muslims and Dalits will be finished. Our culture will be destroyed. Unfortunately, Muslims do not understand all these things. That is why we say something is seriously wrong with the Muslim leadership.

Within five years we can reverse this process and contain the Hindu nazis if only the Muslims boldly join in our war against Brahminism. Once the Muslims join this war, the history of

India will change. This Hindu nazi lunatic fringe will be caged.

We Dalits anyway are fighting Brahminism as directed by our Master, Dr. Ambedkar. But Muslims must now join this war. They have no other alternative.

Dalits (20%) together with Tribals (10%) form 30% of India's population. Muslims another 15%. When Dalit-Muslim unity takes place we become a formidable force of 45% –a big majority. Backward Castes (35%) who are a confused lot will immediately jump on our side. Christians and Sikhs will follow. Why then the Muslims should fear?

This country belongs to us. *Vaidiks* are Aryans. Foreigners. They have no love for India. In the interest of saving India, Dalit-Muslim unity must be forged immediately. In five years, we will show the change.

Muslim failure to see through brahminical tricks

RAJENDRA, AMBEDKĀR PRATISHTAN, THORALAKKI P.O.
MALUR TALUK, KARNATAKA - 563 137. (Ph: 339 688)

Islam came to India from Arabia, not from North but through the West Coast of Malabar along with Arab traders.

Afghanistan was part of India during the reign of Ashoka and many other kings.

That means Islam entered India much before Babar. Dalits welcomed Islam, a liberating religion, because it is based on brotherhood. Dalits helped them to establish the Moghal empire.

Affinity of Dalits with Islam, a religion of equality, and also because Arabs and Afghans treated Dalits as brothers, social intercourse within the Army and homes resulted in acceptance of Islam by Dalits. Matrimonial alliance further strengthened the Muslim rule and also increased the Muslim population in India. About 90% of today's Muslims in India, Pakistan and Bangladesh are of Dalit origin. These historical facts can never be disputed by any authority.

Brahmin girls marry Muslims

Other 10% of Muslims are from other "low castes" with 1% of Brahmin converts or some other foreign origin.

This 1% Brahmins accepted Islam when Muslims became rulers with the selfish intention to joining the ranks of rulers.

The very Brahmins who earlier condemned Muslims as *Yavanas* and *Mlechas* etc. suddenly fell in love with Muslims. This is Brahminism.

Brahmins gave their girls in marriage to Muslim rulers. Akbar's wife was a Brahmin.

A slave dynasty emperor, Mohammed Kusroo, was a Chamar

convert. He also got Devala Devi, a Brahmin, as his wife. Adilshah of Golkonda and his son had Hindu wives.

These facts must make every Brahmin feel ashamed to claim any superiority over Dalits and Muslims. Yet, they shamelessly claim purity of blood.

Muslims should study a thousand year's history of Islam in India and learn to walk with head high.

Inferiority complex before Brahmins

But on the contrary, I find the Muslims, particularly the educated elite class, suffering from some inferiority complex in the presence of Brahmins. My personal contacts with Muslim brothers of all classes helped me to know few facts. To study human behaviour there is no need for research but a sincere understanding of the society.

Islam is a great and revolutionary religion given by an equally great social scientist. This has been universally admitted. Prophet Mohammed was not just a religious founder. He was a great thinker capable for understanding human life.

Islam reduced to religion of rituals

The philosophy of Prophet Mohammed has a great social revolutionary substance of binding people together. Islam is a perfect guide to revolt against oppression and injustice, upholding the dignity of human being. No other religion has given such a revolutionary message.

What is not in Islam? There is no hypocrisy in the name of religion in Islam.

But today such a great religion is reduced to a pathetic state of submission which reduced Islam to a set of rituals of *namaz* and *roza*. And too much emphasis on life after death. This is exactly what the Brahmins want because their religion is nothing but rituals.

We have to search for the reason for the fall of Muslims. It is the duty of every Muslim who loves Islam to probe the cause of

this fall and fight and die to restore Islam to its pristine purity.

Failure to identify Enemy.

We Dalits have identified our Enemy which is also your Enemy — crooked and cunning. This Enemy is capable of planning different strategies to destroy every human and also the human values.

But despite having such a rich, revolutionary religion the Indian Muslims have not yet **identified** their Enemy.

To repeat, Islam is not just a religion. It is a code of conduct for every-day living. It covers a Muslim's every social activity, cultural and legal values.

The strategy of the Enemy starts with meddling rather than destroying our cultural values. It further moves indirectly into legal values. And ultimately reaches the religious values.

Islam is the only religion in India which rejected the priestcraft. It has a separate holy language of its own — the language of Quran — Arabic. It also has a popular language of masses, both spoken and written, that is Urdu.

Muslim women to teach *Gita & Ramayan*

Religious duties of performing *namaz*, *roza* and *zakath* have helped the Muslims to maintain the "separate identity" of Muslims for centuries.

Yet, our Enemy systematically meddled with every one of the above tenets of Islam.

Some of the teachers at secondary school level have been already trained to teach Sanskrit to Muslim children in government schools. Muslim children are encouraged to read and learn the Brahminical texts like the *Gita* and the *Ramayana*. They trained Muslim teachers only (mostly women) to do this job. Women teachers can maintain better relationship with Muslim children with motherly affection. Look at the crookedness of the Brahmin. Next is translation of all the literature available in Arabic and

Persian into Urdu. The Human Resources Department (HRD) of the Government of India has provided Rs. 12 crores to this project.

The third is providing computers to *madrasas* in the name of modernising them, sanctioned Rs. 8 crores. *Madrasa* teachers will get Rs. 3,000 as remuneration now.

Murli Manohar Joshi, the *Vaidik* HRD Minister, is pushing "modernisation" of *madrasa* education. But what he means by giving education in Indian history, geography, mathematics, science etc. is entirely different.

The above projects will make Muslim children to read in Urdu and Sanskrit. After one or two generations, these children will not know the holy language of Arabic and will never be in a position to read the *Quran*.

Capitation fee-based Muslim colleges

Muslims call themselves "minorities". Some "educated" Muslims are using this term. Brahmins and their Hindus liked this name. Institutions formed under this name are given permission to start medical, engineering and other colleges. All these institutions collect donations. Seats are sold. Muslims can also purchase seats if they have the money. But poor Muslim masses are left to go to government schools. Managements of "minority" colleges make unaccounted money. Naturally such Muslims are grateful to Brahmins for allowing them to make money.

Capitation fee-based Muslim institutions are dividing the Muslim society and helping the Hindus undermine Islamic values.

A Muslim professor in Kannada gives a lecture on achieving "Hindu-Muslim unity". In a magazine article, he says:

Muslims have to convince Hindus to stop playing bands before the masjid for few minutes till the procession passes. This has to be done by persuasion. Convince Hindus to maintain the sanctity of holy places and also not to disturb the people at the time of prayers.

His advice to Muslims is more significant:

Muslims on their part should not throw stones from Masjid on Hindu processions. This will give an impression that Muslims always store stones inside the Masjid to throw them on Hindu processions. They will then brand Muslims as habitual criminals and trouble-makers.

He says such gestures will promote "Hindu-Muslim unity". Such "professors" are in great demand. Hindus encourage them because these stooges help undermine Islamic values.

Pakistan was formed 55 years ago. The present younger generation was not born at that time.

Congress as a Hindu party

During the beginning of last century, Prince Agha Khan single-handedly represented the grievances of Muslims with the British. Muslim League came later. It asked the Muslims to fight under its banner and not to join the Congress — a Hindu party of M.K. Gandhi.

But the Ali Brothers — Mohammed Ali and Shoukat Ali — joined the Congress hoping to get support of the Congress for their Kilafat Movement. But they themselves along with their movement got liquidated by the Enemy, the *Manuwadis*.

Jinnah driven out of India

M.A. Jinnah was nowhere on the political scene of India when Muslim leaders had Pakistan in their mind. The Muslim League was born after the Muslims realised that the Congress was a Hindu party and interested in ruling India and after M.K. Gandhi made it clear that he was interested in establishing *Ram Raj*.

Jinnah came on the political scene much later. He was originally a member of the Congress. His agenda was to get freedom to India and also establish the constitutional rights of Muslims.

When the subject of independence was discussed by the British, the Congress found difficulty in ignoring a leader like Jinnah, Gandhi, Nehru, Vallabhai Patel, Rajagopalachari and others who together succeeded in driving Subash Chandra Bose out of the Congress and then out of India also. The Hindus adopted the same tricks to drive Jinnah out of India. (Read *Why Godse Killed Gandi?*, V.T. Rajshekar, Dalit Sahitya Akademy - 1997).

Therefore, formation of Pakistan is a circumstantial development. It was not a "conspiracy" of any particular individual but the felt need of a group of people whoever they may be. Such historical developments will be known if any one cares to read history. There are hundreds of books available on the subject. Muslims must study such books to know the "Hindu mind".

Mystery behind Sheikh Abdullah

But our Muslim "scholar" Rafiq Zakaria created a new historical document recently. He says that Jinnah is individually responsible to create Pakistan. He became a self-styled leader of Muslims, carved a land to become head of that land with the assistance of British.

Here is a Muslim "intellectual" brainwashing his own Muslim brothers. Is Rafiq Zakaria writing his own history to please his brahminical masters? We have in India many such stooges serving the *vaidik* rulers.

Brahminical forces love dishonest intellectuals like Rafiq Zakaria — a propaganda technique adopted by zionists. Our Enemy also has similar tactics.

Politicians are career-seekers found in every religion and caste in India.

I refer to only three people since they were present in Indian politics at a very crucial time.

Sheikh Abdullah, the Lion of Kashmir, was a good friend of Jawahar Lal Nehru till he managed to get Kashmir join India. Later he was put in jail for several years. Nehru never said anything on this action.

The next Prime Minister took sufficient number of years to decide on releasing Sheikh Abdullah. Finally he was made the political head of the state. Maharaja Karan Singh, who was responsible to put Sheikh Abdullah in prison, became a Central Minister and elevated as President of the Hindu nazi outfit, Vishwa Hindu Parishad.

Kalam as the latest stooge

Why Sheikh Abdullah was sent to prison? What are the reasons for his release? All these remain a historical mystery.

Sikander Bakht was an important member of the *Brahmana Jati Party* (BJP) at the time of demolition of the Babri Masjid. Later he became a Central Minister now thrown out as a Governor.

The latest to wear the Muslim badge is the new President of India, Dr. Abdul Kalam. We have a long procession of Muslim stooges, corrupted and co-opted by the ruling upper castes. Muslims must learn from history.

A reference to the preceding 18 years is necessary. "Blue Star Operator" killed over 4,000 Sikh men, women and children. President Giani Zail Singh never had any information about this "Operation" despite the fact that the President of India is also the chief commander of the Armed Forces.

President Kalam is our own blood brother. But the drama played by the *Brahmana Jati Party* before his selection must be known to the Muslim masses. His name was proposed by Chief Minister Chandrababu Naidu of Andhra Pradesh. Mulayam Singh of UP claims credit for having suggested Kalam first.

Hindu judiciary on Muslim marriage

Every one has a right to claim. But all should know that A.B. Vajpayee announced the name of Kalam only after the Hindu nazi party, RSS, approved the name of Kalam. The *vaidik* fascination for Kalam is his reading of *Gita* everyday. The *vaidik* claim is he represents India, not just Muslims alone. Kalam was selected to ridicule Muslims. A whole community stands disgraced.

What about our Hindu judiciary? Recently the Bombay High Court gave a judgment about marriage and divorce. It said that all marriages must be registered. Any religion, tradition or custom may be followed but the registration is must for legal purposes. That means the marriage, divorce, inheritance,

everything will be considered irrespective of religion, caste or custom only when it is registered not otherwise. In that way, all Indian citizens are treated as equals before law. Without much explanation they passed the order which will include Muslims also. Having become a case law, it can now be adopted by other High Courts. In course of time it will become an all-India law. The Muslim Personal Law Board is there. The Indian judiciary has interfered with the Muslim Personal Law. This is Indian judiciary. Every wing of the state is turning anti-Muslim.

Gujarat genocide of Muslims

What about the Gujarat genocide of Muslims?

India got "independence" 55 years ago. In terms of days, over 22,000 days ago. During this period there were 33,000 anti-Muslim riots. That means there was one riot every day. There were two or three on alternative days. If we take that one Muslim died in one riot on each day, 33,000 Muslims must have died so far. If this figure is compared to the Gujarat genocide of 3,000 to 4,000, the matter will pale without much significance.

The action of the Enemy gets its importance from the method it uses. The Gujarat genocide was well planned. It took months of preparation. *Trishuls* and swords were distributed in thousands in the name of religion. Locally made guns and pistols were held by many. All these were mass manufactured in factories and distributed free. How such gigantic preparations went on without the notice of the Muslims? If they had the knowledge what made them to keep quiet without getting themselves prepared to face the consequences?

Dalit Voice warning

Dalit Voice has been continuously warning that India's Hindu government will use the police and military to attack the Muslims.

Our Editor had visited Ahmedabad several times in the past 20 years and arranged several Dalit-Muslim unity meetings. Yet when Gujarat's Hindu nazi govt. headed by Narendra Modi attacked them, the Muslims were caught unprepared.

To divert attention of the gullible, the Enemy started a drama at Ayodhya. Instead of seeking the Dalit support the Muslims concentrated their attention on fighting the court battle without realising that courts in India are more Hindu than any other wing of the state.

Desired reaction never came from Muslims. Hindus went on provoking them at every level. They did it at Godhra. *Nara Medh* started on Feb.27, 2002 and went on in many parts of Gujarat.

Meanwhile, to divert the public attention, the brahminical media went on tom-toming on Ayodhya.

What Vajpayee means by *Raja Dharma*

The Ayodhya drama ended on Feb.15, 2002 but the Gujarat *yagna* continued. Our "great" Prime Minister visited Gujarat and instead of denouncing Modi, gave him a good conduct certificate.

Great reaction came from the PM in the name of *Raja Dharma*. Media gave extensive publicity to PM's words. What *Raja Dharma* meant is known to all *Manuavadis*. Their god Rama had set the model for *Manuavadis* to follow. Every Indian who knows the *Ramayana* is familiar with this *Maryada Purushothama*. Wali was killed by Rama hiding behind a tree. Ravanaeswara was killed after dividing the brothers, tempting Vibhishana with the power of Lanka kingdom. On return to Ayodhya, he chopped off the head of a defenceless, pious person performing *thapas* by closing his eyes. All these are done by god Ram to maintain the supremacy of *Manuavadis*, the Brahmins. This is what is meant by *Raja Dharma* also which the Father of "Hindu nation", M.K. Gandhi, called as *Ram Rajya*. Significantly, this "non-violent" saint-politician is from Gujarat.

Mayawati, a Chamar lady and Chief Minister of UP, never spoke a word against Modi and Gujarat. A great lapse on her part when every politician in India was shouting about Gujarat. She politely said that Godhra train fire inquiry will tell the entire story.

Muslims as second grade citizens

Forensic report, with every minute details, has come out now. The report says that the carriage was not burnt by the use of kerosene, diesel or petrol. They were not thrown or set on fire from outside. Doors and windows were open and not damaged, as reported. Not even a single rod of window grill was broken. The train carriage was stopped at a place in Godhra where the ground was seven feet below the windows of the carriage.

The carriage was burnt by sprinkling highly inflammable liquid systematically and later set on fire from **inside**. Inflammable liquid was carried by people who travelled in the train itself. This is what is called Hindu non-violence. Did the Muslims make a study of the "Hindu mind?" Have the Muslims **identified** their Enemy? No.

About Ayodhya, the VHP declared that they never cared for court judgment and would proceed with the construction of the Ram temple on the same site where Babri Masjid existed.

The RSS has declared that Muslims have no equal rights within India. Once they had Pakistan, a separate land for Muslims, they can live in India according to the wishes of the RSS. This is the meaning of Hindu justice.

The Hindu nazi rulers have made their stand on both crucial issues very clear without any ambiguity. Why this confusion among Muslims to understand this clear warning?

In spite of all this some Muslims met RSS leaders and sought Hindu-Muslim unity. Can a lamb sleep with wolf? Muslims have not yet understood how crooked and cunning the *vaidiks* could be.

DV Editor's "Dalit-Muslim unity" philosophy

Any "dialogue" of Muslims with Hindus is a betrayal of the entire Muslim community after the Gujarat incident. If any one is interested to have "Hindu-Muslim unity" they can do so after knowing that Brahminism — now calling itself Hinduism — is a religion based on hate-mongering, racism and violence.

Brahmin is the name of a caste which demands respect from every one but will never extend respect to others. This is universal truth.

If this is the final position, where is the meeting point for Hindu and Muslim? Not only the two have different religions but have different social values.

It is my duty to tell my Muslim brothers that Dalit-Muslim unity is not an end in itself. It is only a beginning of building the Bahujan Samaj unity philosophy propounded by our Editor, V.T. Rajshekar.

A DV Muslim family member wrote welcoming the Editor to become a Muslim. I don't find fault with his suggestion. But the difficulty is V.T. Rajshekar is fighting a war for liberation of all the oppressed people of India. The Bahujan Samaj comprises different religions and innumerable castes, subcastes and tribes. If every one wants to own him, then how many dresses our Editor should have? Ultimately we will have only one of his dress and thereby we miss Editor.

Stop talking of conversion

I would like to tell our Muslim brothers not to discuss about conversion. That is not the issue before us. Muslims themselves are in a life and death struggle today. Why should they drag Dalits also by converting them? Our Editor is a big force in the country today both among Dalits and Muslims. He will lose his credibility if he opts for conversion.

As a Dalit myself I have to place my angle of thinking on the subject of Dalit-Muslim unity.

Like the Muslims, no Dalit calls himself a "minority". Dalits may have innumerable castes and subcastes. It is also a fact that they have many languages. Yet, they are a single unit. Their unity is issue-based. Every Dalit irrespective of his caste or subcaste is aware of his enemy. He has **identified** the Enemy. No confusion about it. Their problem is economic. They are

poor, landless labourers. Economic dependence made them to adjust with Hindus for existence.

Dalit identity is still intact

But it never took away their independent **identity**. They have their own customs, traditions, deities, religious faiths. They live a life of their own. If any Muslim thinks that Dalit, particularly a Holeya or Madiga, is not allowed into a Brahmin or Hindu house, better if they know that the Dalits too will never admit a Brahmin into their houses and consider his entry as a bad omen. Even an illiterate rustic woman holds that opinion. Faithfully follows that custom. So I want to impress every one that poverty of Dalits never made them to sacrifice their special **identity**.

Being builders of one of the most advanced civilizations in the world, they have maintained their well developed languages, Kannada, Tamil, Telugu, Malayalam, Tulu etc. Even today no invasion of Aryans or imperial rule of British could replace Dalit languages with Sanskrit or English.

Dalit inherent power is like that ash-covered burning coal. It can burn like Ekalavya of the Epic Age, Begum Hazarath Unnisa of Moghal age and Dr. Babasaheb Ambedkar of British age. Aryans, the *Manwadis*, are well aware of the danger of this ash-covered burning coal and therefore carefully kept them suppressed, passed on this message to all people to be careful about Dalits. Yet, no one could avert a Kanshi Ram or Mayawati. The *Brahmana Jati Party* (BJP) came down to have compromise with them.

So, handling of a sensitive issue like the Dalit-Muslim unity can only be done by people with love, sincerity, ability and a mission in life like our Editor, V.T. Rajshekar.

Before concluding, I like to thank all dedicated Muslims and request them to build a strong Dalit-Muslim unity as a strong foundation to have a superstructure of Bahujan Samaj.
