

ZIONIST PLOT TO DOMINATE WORLD

(Dalit leader predicted it 32 years ago)

B. SHYAM SUNDER

REPRINTED - 2003

Rs. 5

This is the hitherto unpublished presidential address of B. Shyam Sunder, ranked next only to Dr. Babasaheb Ambedkar, delivered at a two-day "Palestine Movement Conference" at Allahabad on Sept.27 and 28, 1969.

The great Bhim Sena leader, familiar to *Dalit Voice* readers, is the father of the Dalit-Muslim unity movement. The speech proves his extraordinary foresight and depth of knowledge in warning the Muslims about the dangers of zionism which has become a deadly international menace after it joined hands with White Western racism and India's Hindu nazism.

The subject is topical in the light of the Sept.11, 2001 devastating "terrorist" attack on United States triggering a war between Christians and Muslims — a "Clash of Civilisations" as envisaged by the zionists.

A Muslim friend at Hyderabad remembered about the copy of this speech with him when America was attacked and rumours started flying about zionist hand in this tragedy which may well change the world history.

The speech originally published in the *Dalit Voice* (Oct.16, 2001 p.11) is reprinted as the Christian-Muslim clash has all the potentials of exploding into a Third World War.

Shyam Sunder's warning has great historical importance to cement Dalit-Muslim unity in India.

Dalit leader predicted zionist plot to dominate world 32 years ago

B. SHYAM SUNDER

Friends,

When I received a letter from Lucknow asking me to preside over the "Palestine Movement Conference" at Allahabad, I considered the proposition for sometime and then decided to agree because I represent a suppressed and oppressed people, who, like the Arabs, have been made refugees in their own home. The world does not yet know that the Aryan invaders of India, who now rule over us, are as much foreign to this country as the rulers of Israel. With the help of their priests and in the name of their gods and *dharma* they seized our lands, they dispossessed us of our property, ruined our culture and made us what we are today, namely serfs and dependents of the so-called Hindu community.

Arabs will be enslaved like India's Dalits

I seriously apprehend that the plight of the Arabs will be the same as ours, if they do not unite in time and throw away the foreign intruders. It was this feeling which prompted me to come here and place before you my humble views on this subject. Appropriately, the Khaksar movement in India has stood for the rights and freedom of the suppressed races. It is in fitness of things that we Indians recently freed from the foreign yoke are upholding the Arab cause, as the Arabs are gravely threatened by foreign domination.

Friends, let us first understand the full connotation of the term "International Jewry" in the context of world politics. This is necessary to appreciate the urges of the Palestine movement. Apparently the world is divided into two camps — capitalist countries headed by America and communist countries led by Russia. But the fact of the situation is that

the capitalist camp is essentially inspired by the Jews. "International Jewry" has played a dominant part in the political history of the world.

Britain, France and particularly USA are under the influence of Jews is more or less known and admitted but many will lift their eye-brows if I tell them that the best brains of the Communist movement also have been Jews. Karl Marx was a Jew. Trotsky and Lenin were of Jewish origin. Soon after Lenin entered Russia, Trotsky too landed there with a batch of 300 Jews from America and then all these Jews along with other progressive elements in Russia planned and executed the Russian revolution.

Jewish secret book of conspiracy

The Zionists have been planning for quite a long time to bring the entire world under their sway. They held several secret meetings from 1897 to 1905 and laid down principles and programme to suit the best interests of Zionism. The details of their policy, the strategy and the tactics to be used, were all reduced to writing and compiled in a book entitled *The Protocols of the Learned Elders of Zion*. It is not surprising that any one possessing this secret document was immediately put to death. The reason is obvious. If this document is allowed to circulate it would expose the ultimate design of Zionism. The concept of international communism given by Karl Marx and Lenin would have frustrated the ambitious plan of the Zionist. Trotsky's defeat by Stalin after Lenin's death, put to rest the concept of international communism and had given impetus to international Zionism. Trotsky was an irrepressible supporter of Marxism and international communism as opposed to Zionism.

With the formation of the United Nations Organisation (UNO), Anglo-American Zionism again saw their opportunity to capture the seat of international power, so that they could, in due course, establish their financial hegemony over the

backward Asian and African peoples and thus defeat the people's movement.

Friends, would you believe that the UNO itself is in effect one of the vehicles through which the Anglo-American zionism carry on their international manoeuvring. In ten of its most important branches, no less than 73 Jews hold the topmost positions. In the UN secretariat, 22 of its highly important departments of UNESCO are headed by them. Three branches of International Labour Organization (ILO) are in the hands of such officials. There are 11 Jews as chiefs of important departments in Food and Agriculture Organisation (FAO). The World Bank and International Monetary Fund are respectively headed by six and nine departmental heads, who belong to World Jewry. A well known Jewish lawyer of the New York, Henry Klein, in his book, *Zions Rule the World*, he wrote:

"The United Nations is **zionism**. It is the super-government mentioned many times in the *Protocols of the Learned Elders of Zion*, promulgated between 1897 - 1905."

Jews ruined arabs

Jean Izoulet, a member of the "Jewish Israelite Alliance Universelle", in an article in "Paris La Capital Des Religions" in 1931, wrote thus:-

"The meaning of the history of the last century is that today, three hundred Jewish financiers, all masters of lodges, rule the world".

The zionist have even tried to camouflage international communism. A typical sample of that attitude can be had from the writings of Theodor Herzl, the original schemer of zionism, who writing in his book, *The Jewish State*, (1896) says:

"When we sink we become a revolutionary proletariat, the subordinate officers of the revolutionary party: When we rise, there rises also our terrible power of the purse".

So much about international zionism. Now let us see the

position in the Middle East. In 1917, when Lord Balfour, made his infamous declaration promising a "national home" for Jews in Palestine, 92% of the population of Palestine were Arabs and there were only 56,000 Jews in Palestine. The world knows that this declaration was immoral, unjust and illegal and only served the British imperial interests.

U.S. hand in creation of Israel

The gift of Palestine to the world Jewry was arbitrary and was effected without consulting the Arabs who constituted an overwhelming majority of the population and was denial of the right of self-determination to Palestine Arabs.

Later it sought to provide the scattered international Jewry a "national homeland" as a reaction to the intense persecution of Jews in hitlerite Germany.

We all know that Israel is the creation of Anglo-American diplomacy and its formation accentuated Anglo-American capitalist interest.

Between 1918 and 1948, the 30 years of British occupation and rule, the zionists were able to seize only 3 1/2% of the land of Palestine. When the British transferred the Palestine problem to the UN, Israel occupied 77% of the total area of Palestine through acts of terrorism and massacre. According to the eye-witness account of the International Red Cross representative, Deir Yassin, an Arab village was attacked on April 9, 1948, by two Jewish groups and 254 Arab men, women and children were slaughtered and their bodies stuffed into a well. Later in the occupied regions, the Israeli troops blasted their houses, killed many of them under the curfew imposed by the Israel authorities.

The UN General Assembly could not get a majority to recommend the creation of the jewish state in Palestine but American pressure over Afro-Asian states helped the creation of a Jewish state in Middle East. Laurence H. Smith, an American Senator, in a speech in the Congress deplored:

"The pressure by our delegates, by our officials and by

the private citizens of the US constitute the most reprehensible conduct against them and against us".

The partition plan envisaged a Jewish state on 56% of the territory of Palestine, an internationalised zone of Jerusalem of 2%, the remaining 42% being an Arab state, but brute force and international intrigues gave to Israel 77% of the whole area.

U.N. mediator murdered

The UN sent a mediator named Count Folke Bernadotte to Palestine. He was murdered by Jews. In his last report he said "The Jewish state was not born in peace as was hoped for in the Resolution of Nov.29, 1947, but rather in violence and bloodshed."

And one day before his assassination, he declared:

"The right of innocent people, uprooted from their homes by the present terror and ravages of war, to return to their homes should be affirmed and made effective".

✓ Israel, the new Jewish state, the new homeland of international zionism, has been condemned 14 times since 1967 by the UN General Assembly. She has likewise been censured more than 30 times for armed attacks against Arab countries. As a result of the aggression in 1967, Israel has annexed an area three times of its former size and displaced more than 1.5 million Arabs from their homes and lands. Don Peretz estimated, as late as 1954, that 350 of the approximately 400 Jewish settlements created after 1948 were on refugee property, and that two-thirds of the cultivated land acquired by Israel had been refugee-owned.

Why are Arabs disunited?

The policy of this new Jewish state, from its very inception has been anti-people, anti-Arabs and anti-oriental Jews. It only served Anglo-American interests. The Anglo-American block did not allow the wishes of the majority of UN members to prevail.

Isaac Deutscher, himself a Jew, in his posthumous work,

The Non-Jewish Jew, And Other Essays, (1967) on the Arab-Israel conflict in Palestine, sums up the position thus:

"The responsibility for the tragedy of European Jews, for Auschwitz, Majdanek and the slaughters in the ghetto, rests entirely with our Western bourgeois civilisation of which nazism was the legitimate, though degenerate offspring, yet it was the Arabs who were made to pay the price for the crimes of the West committed towards the Jews. They are still made to pay it, for the guilty conscience of the West is, of course pro-Israeli and anti-Arab. Israel has allowed itself to be bribed and fooled by false conscience money".

I shall not take up much of your time by giving other details of Jewish aggression and fraud supported by Anglo-American imperialism because the facts are well known, but what perplexes and confuses me is: Why are the Arabs still so complacent and disunited? Do they not know that the Greater Israel plan includes the whole of Syria, Lebanon, Jordan, Iraq, Southern Turkey, Sinai and the entire region of Nile Delta, the Northern region of Hejaz and Najd including the city of Madina? Have they forgotten the motto adopted by the Jewish parliament?

"Your boundaries, O yea Israel, extend from the Euphrates to the Nile".

Anglo-american capitalism

Not content with making thousands of Arabs homeless and destitute, Israel wants to be in strategic control of the Middle East, not only for her own ambitious purposes but to serve the ambitions of other imperialist powers.

A serious question arises here. We know that the Jews have the full political and military support of American, Britain, France and other European countries. The Arabs have, therefore, to rely only on Soviet Russia to defend themselves against Israel.

Israel does not simply represent the homeless Jewish people. It, in fact, represents the international zionism backed by

Anglo-American capitalism and aims to prevent the spread of communist thought in the Middle East and subsequently in Asia and Africa. It is a base to fight international communist ideology. Its immediate object is to subdue and over-awe the backward and weak Asian countries particularly the Arabs. Formerly, British and American interests openly operated against the Arabs but after the Suez debacle and the notable part played by the Afro-Asian block in the UNO headed by our great Prime Minister Jawaharlal Nehru, the British and American interests ceased to operate openly and put up Israel as the main contending force. It is in fact a conflict between monopolist and the progressive forces. Whether it is the nationalisation of Suez or the nationalisation of oil companies or for that matter the nationalisation of our Indian banks, the dispensation of forces is the same and the fight is on between the progressive and the reactionary forces.

Nasser as stooge of West

The statement made by President Nasser to the *New York Times* correspondent that none of the Arabs wanted to eliminate Israel is an accommodating and realistic feature of Nasser's policy now. President Nasser added:

"Arabs wanted that the ousted Palestinians should have the right to live and their property returned as assured by the UN Resolution 7 years ago.

I will give you another proof of President Nasser's accommodating policy towards the Jews:

The BBC representative interviews president Nasser and asked: "Whether he had any solution for ending Israel as a State?" To this he replied that "the Palestinian refugees wanted to go back to their homes so that they could regain their lost properties. Israel up to now has refused to restore this right". The interviewer asked: "What would happen if all the Arabs go back to Palestine?" Nasser unblinkingly replied: "It would eliminate the tension (between the Arabs and Israel)".

In another interview to *Newsweek*, on 3-2-1969, Nasser said:

"The only way for Israel to become a country that is not based on religion but in all religions — a nation for Jews, Muslims and Christian; they lived for centuries together with few problems".

Even so the over-lords in Israel seek to hold back the Arab territories and humiliate President Nasser.

They are not prepared even to contemplate a bi-national Arab-Israel state. In reply to a question as to Israel's ability to absorb the Arab population in the newly occupied areas, Moshe Dayan said:

"Economically, we can, but I think that is not in accord with our aims in the future. It would turn Israel into either a bi-national or poly-Arab Jewish state instead of a Jewish state, and we want to have a Jewish state".

Friends, recognising Israel would mean the denial of the right of the Arabs of Palestine to exist. The Zionists and their supporters are following Hitlerite tactics and injecting racial and religious animosities into political issues. The setting on fire to Al Aqsa Mosque has the same technique and motive as the Reichstag Fire in Berlin immediately after Hitler's advent to power. Why? Because Nasser refused to submit to Anglo-American financial hegemony and leaned towards Russia both in the Suez Crises and in the construction of Aswan Dam, and openly identified with Russia.

President Nasser and the Arab leaders have yet to play their historic role, first by resisting Anglo-American design over the Middle East, and secondly by uniting the Asian and African nations for a common ideology. In this they can seek a helping hand from Russia and China. The latter had played a notable role during the Suez crisis. ■

Architect of Dalit-Muslim unity

V.T. RAJSHEKAR

If Babasaheb Ambedkar is recognised as the leader of the Indian Untouchables, the credit for translating many of his revolutionary ideas into an action-packed programme goes to Shyam Sunder and his formidable Bhim Sena, a 2,00,000-strong self-defence force of militant Dalit youth which created a tremendous impact in Karnataka, Andhra Pradesh and Maharashtra.

Shyam Sunder became a legend in his lifetime, a scholar, orator, philosopher, poet, writer and a parliamentarian. Born at Aurangabad on Dec. 18, 1908, in an Untouchable family, he passed his BA from Osmania University and soon after doing law, jumped into youth and trade union movements. From then onwards his life was a stormy, endless, battle. After his death at the age of 68 (May 19, 1975) all the top leaders of the Bhim Sena soon deserted it, leaving the movement in disarray.

A close follower of Dr. Ambedkar

A friend and a close follower of Dr. Ambedkar's, Shyam Sunder went a step forward and gave a practical shape to the Dalit movement. He gave Dr. Bhimrao Ambedkar's name to his Bhim Sena.

In his book, *Mool Bharatis*, Shyam Sunder bluntly told the Untouchables:

"We were the rulers of this country before the advent of the uncultured Aryans... We *Mool Bharatis* are not and never been Hindus and are not prepared to help them establish a Hindu Raj in India".

The upper castes may dub the Bhim Sena as a band of anti-social elements often indulging in violence. Violence was there, but purely for self-defence. During my tour of Karnataka, Hyderabad and other parts of Andhra Pradesh

to study the Bhima Sena movement, many leaders of the Congress, Muslims and opposition parties admitted that they were considerably influenced by Shyam Sunder. The Bhim Sena has succeeded in striking terror in the hearts of the Hindus, particularly the landed Lingayats.

United front of the oppressed

The concept of a "Dalit-Muslim unity" was novel in India and Shyam Sunder propounded this theory after making a deep study into the problems of both the communities. It is in the united front of these two most oppressed communities that he found a solution to the country's social ills, including the caste system.

He wanted a joint front of these "two largest minority communities" — Untouchables and Tribes forming 30% of the country's population and Muslims comprising another 15%. Both had identical problems of discrimination, deprivation, exploitation and brahminical tyranny.

Shyam Sunder died at Hyderabad in 1975. Perhaps, no Dalit leader had risen to such intellectual heights after Dr. Ambedkar.

How he died penniless

Despite his lucrative practice at the bar, he died penniless, spending everything he had for the cause of Dalits. Widely travelled all over India and abroad, he even represented the Hyderabad State at the UN Security Council. He was an MLA (1957-61) in the Karnataka Assembly. He was also a deputy speaker in Hyderabad assembly. He had intimate contacts with Harold Laski and Jean-Paul Sartre and made the best use of his visits abroad to apprise of the racism practised against the Indian Untouchables.

He wrote eight books of which his magnum opus, *They Burn*, was published in 1987 by the Dalit Sahitya Akademy. ■
