This is a short introduction of V.T. Rajshekar, Editor of *Dalit Voice*, Bangalore, India, available from interviews given to two foreign correspondents for their journals.

He is called India's "most controversial Editor" by the country's ruling Brahminical minority which also holds a monopoly of its media.

A marxist-turned Ambedkarite, he is the author of about 100 books.

Dalit Voice is the powerful organ of the county's over 85% persecuted nationalities denied human rights.

A catalogue of his books currently available is published in the back cover page.

Introducing Editor V.T. Rajshekar & Dalit Voice

Born (1932) in a farming family, as the eldest son of a government official, I grew up in the west coast district of South Kanara, Karnataka State, South India. After completing BA (1951) at Mangalore, I went to a law college at Mysore but did not complete the course. Then took to journalism, having joined the *Deccan Herald* (1959), then the leading English daily of Bangalore, South India. Then migrated to Bombay after marriage (1960) and joined the *Indian Express*, which was then the largest circulated English daily of India.

As I was not a born Untouchable but belonged to a Backward Caste, I was not a victim of untouchability in the childhood. During the college days I was attracted to marxism because at that time it was the only powerful philosophy of fighting class enemies. My one year work in a cotton textile mill in Bombay (1950-51) gave me all the practical experience of oppression of mill workers (who are all Dalits) and the need for class struggle. I became a convinced marxist. Short of joining the

communist party, I was working in close cooperation with the party leadership.

As the *Indian Express* was owned by a Marwari capitalist, I resigned the job to join India's first socialist English daily set up in Delhi by leading communist leaders. My two years in the communist daily (*Patriot*) was a big disappointment. Most of the seniors in the daily, established with the money and machinery given by Soviet Russia, were Brahmins and other upper castes who were no different though calling themselves communist.

DISAPPOINTED WITH MARXISM

Having been fed up with the communist experiment, I came back to Bangalore from Delhi and joined the newly-started Bangalore edition of the *Indian Express* as a reporter. Though all the Brahmin journalist colleagues called themselves socialist, there used to be a subtle discrimination against me. And when I probed I came to know it was because of my "caste".

This was the first time I was made aware of the

“caste” factor and some friends suggested that for better understanding of the caste problem, I must read Dr. Ambedkar, Periyar E.V. Ramaswamy and Dr. R.M. Lohia. Being a voracious reader, I devoured their entire literature which gave me an altogether new vision of life.

HUMAN PYRAMID

India is the only country in the world which has this peculiar institution called the caste system based on an ascending scale of reverence and descending degree of contempt. People are graded resembling a human pyramid in which there is neither promotion or demotion. The Untouchables forming about 20% of the country's 112 million population are pushed to the bottom of this pyramid and forced to carry the weight of the entire pyramid.

After making a deep study of Dr. Ambedkar literature and closely working with the Dalits I came out with my first important book, *How Marx Failed in Hindu India* (Dalit Sahitya Akademy-1978) in which (and other supporting books) I propounded the theory that the marxian concept

of "class" is nothing but "caste" in India. All upper castes also belonged to the upper class and vice versa. "Class struggle" in India, therefore, has to take the shape of "caste struggle".

The marxist leadership, then headed by E.M.S. Namboodiripad, a Kerala Brahmin, was furious with my interpretation and I was dubbed casteist and a saboteur. By then, having drunk deep in Dr. Ambedkar's philosophy and fully convinced, I had already launched a Dalit movement which gained an instant popularity.

Though I spent 25 years in English journalism, I was not in the *Indian Express* throughout. For one year I was in *Deccan Herald*, and three years in *Patriot*, India's first communist daily from Delhi. The rest of the 21 years were in *Indian Express* of which the longest innings was in Bangalore.

THORN IN BRAHMIN FLESH

I became a thorn in the Brahmin flesh and they got me dismissed from the *Indian Express* in 1980 on a flimsy charge that I was writing articles to other papers. My last position was Dy. Chief Reporter.

Having been convinced that the entire media, in the hands of Brahmins and other upper castes, was suppressing Truth and publishing only distorted and false image of the society, I thought it was my duty to fill this gap by starting an English journal for Dalits. Though the title of my paper is *Dalit Voice* (started in 1981) it actually is the voice of the entire Bahujan Samaj — meaning the original inhabitants of India comprising over 85% of India's population.

India's population is over 1,000 million of which its original inhabitants comprise 85%. DV looks after the interests of the indigenous Indians.

DALIT LIBERATION THROUGH MEDIA

That is how DV became popular among Muslims, Christians and Sikhs though it is still to catch up with the Backward Castes (BCs). This is because the BCs despite being numerically India's single largest caste group (35%), they consider themselves Hindu.

Dr. B.R. Ambedkar has given his "Three Commandments: Educate, Agitate, Organise". Educating the people on the revolutionary

thoughts of Dr. Ambedkar gets the highest priority. DV is doing this job of “educating” all the victims of Brahminism. Dr. Ambedkar, whom we call the “Father of India”, is the sole inspiration to set up DV.

INSTANT SUCCESS

My dismissal from *Indian Express* (1980) made me jobless and I started DV as a mission which soon became a success. And today it is internationally known. I have authored many books (over 100) which are translated to different languages in India and abroad. Many books are still in the manuscript stage for want of funds.

The decision to launch DV was my own. Since it was the first Dalit journal of its kind, it proved an instant success.

Yes, I am 75. But I don't feel the weight of age. I am driven by a burning fire inside — the fire to destroy everything that is old, rotten, stinking and then establish something new, refreshing, healthy and noble. That is what keeps me running around the country and outside.

FAMILY

My wife, Hemlata, died (2000) out of cancer. Now I live alone in a small rented house in Bangalore. My only son, Salil, is in New York on a United Nations job and his wife (Bina) and two wonderful children (Tashi, she is studying in Cambridge University, and Tahir still schooling) live in London. I call them two jewels in my crown. My son and his family not only fully support me but they are part of my mission.

“JEWS OF INDIA”

India, the world's second most populous country, is sinking under the weight of Brahminism, the accursed philosophy of the ruling 3% Brahmins who, my research has revealed, are the “Jews of India”. This Brahminical false “philosophy” of inequality and inhumanity is keeping over 85% of the Dalits (20%), BCs (35%) and Tribals (10%) plus Muslims (15%), Christians and Sikhs (5%) as slaves. The cause of India's misery and steady fall from Third World to Fourth World is Brahminism. Unless Brahminism is destroyed and the people (including the Brahmins) liberated by an

egalitarian revolutionary philosophy India will go on sinking and we all will become eternal slaves. This burning desire inside me is driving me — keeping me young and energetic.

LONDON AWARD FOR “CASTE” BOOK

Every book I have written deals with a different, independent subject of great relevance to the oppressed people of India. So every book is equally important. But of the lot *Caste - A Nation Within the Nation* (Books for Change, Bangalore, 2002) got the LISA International Award in London headed by Brig. Usman Khalid of Pakistan.

It is not for me to pass a verdict on what we have achieved in the past 25 years of *Dalit Voice*. It is for our DV family members to judge our work. As this is published *Dalit Voice* silver jubilee celebrations are going on in different parts of India. We had our celebration in London (July 26, 2007). Celebrations will continue throughout the year.

At least 50% of our DV family members have been with us from the very inception. DV is not a mere journal. It is a family worldwide. It is a team of

revolutionary thinkers and scholars. Our DV family has stood by me throughout. To this day we did not miss even a single issue of *Dalit Voice*. That is the greatness of DV. Not one single member has any complaint against us. They have implicit faith in the Editor.

India, a country with the world's second largest population, is ruled by a micro-minority of Brahmins who as Aryans came to India as invaders some thousands of years ago. Their first depredation was the destruction of the Indus Valley Civilization which is ranked next only to the Nile Valley Civilization. This devastation brought the Brahmins in direct confrontation with the country's original inhabitants who are now known as Dalits, the Black Untouchables of India.

BUDHISM KILLED

The fight between the invaders and the indigenous people gradually increased giving rise to the birth of Buddhism, the world's first most liberating religion— though Gautam Budha, its founder, never called it a religion. The Buddhist rule (600 BC to 800 AD) was the most glorious period of

Indian history. Buddhism offered stiff fight against the Brahmin invaders and finally defeated them. Almost the entire country became Buddhist which liberated the indigenous people from the scourge of Brahminism.

But Brahmins did not give up. They used all the cunning craft including bloody violence to kill Buddhists and succeeded in finally driving Buddhism out of India.

The fight between the invading Aryans (15%) and the indigenous people (85%) is continuing even to this day despite India becoming "independence" (1947). This fight will continue.

U.S. CONGRESS RESOLUTION

The US Congress passed a resolution on June 23, 2007 condemning caste discrimination and untouchability in India. But this will not bother its Brahminical rulers because the Brahmins have a powerful hold on the US Administration (DV Edit Nov. 1, 2007: "*Jews of India getting closer to Jews*"). If the US Administration is controlled and guided by the Neocons (meaning Jews) the Indian Govt.

is controlled by the “Jews of India”, meaning the Brahmins. (Read our book, *Brahminism*, DSA-2002).

Since both Jews and the Brahmins originated from the same Middle East with a common ancestry and common qualities, the Brahmins have become chummy with Jews and hence fully confident of managing things in USA.

The Indian Constitution itself calls for abolition of untouchability but even after 60 years untouchability (racism) is reigning supreme here thereby proving that the Brahmins consider themselves above law and above the constitution of India.

CASTE APARTHEID

What foreigners and even many inside India do not understand is untouchability (racism) is an essential part of the caste system. Neither the Indian constitution nor the US congressional resolution demands abolition of the caste system. So, any reference to abolition of untouchability without abolishing the caste system has no

meaning. The Brahmins alone know it and are silently laughing over the US Congress resolution.

Abolishing caste system means abolishing the Hindu religion itself which is next to impossible. Brahmins are confident that they can go on confusing the people inside and outside and continue to rule India. Ever since India became "independent" in 1947, it is under direct Brahmin rule — but neither living nor dead.

"INDIA SHINING"

The Indian rulers were once the most vociferous critics of the South African Apartheid while enforcing the worst form of Apartheid inside India. But the world outside does not know anything of the rot inside the belly of this Brahminical beast because the entire media, history books and its education system are controlled by these very same forces.

The caste apartheid inside India is so sweeping that to escape its rigours millions of the oppressed got converted to the three egalitarian religions — Islam, Christianity and Sikhism. At this rate

Hinduism will soon be a minority religion.

The Indian apartheid system is thousands of years old but the Brahminical rulers are least bothered despite the fact that India continues to be in the Third World and conditions are fast deteriorating. But these rulers with the help of their monopoly media put out false reports on "India Shining". Not only the countryside is devastated but even the metro cities, where the ruling Brahminical people live their life of leisure and pleasure, are sinking.

ARRESTS & JAIL SENTENCE

Bombay, India's biggest city (population 250 million) is fast dying. Calcutta died 20 years ago. Unemployment, falling health conditions, illiteracy, poverty, deprivation are all increasing. All big cities are sinking. India is heading towards total chaos and the government is increasingly feeling that India is becoming ungovernable.

All this is because the country is ruled by a tiny 3% Brahmins together with the other three upper caste sections. Put together the ruling castes make

up a tiny 15% of the population which is not willing to implement the constitution of India. Its judiciary, media, education system and even top defence and administration apparatus are completely monopolized by this 15% ruling class.

For pointing out such blatant violations of the very constitution of the country, we were arrested four times, jailed once (Chandigarh, 1986) and passport impounded for 20 long years. There were two attempts on our life also.

GANDHI BETRAYED DALITS

Dalits, who are pushed to the bottom of this deathless caste pyramid, are the worst sufferers and we have any number of govt. reports itself to testify this. The Muslims (15%), who are mostly converts from our community, are equally hated and persecuted.

Untouchability (racism) is an essential part of the caste system. So anybody wanting to abolish untouchability must also fight against the caste system. M.K. Gandhi wanted only the abolition of untouchability while defending the caste system.

For playing such a mischief and deceiving the Dalits, the Brahmins richly rewarded him, though at the end they only shot him dead when their work was over. (*Why Godse killed Gandhi?* DSA-1997).

Is there any hope of Indian rulers agreeing to destroy their caste system? No. Never. Because the destruction of caste system means destruction of Hinduism, the religion of the rulers. Will any ruler put a knife into his own stomach? This has not happened in the last over 3,000 years. We have no hope of Indians destroying Hinduism in the near future unless there is revolution.

REVOLUTION NOT POSSIBLE

India has never seen a revolution in its long history because it was never one single nation. A revolution is possible only when those launching it belong to one nation. The country's oppressed and the persecuted millions (85%) are today made to believe that their suffering, misery and poverty are due to their own past misdeeds. In other words, the Untouchables, the worst sufferers of the caste apartheid, are made to believe that they are

suffering because of their past deeds (*karma*). When the oppressed has not even identified the oppressor how can there be any revolution?

So we have no hope.

Inter-caste marriages are confined to urban and that too at the upper caste level. Such marriages are an exception. In other words, the caste system is intact and going strong.

M.K. Gandhi deceived the oppressed people of India and particularly its Dalits. That is why the leader of Dalits, Dr. B.R. Ambedkar, called Gandhi the "Enemy No.1 of Untouchables". If India is what it is today, a beggar country, the credit should go to this "Father of the Nation", Gandhi.

RISE OF CHINA

That means the future is grim. China, which became independent two years after India and having a much bigger population, has galloped and is well set to become the world's No.1 country within 15-20 years. But India is sinking from Third World to the Fourth World while putting on a false face.

If India has to live the caste system has to die. And to kill the caste system India needs a revolution. But alas instead of a revolution we are in the midst of a powerful Brahminical counter-revolution. In other words India is neither living nor dead.

SUPPORT TO MUSLIMS

Brahminical rulers with the help of their monopoly media have done considerable damage to Muslims and made them an object of hatred. Fortunately this Hindu propaganda is purchased only by the literate people who are not even 30% of India's population, mostly urban dwellers. Villages are free from anti-Muslim virus. As Muslims of India are 90% converts from our people, they are our blood brothers and we have the best of relations with Muslims. That is why many *Dalit Voice* issues from cover to cover is packed with issues dealing with Muslim problem — though in our DV family members only about 15% are Muslims. Yet no DV member objected to our coverage of Muslim issues because they all know the Muslim suffering is genuine and that Muslims are our blood brothers.

MUSLIM LEADERSHIP

However, we have some regrets in our support to Muslims. This is natural in any revolutionary struggle. Our complaint is only against India's Muslim leadership — mainly the religious and political leadership. We have been repeatedly writing and speaking that the "Dalits (Untouchables) are not Hindu and were never Hindu". This is a quotation from Dr. Ambedkar. Not only that. Even the BCs and STs of India are not Hindu. The Hindus are only the 15% upper caste Brahminical people (Brahmin, Kshatriya, Vaishya) who are not even 15% of its population.

DALITS & MUSLIMS ARE BLOOD BROTHERS

But the problem with our Muslim leadership is (we have no complaint against the masses of Muslims who are our own people but being innocent misled by the leadership) it always talks of "Hindu-Muslim conflict". It blames the "Hindus" for the violence against Muslims.

The Brahmins in the course of past several thousands of years have *hinduised* (enslaved) the

entire Dalits, BCs and Tribals who today consider themselves Hindu because of this centuries of brain-washing. When the Muslim leadership blames the "Hindus" for their misery, the Brahmins make use of this contradiction and instigate them against Muslims. And thereby they further sharpen the contradictions and widen the Hindu-Muslim divide.

DALIT-MUSLIM UNITY

The Dalits in particular are all beef-eaters like Muslims and both being the poorest of the poor live together and work together. It is also true that in all major anti-Muslim riots the Brahminical RSS-BJP terrorist parties use the Dalits against the Muslims. It is true that the Dalits were used to demolish the Babri Masjid. It is also true the Dalits were used to kill Muslims in the Gujarat Genocide (2002). But we have met Dalits in both the places and in all other places of major anti-Muslim riots and found that the RSS-BJP used the Dalits by bribing them and supplying drink to attack Muslim. No Dalit in India has any complaint against the Muslim.

The Muslim leadership knows this. I have met almost all the Indian Muslim religious leaders to further our mission of Dalit-Muslim unity. The Muslim leadership no doubt fully supports our mission but can't understand the simple fact that Dalit-Muslim unity will never, ever be a reality as long as the Muslim leadership goes on criticising the "Hindus" for the violence against Muslims.

We have spent about 30 years propagating Dalit-Muslim unity of which the late Moulana Hasan Ali Nadvi of Nadwa was our greatest supporter. He released the first issue of *Dalit Voice* in Bangalore in 1980.

Brahmins have superior strategies and tactics — apart from the full media support. The Muslims neither have the media nor even right strategies and tactics.

MUSTADAFEEN

This is our greatest regret or our greatest failure. We are seriously worried because the Muslim leadership is not able to understand the simple truth that we Dalits, BCs and Tribals are the blood enemies of Hindus (Brahmins). Our fight from

morning to night is only against Brahminism which is oppressing us. We have nothing against Muslims.

We have written enough on this subject and have become sufficiently unpopular among the Muslim leadership though the masses of Muslims love us.

HERO'S WELCOME IN PAKISTAN

If only India's Muslim leadership starts using our (DV) language and proudly announces that "Dalits are our blood brothers" (*Mustadafeen* - the word used in the Quran) and that only the 15% Brahminical people are the enemies of both Muslims and Dalits, you can take it from us that there will be a turmoil in India and the Dalits will get tremendous courage and strength. Not only Dalit-Muslim unity will spring up overnight and many Dalits will take up direct action against the Brahminical people. And there will be a revolution in India within 2-3 years.

Muslims ruled India for 800 years. The masses of Muslims are mostly converts from the indigenous population who went over to Islam to get rid of the

Brahminical slavery. Yet having been children of this soil, Muslim leadership has not understood India and its society.

This is our greatest regret. We shared this with Brother Brig. Usman Khalid in London and he was shocked to hear about the intellectual poverty of India's Muslim leadership.

When we visited Pakistan on the invitation of the government to inaugurate the Dr. Babasaheb Ambedkar birth anniversary on April 13, 2007, we met a large number of journalists, scholars and political leaders. They were all shocked when they heard the situation inside India. I received a hero's welcome.

DALITS USE AGAINST MUSLIMS

As long as India's Muslim leadership does not change its strategy and tactics, its vocabulary and starts **identifying** its enemy oppressor and also names it, the Muslims will go on playing into the hands of Brahmins who will go on using Dalits against Muslims and keep the two nearest blood brothers fighting. And dividing the two, the

Brahmins stand to gain and rule.

We poured out our agony into a tiny book called the "*Curse of Allah*" (DSA-1997) in which several revolutionary Muslim writers shared our thoughts.

The Muslims of India are today daily targeted and daily killed. The Brahminical rulers are using the Western anger against Muslims to "punish" Muslims of India. Yet the Muslim leadership of India is not understanding that they should join hands with us — the born enemies of Brahmins.

DREAM OF MEDIA CENTRE

DV is being published in six Indian languages besides English. Our Hindi edition published from Delhi has a fairly good circulation.

The circulation of English DV is not good enough because English itself (reading and writing) is confined to just 5% of Indian population. And this 5% is hard-core Brahminical. The circulation of DV is neither going up nor down for the past over 15 years.

We are financially weak because the Muslims, Christians and Sikhs, those following the three

egalitarian religions, are fairly rich but they never bother to support us.

We want to establish a "media centre" in Delhi and shift to the country's capital from Bangalore. That is our dream. Delhi being the capital city and heart of the "cow belt" in North India it is ideally suited. When we say "media centre", we don't mean anything big. India's hungry millions are hungering for Truth which has to be supplied to them in their mother tongue in cheap paper as a weekly journal. That is enough. Such a paper has to come out in at least in all major Indian languages like Hindi, Gujarati, Urdu, Marathi, Bengali. The South Indian mind is already prepared by DV.

FUTURE OF DALIT VOICE

This project does not need much money. Only thing is we have to shift to Delhi for which we are ready. Muslims will be the greatest beneficiaries of our "media centre". But it does not strike them. Their intellectual poverty does not make them think on this line.

By establishing such a "media centre" in Delhi if

we change the mindset of the Muslim leadership, there will be such a revolutionary change in India. This is our sole objective of our life. But this objective can be achieved only if we launch the "media centre" in Delhi and start publishing DV from Delhi.

We did try our best to groom successors but they all ran away in search of quick name and fame into electoral politics which today offers the greatest attraction to Dalits.

DV is running under loss. No advertisement. No paper can survive only on circulation revenue unless its circulation is in millions. Educated Dalits are no more interested in Dr. Ambedkar's philosophy. They raise his name only to further their selfish needs.

DALITS ARE NOT HINDU

Dalits are not Hindu and were never Hindu. This is a fact because from morning to night their fight is only against their Hindu oppressors. But the fact is the masses of Dalits (20%) **think** they are Hindu. To destroy this **thinking** (false

consciousness) mass conversions to Buddhism and other religions are taking place. But the Brahminical rulers and their judiciary take those conversions seriously and punish (with jail) anybody attempting conversion. Because once the Dalits quit Hinduism, the Hindu population percentage, claimed to be 85%, will drastically fall and the Hindu will be a minority in "Hindustan".

SUPPORT FOR DV FROM NON-DALITS

This is an important question. None of the people — Muslim, Christian, Sikh, Palestinians, Kashmiris, Iraqis etc. (whom you have mentioned) — ever supported us. But we supported them. We did not support their cause expecting anything in return. It is our mission to support all the oppressed. The subtitle of DV, "*Voice of the Persecuted Nationalities Denied Human Rights*", makes this clear.

TOTAL BLACKOUT

In fact all the "bad name" came to us because of our support to Muslims.

We have dreams. Many dreams. But the problem

is the total blackout imposed on us by the Brahminical media. They have ruled that our name and that of *Dalit Voice* should never, ever be published or announced in print, TV or radio. Since English literacy is not even 5% and the language literacy is not even 30%, over 70% of Indians whom we support and serve have not even heard of us — though every one in the tiny but vigilant Brahminical world is fully aware of our work and mission. And doing every thing to liquidate us.

WORLD'S MOST VIOLENT PEOPLE

So much so the people for whom we toil and suffer —the “Bahujan Samaj” as it is called now — is not even aware of us while the enemy is all alert to finish us. We don't think people in any other country in the world can be so cruel. The Hindus say that Hinduism is the world's only religion that stands for non-violence but our experience is the Hindus are the world's most violent people.

As we write only in English and we lack funds and competent people to translate our works into Indian languages, our literature, which is loved

by the people who read it and the hunger for literature is increasing, it is not reaching even the literate people among the 85% Bahujan Samaj. This is the greatest tragedy of India.

PASSPORT IMPOUNDED

However, we are happy that we have been able to make the Indian brand of apartheid known to a major portion of the world. The upper caste rulers of India knew that we will do this. They were worried that once this closely guarded secret is out, they will be stripped naked. That is why with their characteristic far-sightedness they impounded our passport in 1986 for full 20 years so that we would not be able to travel outside and wash their dirty linen in public.

Not only we have fairly succeeded in exposing the Brahminical cruelty to the world but also presented their true but ugly face as the "Jews of India".

Since the world is very well acquainted with the atrocities of the Jews and how they have controlled the very brain of the Western world through the

media they own, it became very easy for the lovers of human rights in the world to understand and appreciate the meaning and message of the “Jews of India”. We are also happy that the Brahmin leadership has accepted the new name we have given. Our best selling book, *Brahminism* (DSA-2001) has a whole chapter on this subject.

CURSE OF ALLAH

The Muslim leadership had this capacity to make the truth known to the world but alas it failed — thereby committing the greatest blunder.

Muslims whom we met in England, USA, Iran, Pakistan etc. and elsewhere said Muslims are duty bound to help liberate the *Mustadafeen* as directed in the Holy Quran. The *Mustadafeen* is none but the Untouchables, India’s lowest of the low and the worst persecuted comprising the country’s single largest population. At least 5% of the Muslims of India have the money and the capacity to support us but they did not. It is their unwillingness to support the most deserving cause and fulfil the dictates of Quran that has invited the “Curse of Allah” on them.

KASHMIR PROBLEM

Take the one single case of Kashmir — the world's second longest lasting human problem that caused the death of millions of Muslims. If the Muslims of India and Kashmir today declare that the Kashmir is not a Hindu-Muslim problem but a problem created by India's Brahminical people to keep India-Pakistan pot boiling, there would be a dramatic change overnight and Kashmir problem will be solved in a couple of years.

It is this corrupt "Muslim leadership" that is attacked by the revolutionary Muslim leadership that is emerging all over the world. Revolutionary Muslim masses are fighting and dying for the sake of saving the humanity while this "leadership" has compromised with, if not surrendered to, the Enemy oppressors.

Through DV, we have propounded innumerable theories and they are working fairly well despite the total ban imposed on us in the Brahminical media. The most important of our theory is the "caste identity" and it is working wonders.

Fortunately India's tiny, weak and corrupt

Brahminical media is itself collapsing under its own weight. And the future belongs to us.

CONCLUSION:

Look, DV and its Editor are known to every top Muslim religious and political leaders all over the world and all its Editors and journalists. Yet nobody took any interest in our mission. It is only yourself, despite being a foreign Muslim intellectual, who took so much of interest in the DV career and its mission. Why? Why the Indian Muslim leadership ignored us? The answer to this question will reveal why Muslims are being daily killed in unending cycle of Brahminical violence and the leadership failed to rescue the Muslim masses.

Soon the Muslim masses will come to know the truth and disown this leadership. And that will be the beginning of the Dalit-Muslim unity and the eventual liberation of India from Brahminical imperialism. ■
