(5) It is the confirmed opinion of the working committee that this system of co-existence must be done away with.

(6) This, in the opinion of the working committee, can be done by establishing separate villages exclusively of Untouchables who are now living scattered in small groups under the sovereignty of caste Hindus.

(7) The working committee, therefore, urges upon the Planning Commission to reserve all cultivable wasteland to make barren land cultivable and let colonies of Untouchables settled on such land.

(8) The working committee is of the opinion that to raise the necessary finance that salt tax be re-levied.

Move from the chair, Dr. Babasaheb explained that he was thoroughly convinced in his mind that so long the Scheduled Castes live with the caste Hindus our people will not live the life of freedom and liberty, free from oppression of the caste Hindus. The Madras Govt. wanted to build new cherries for the Scheduled Castes but he was strongly opposed to this idea. He did not want that Untouchability should be made permanent by building new cherries. He wanted them to be burnt.

This resolution was carried unanimously.

Resolution No.8 — (1) The working committee of the federation is sorry for the deaths that have taken place in the Goa *Satyagraha*. The committee, is, however, of the opinion that *satyagraha* is not proper means of achieving the liberation of Goa.

(2) As understood by the committee in *Satyagraha*, *Satya* is common ground to both. The difference is only on *Agraha*. In such a situation *Satyagraha* of the Gandhian type is possible and may be tried. But where there is no agreement of *Satya*, *Satyagraha* of the Gandhian type is a futility. The working committee cannot, therefore, advise the Scheduled Castes to join the Goa *Satyagraha*.

(3) Working committee of the federation is of the opinion that Goa must become a part of India and that the Portuguese must quit. There are three ways of achieving this object. (1) purchase, (2) lease, or (3) war. If Government is not prepared to accept any one of these three ways it is the duty of the Govt. to tell the people what other weapon it has.

Dr. Babasaheb Ambedkar Writings & Speeches, Vol.17, Part-1 (p.440-443) 2003, Rs. 125.

Exclusive villages for Dalits free from Hindu tyranny

Dr. Babasaheb explained that the *satyagraha* can be between two parties who agree on the "Truth". The only difference between the parties is on *agraha*. The British people could give freedom to India because both the British people and the Indians had agreed that the Indians have the right of self-government. In fact this principle of self government was enunciated by Macaulay as far back as 1933. Macaulay said that the Indians were not barbarians. The Indians have a distinct civilization and culture of their own. They, therefore, should be given the right to govern themselves. But in the case of Goa the Portuguese Government did not agree on the question of freedom of Goa. *Satyagraha*, therefore, as a weapon of liberating Goa is not only useless but dangerous. I cannot allow our people to be exposed to bullets and massacre. If we are given guns, we will fight. We, therefore, want to pass the above resolution.

The resolution was carried unanimously.

Resolution No.9— "This meeting of the working committee is not satisfied with the foreign policy of the country. It is neither calculated to strengthen the parliamentary system of Government nor the defence of the country".

After this resolution was carried, the president announced that he has appointed Shri Rajabhau Khobragade as the general secretary of the All India Scheduled Castes Federation.

Resolution No.10 — Resolution congratulating Shri Khobragade was passed.

The chairman was thanked for guiding the deliberations of the working committee.

All members of the working committee were also thanked.

This working committee of the Scheduled Castes Federation further resolved that the president be empowered to draft a resolution on linguistic provinces embodying the following points:-

(1) The states be so divided as to maintain a unity of the country. (2) The administrative languages should be English and Hindi. (3) Bombay should belong to the United Maharashtra. (4) Hyderabad city should be a second capital of India making it a Governor's province. (5) Hyderabad state be divided into different linguistic units. (contd.)

Church exposed Dalit persecution to whole world : Every country today knows Hindu racism

MOSES PARMAR, ALL-INDIA CHRISTIAN COUNCIL, 5 - WAZIR HASAN
ROAD, LUCKNOW - 226 001

Is the Dalit Movement dying?

I identify with the frustrations Com. Ayyankali, Brother Neerav Patel, Dr. Kancha Ilaiah and others have expressed. Many honor Babasaheb in name only while rejecting his principles. The majority of our people are illiterate and hardly know what Babasaheb has written. Others have experienced the benefits of Babasaheb's sweat and blood, yet they are busy filling their homes with wealth and not lifting a finger to help those who have fallen down. Many were empowered and then joined our oppressors, some through marriage, and hardly identify with us. Every year the situation seems to get worse. What is the point of filling pages with words, printing magazines, sitting in *dharna*, and walking in *marches*? At the end of the day, our people are getting raped, abused and killed. Even with great laws like the Prevention of SC/ST Atrocities Act, less than 4% are actually convicted of thousands cases registered each year. More important, no one knows the number of unregistered incidents.

THE CHALLENGE

However, if we study worldwide history we realize that the battle for freedom is never easy. Countries can become free from outside forces like colonial powers, but it is almost a bigger challenge to free the people within those countries who suffer discrimination. The long struggles in Lanka, Palestine, and more have proven this as many opposing forces try to kill the movement toward emancipation and liberty.

And among all the global struggles, the caste system is the most evil and ingenious systems. It is unique. It is even extremely difficult to explain.

THE HOPE

Everyone born in India exactly knows what it is. Even some cultures in Africa and Asia practice it from birth. But when you talk to people from most places in the world, they have no clue about it. Is it color, race, language, wealth, culture, size, surname, or power? What makes the high so high and the low so low? It can be difficult to explain in a way they understand. And how do you stop what cannot be explained? The world understands racism. They know apartheid. But what is Casteism? How does that work? How do you destroy it?

Despite the enormous challenge we are facing, we are not going to give up. Even in tough times, we are making definite progress in many areas. In some places we have gone backward, but overall

we are making slow and steady progress. There is no coming back.

(a). Caste consolidation through "caste identity" has happened. People hate it, but it has worked. More and more groups are **identifying** themselves with caste and trying to assert their presence.

(b). This has provided some political awareness and even limited power to some of our people. Many of those in power may not be committed to Ambedkarite ideology, but at least our enemies have realized that they cannot ignore the power of the low.

BACK TO BASICS

(c). Due to reservations and other programs, some education and empowerment has happened. There are at least 4 million Class-1 officers from our people and many more in other posts of honor and power in the govt.

However, we have long way to go. Any defeat is because of our own people. Those who are empowered are not staying with us. Those who want to go forward want to do so for their own sake and not for others.

The key is in Babasaheb's dictates: **Educate, Agitate, Organize**. These may be slow strategies and consume huge time and resources, but they are sure to deliver.

BEST KEPT SECRET

My only concern is that we do not give up hope. When people don't have hope, they give up all struggles. It is OK for general public to give up easily, but not for the leaders. That separates the leaders from the common people. Leaders see in the future what others cannot see. Those of us who have hope of a better future need to exhibit that vision and people will follow. As for me, I am not going to give up and

want to see a major freedom movement in my own lifetime.

The major difference for us — compared to past generations of our people — is that the world is learning about the Dalit issue. Those of us who are involved in this struggle are encouraged that the world is getting interested now. And this is very important. Those who fought against slavery had to inform the world about the evils of it and only then eradicated formal slavery from the world, even though it remains in other forms. Those who heard about Apartheid supported the struggle against it and the whole world pressurised South Africa (curiously even our own country was against the practice of apartheid).

The whole world knows about racism and is trying to change.

Casteism has been the world's best kept secret so far.

BUT NOT ANYMORE

After many years of struggle by many Dalit groups, now it is part of the United Nations agenda. The *National Geographic* carried an article in June 2003 which created a huge uproar in the Western world, and upper castes living there severely opposed it. The *Wall Street Journal* and many other groups have written many articles on Dalit issues since then. Several international human rights reports regularly mention of evils of the caste system in their annual human rights reports.

"CHRISTIAN CONSPIRACY"

Several books describing effects of caste received international awards. Movies like *Slumdog Millionaire* created huge interest worldwide about the injustice meted out to the poor.

Our enemy is extremely upset with this publicity. They say this is a conspiracy of Christian

nations to destroy our "national honor". They demand we don't talk about Dalit atrocities, don't mention it, and only say our nation is great and successful.

This is frustrating, but a good sign that something is happening. There is a long way to go, but there is definite progress. Ten years ago when we talked about Dalits, people asked, "Who are they?" No more. Today at least half of the foreigners I speak with know, and we need to use it to strengthen our struggle. We need to stand strong until enough of our people are awakened and the critical mass is achieved which is required to start the chain reaction. Then we won't need any help. We will do it ourselves.

APARTHEID IN INDIA

Here is a list of significant events that took place in last three years since 2007:

(1). In Feb., Kobia, the African head of the WCC (World Council of Churches), likened the treatment of Dalits in India to apartheid during a visit to India. He said, "South Africa has abolished apartheid [and] it is a sin to practice it in India in the 21st century." While words can be cheap and I look for actions, it is important to note that many church denominations are regretting the presence of caste inside the church and are working to remove that completely.

(2). On Feb. 1, the European Union members of parliament passed a historic resolution which clearly summarizes the plight of Dalits and calls for European governments to help the Dalits achieve freedom.

(3). On Feb. 23 and 26, the UN Committee on the Elimination of Racial Discrimination (CERD) listened to Indian Govt. report on discrimination and asked many questions about Dalits.

CERD is a body of independent experts responsible for monitoring a country's compliance with the International Convention on the Elimination of All Forms of Racial Discrimination. India ratified the Convention in 1968. The panel criticised India in its "Concluding Observations" document issued on March 19 because India didn't acknowledge any caste-based, work-based or Dalit discrimination.

MAYAWATI CAPTURES U.P.

(4). Within India, positive developments included the following:

(a). After more than two years of study, (Misra Commission),

the National Commission for Religious & Linguistic Minorities, asked the govt. to give benefits to all Dalits, regardless of their religion. The report on May 21, 2007 said the govt. should change a 1950 Presidential Order which restricts government benefits to Dalit Hindus, Sikhs or Budhists. My colleagues in the All India Christian Council (AICC) had testified before the panel at Delhi and Mumbai in 2006.

(b). For most Dalits, **Mayawati's election victory in Uttar Pradesh was a big news.**

(c). A report in August said India's Department Related Parliamentary Standing Committee on Law Ministry believes the judiciary should

have reservations for Dalits.

(d). Also in August, Bharti Enterprises, parent company of mobile phone giant Air Tel, promised to train and employ SC/ST engineers on a preferential basis.

WESTERN MEDIA EXPOSURE

(5). In Feb. 2007, BBC surveyed over 1,600 Indians and found that 55% are worried the caste system is holding the country back from progress ("*Caste clouds India's high hopes*", Feb. 5, 2007). Many Western publications published articles on the challenges for Dalits and my colleagues and I were involved with some of these including the influential *Washington Post* ("*A 'Broken People' in*

Caste killing the church

No religious group has done so much for Dalit liberation as the Christians. We have said many times in DV and our books that the "Christian service to Dalits can be written only in words of gold".

But all these are things of the past. The church leadership has simply abandoned the Dalits. In Kerala, where the Christians are a powerful force the Roman Catholic church has defended the caste system both within and outside. The church is busy educating the upper caste cobras — biting and killing the Christians themselves.

The church has also refused to heed our repeated plea for a media of our own — despite the enormous wealth it commands. Caste is killing the church also.

Secret of church helplessness: Brother Moses Parmar has travelled all over the Christian world, particularly the US where his organisational headquarters is situated. So he is fully aware of the reasons of the inability of the Indian church to fight Brahminism.

In London, the very capital of the Christian Britain, we did not find a single functioning church. There are hundreds of massive church buildings all over London —but permanently closed. When we asked the British Christians

they said they no longer believed in church-going and hardly believed in god.

Karl Marx influence: Who told them not to go to church? Karl Marx made them godless even as this German Jew settled in London continued to be a strict Jew and regularly attended the synagogue.

London has one of the largest concentration of Jews with a large number of synagogues where they regularly prayed fully dressed in their religious attire - even as they made fun of the Christians. The very god-fearing Jews preached atheism to Christians who faithfully closed their churches and sold them to shopping centres, liquor bars, Muslim mosques, cinema theatres etc.

Evangelical Jews: It is only in US, the churches are active but fully infiltrated by the Jews converted to Christianity. Evangelical are mostly Jews.

The crisis of the Western world is the result of the zionist hold on the Christian neck. The very Vatican is a puppet in the hands of Jews.

The West can get itself liberated only when Christianity is freed from zionist octopus.

The Indian Christian leadership is fully upper castes and naturally are pro-Jew — EDITOR.

Booming India: Low Caste Dalits still face prejudice, grinding poverty, by Emily Wax, June 21, 2007) and a series of articles in the *Wall Street Journal* newspaper ("Caste Away", by Paul Beckett, June 23, 2007; "In India, 'Untouchables' Convert to Christianity and Face Extra Bias," by Yaroslav Trofimov, Sept. 19, 2007; "Untouchable: Brutal Attack in India Shows How Caste System Lives On," by Yaroslav Trofimov, Dec. 27, 2007). Several noted the root of religious violence in Orissa over Christmas was due to caste discrimination ("A Christian-Hindu Clash in India", *Time* magazine, by Simon Robinson, Dec. 27, 2007).

CASTE WITHIN CHURCH

(6). It is important to see the developments in the Christian world during this time. Although Christians make mistakes, they are learning to change. Within India some of us are involved in major Christian human rights network called the AICC. One challenge is to remove caste discrimination within the Indian churches. AICC also has worked hard to awaken Indian and International Christian communities to pay attention and do something to stop caste discrimination.

According to a Govt. of India report (1992), 33% of all social work in India is done by 3% of India's Christians.

AICC ACHIEVEMENTS

Some Indian Christians have not been actively helping the downtrodden. Even worse, unfortunately in many areas upper castes have received much of the benefits. But AICC is committed to focus the efforts on those who are in greatest need. Here are some achievements of AICC in 2007 in the area of Dalit human rights.

(a). In March, partnering with

international human rights agencies Christian Solidarity Worldwide (CSW) and the Dalit Freedom Network (DFN), AICC used a celebration of the 200th anniversary of the abolition of slavery by William Wilberforce to tell Europe about the Dalit plight. Due to AICC efforts:

The UK Foreign Office issued a statement on Dalit slavery

The Archbishop of Canterbury mentioned Dalits during a nationally broadcasted Commemoration Service at Westminster Abbey attended by the Queen, Prime Minister and other heads of govt.

The Conservative Party Human Rights Commission in London and European Union MPs in Brussels held important hearings on Dalit issues.

There were briefings of politicians in Scotland and Norway.

A new documentary film called *India's Hidden Slavery* premiered to a full cinema in downtown London.

CONGRESSIONAL HEARING

(b). On May 1, AICC leaders testified about the plight of Dalit women before the United States Congressional Human Rights panel in Washington D.C. Then they delivered a letter to the leader of the US House of Representatives asking for legislative action.

On May 8, the British House of Commons debated the problem of caste oppression and untouchability. AICC helped provide key information to legislators, one MP talked about a visit to India which AICC hosted, and Dr. Sam Paul, AICC Secretary of Public Affairs, attended.

On June 27, the AICC National Administrator testified in London before the UK's Department for International Development on "Caste, Social Exclusion and Development in

South Asia." The powerful department promised to use the information to decide on distribution of financial aid for Dalit education and other projects in India.

U.S. CONDEMNS INDIA

On July 23, largely due to AICC and DFN efforts, the US House of Representatives passed a statement condemning untouchability and suggesting ways the US government, development organisations, and other groups can take action. Called a concurrent resolution, it must be passed by the other part of the assembly – the Senate.

On Oct. 11, the National Association of Evangelicals (NAE) Board of Directors unanimously approved a "Statement of Conscience Concerning the Dalits". The NAE is one of the largest ecumenical networks of churches in the USA and has only approved a similar document twice in their history. They apologised for ignoring the plight of the Dalits, and encouraged all their 33 million members to become involved in seeking freedom and dignity for the Scheduled Castes.

During the year, AICC leaders were widely quoted in news stories from the *Wall Street Journal* to USA's *Christianity Today* to Nickelodeon TV (a popular children's channel).

2008:

DALIT MUSLIMS & CHRISTIANS

1. In January, a Delhi University sociologist released a study sponsored by India's National Commission for Minorities which proved that Dalit Christian and Muslims suffer severe socio-economic problems and must be given the same rights as other Dalits.

2. In May, the UN Committee on

Economic, Social and Cultural Rights noted major problems for Dalits and outlined changes India must make before the next review in June 2011. Also, the UN Human Rights Council conducted a "Universal Periodic Review" of India.

ATTACK ON SIKHS

3. Although thousands of crimes against Dalits were reported and there was discrimination throughout society, there was good news in a few courts. On Feb. 13, a court in Punjab sentenced seven people for the brutal attack in Jan. 2006 on a Dalit activist, Bant Singh Jhabbar. On Sept. 15, a court in Maharashtra said that eight people were guilty of brutally killing four members of a Dalit family in Khairlanji in Sept. 2006. The father, Bhaiyyalal Bhotmange, was the only survivor. On Dec. 19, the Supreme Court sentenced 31 people in the 1985 killings of six Dalits by upper caste landlords in Karamchedu, Andhra Pradesh.

4. AICC was successful in several activities:

(a). AICC hosted six (of about 20) multi-faith NGO meetings for Ms. Asma Jahangir, United Nations Special Rapporteur on Freedom of Religion or Belief, during her three week visit in March. The meetings, held in Ahmedabad, Trivandrum, Bhubaneswar, Lucknow, and New Delhi, facilitated testimony by various minority leaders. The last UN religious freedom report on India was in 1997. Both noted challenges for Dalits who choose to change their religion.

(b). In 2008, AICC received 90 victories in legal cases related to people from SC/STs across India. This is encouraging compared to the injustice our people face all over.

(c). **1984 attacks on Sikhs, 2002 attacks on Muslims of Gujarat, and 2007 and 2008**

attacks in Orissa against Christians have been unprecedented in the recorded history of India.

Annually AICC records over 100 severe attacks on Christians. Not many realize that when Hindutva forces attack Christians or Muslims, it is the Dalits among those faiths that become the main target. Most Orissa victims were Dalits. In the 2008 riots in Kandhamal District, Gajapati District and other places there were 120 deaths including at least six pastors and one Catholic priest, 4,640 homes destroyed, 315 villages "ethnically cleansed", 54,000 became homeless, two women raped (including a nun), 149 churches and prayer halls damaged (state government estimated 252), thousands injured and who had to live for months in refugee camps, and 13 schools or colleges vandalized.

UDIT RAJ EVIDENCE

(d). On Sept. 9-17, Udit Raj, an AICC partner and Dalit Buddhist activist, spoke about anti-Christian violence during meetings associated with the United Nations Human Rights Council session in Geneva.

(e). In September, AICC hosted a delegation of two Washington D.C. and one London-based human rights experts which visited Orissa as well as Karnataka, Uttar Pradesh, & Delhi.

(f). On Oct. 23, AICC North India public relations officer met in London with UK Foreign Minister Lord Mark Mollach Brown.

(g). In early November, AICC hosted Baroness Caroline Cox, MP, visit to Orissa. This resulted in a UK House of Lords debate on Dec. 18, 2008.

(h). From Dec. 9-12, AICC coordinated the Orissa visit of the official, five-member

delegation of the European Union.

(i). AICC leaders were widely quoted in news stories including the *Wall Street Journal*, *CNN*, *New York Times*, *Reuters*, *Christianity Today*, and *BBC* as well as India's media.

AICC CHIEF TESTIMONY IN CANADA

2009:

In March, AICC President testified on Dalit issues before Canada House of Commons Subcommittee on International Human Rights in Ottawa and met senior government officials. This is the first time the Canadian government had officially enquired into caste issues.

In March, Ms. Asma Jahangir, UN Special Rapporteur on Freedom of Religion or Belief, presented her report on her 2008 visit to India to the UN Human Rights Council and highlighted the challenges for Dalits from all faiths.

In April, the first 45 Dalit-Bahujan students graduated from class 10 in a network of high-quality, English-medium schools run by AICC members in partnership with the Dalit Freedom Network. These schools came up after request by Dalit leaders in 2001 to educate their children. All graduates are now enrolled in college and have a vision to help their community.

U.N. EXPRESSES SHOCK

In June, two investigators on the topic of discrimination based on work and descent presented their recommendations to the UN Human Rights Council for changes to stop caste discrimination. They were appointed by the Sub-Commission on the Promotion and Protection of Human Rights and spent five years looking at caste around the world.

In October, the new UN High

Commissioner for Human Rights, Ms. Navi Pillay – a South African of Indian descent – told the world that the caste system needs to be torn down. Then the Nepal representative at the UN agreed. Now the UN will likely add caste discrimination as a form of human rights abuse.

This is just a partial list of activities that are known to me. There are numerous national and international groups that are tirelessly working to free our people and lots of things are happening worldwide. Besides

words and awareness at the international level, practical changes are happening in rural and urban Dalit communities across India.

100 ENGLISH MEDIUM SCHOOLS

The AICC partners alone are running over 100 high-quality English Medium schools with over 18,000 Dalit-Bahujan boys and girls studying there. The goal is to do 1,000 schools.

They run over 1,200 self-help-groups with over 20,000 Dalit

women (that means, families) as members who learn job skills, earn and save money, and improve their lives.

There are 50 full-time health workers in villages around the schools to teach basic health and hygiene along with primary medical care. Social justice teams have panel of lawyers in several states providing free legal advice and assistance in certain cases to get justice.

CHURCH LEADERSHIP WARNED

Zionist control will not allow West to punish Delhi

Brother Moses Parmar is perhaps one of the best Dalit Christian leaders whom we have met in the 30-year-old history of Dalit Voice. He has given a big list of the "achievements" of the AICC whose sincerity and dedication to Dalit liberation are never in doubt.

But the problem with Brother Moses, who played host to our two UP state DV family members meet at Lucknow, and his Christian colleagues is that they have not made a study of the "Hindu Mind". Read our book, Know the Hindu Mind, (DSA-2008, Rs. 100).

3,000 year-old rule: Brahminic rulers of India constitute a micro-minority of 2% in this land of over 1,300 millions. They were ruling it even during the Muslim and British rule. Except the "Golden period of Indian history" during the Budhist rule when they were made mince meat, they have always been the *Bhoodevatas* who finally finished Budhism and drove it out of India.

The world has not seen a more deadly and diabolical criminal than the Bahminists.

*The Jews have produced any number of kind hearted souls willing to admit their crimes. Many Jews were killed by the Jews themselves for speaking out the Truth. But India has not seen a single *valdik* who is ready to delete even a coma in the Brahmin "sacred scriptures". Who then is more dangerous?*

"Jews of India" join Jews: That means the

Brahminists are least bothered about international media exposure of their crimes, UN or World Court strictures or European Parliament or American Senate resolutions condemning their criminal conduct.

We are saying this with our thorough knowledge of the Brahminic behaviour and a deep study of the sick "Hindu mind".

US controlled by Jews: Their confidence to rule India with iron fist got further strengthened after the "Jews of India" joined hands with the Jews ruling the US. They know full well that this new alliance of the two blood brothers will not allow the West to take action on India. Because the West, particularly the US, is controlled by the Jews. Even the US church is in the Jewish pocket.

*It is this confidence that has made the *valdik* vampire so confident, so arrogant and extremely blood-thirsty.*

Weakness of Indian church: They also know the weakness of the Indian church leadership which depends upon the Western Christian funds. The West will never allow it to be used to fight the "Hindu mind".

Besides, the upper caste Brahminical church leaders are in total control of the Indian church.

India's Brahminical Govt. can be cut to size in no time if only the West and the US in particular stop funding and supporting Delhi. The Indian Christian leaders have done enough to expose the

Brahminic crime. The West has all the information. Yet it is not able to stop funding and supporting Delhi because the Jews who control the West and US in particular will not permit it.

We have said all this in DV, our books and speeches.

Deadly cancer: Hence the first priority should be to study the "Hindu mind" which will help us fight and destroy it.

A deadly cancer is destroying the great Western Christian civilisation. This cancer is called zionism which is controlling not only the Western banks,

economy, media, political, cultural institutions but also the church — particularly the Vatican.

The wonder of all wonders is the Western people do not recognise, much less identify, this evil because all the Western institutions are subverted.

*If this is the fate of West, in India it is still worse. There are many good Jews fighting zionism. But we have not found a single *valdik* having the heart even to criticise Brahminism.*

The "Jews of India" can never, ever be defeated by the line of action you have taken. It cannot be corrected. It has to be destroyed —EDITOR.■

Zionists treat Brahmins as "useful idiots"

COM. AYYANKALI

Zionists plan to unleash a great depression so that European and US economies are totally destroyed. Once racial riots and chaos begin in the US, the zionists will manipulate things in such a way, that they can set up a second and third Israel in former US and Argentina. All this depends on Falklands islands petroleum.

Falklands is an island off the Argentina coast on the Atlantic Ocean claimed by Britain. Of course, simultaneously, the zionists will also launch a World War-III, destroy USA and bring the world under their fascist, zionist and state capitalist, so-called New World Order. This is their master plan.

World War-III: Even Brahmins are merely "useful idiots" for the zionists. The Brahmins will soon understand this. India's only hope is to join anti-zionist forces like China, Muslims and Russia. But Brahmins have joined hands with their blood brother zionists. I don't think this alliance is a sustainable project. Even if they start a World War-III, zionists may still be hunted and butchered all over the world. At this point Brahmins will be alone.

Brahmins are cowards: The Brahmins are so mentally retarded that they do not understand all this. Have their anti-Muslim megalomania made them go totally mad? Are they not aware that such a World War-III will even spill into India? All said and done the grass-eating Brahmins are cowards. Unlike their beef-eating zionist cousins. They were easily defeated in Lanka by the LTTE. How can they fight a World War-III?

Jews know the *valdik* treachery

*Our discussions in London, New York and Washington with top Jews have revealed that they have not forgotten the treachery of their own Brahmin blood brothers. Thinking people among Jews know very well that it was the *valdik* Brahmins of India who influenced Hitler and Germans to kill the Jews in the so-called Holocaust (Leon Poliakov, a Jewish scholar has revealed this in his book, The Aryan Myth, photocopy available with DV). Please read our book Brahminism (2002, pp.160) — EDITOR.■*

Caste & corruption divide Indian army

OUR CORRESPONDENT

Bangalore: The ruling upper castes (15%), have a ready solution to the all-round crisis killing India: military rule. The ignorance of the ruling class is so colossal that it doesn't know that the military is also corrupt and equally impotent. Also fully caste divided. The leadership of all the three wings of the Defence services is also upper caste. So much so the Brahminical national toilet papers had to finally swallow their own words and admit that the Defence forces are also corrupt and divided. The world's third largest army's face was tarred when it was announced that

several Lt. Generals will have to face court martial on the Sukna land scandal. The soon to be retired army chief, Deepak Kapoor, himself defended the corrupt generals. His own closest aide, Lt. Gen. Avadesh Prakash, was also indicted. In all 21 army top officers have been indicted. A big "war of generals" is going on inside the army on the sale of military lands to a contractor in Bengal. A report said the Sukna scandal divided the entire top brass of the army. How can India win any war with such a divided and corrupt Defence leadership?

Dalits will forever continue as slaves : Hinduism & "Mother tongue mania"

RAJU THOMAS, PRINCIPAL, ST. ANES COLLEGE OF MANAGEMENT STUDIES, PERUVA - 686 610

This refers to the DV report: "To save Brahminism, Bhoodevatas are ready to sell the country" (DV Nov. 16, 2009 p.10). In this report the correspondent refers to English language as an instrument which will destroy Brahminism, Hindu culture, Hindu identity and civilization etc.

Yes this is true, nothing related to the Aryans will remain in India because it is anti-human and diabolic in all aspects. Everything they uphold dear to their heart will get destroyed step by step. At the end either they will be forced to become part of world religions or get out of India.

Two decades back I had written an article titled "Hindu traitors get out of India". But our Editor did not publish it fearing that the Hindu terrorists would kill me. Hindus are no.1 cowards in the world. They do their job by using our people.

Even if the Brahminical people disown Sanskrit, Hindu gods, Hindu identity, Hindu civilization and Hindu culture and throw them into the Arabian Sea, our unthinking people will not follow because they think they are Hindu and Hinduism is their religion.

Hindus switch over to English: My problem is with our "highly educated" and well-placed people (meaning slaves, according to Babasaheb) who are very much fond of their mother tongue. They sincerely and honestly love their mother tongue and educate their children in mother tongue, sleep in mother tongue and piss in mother tongue. These mother tongue maniacs are unaware that the Syrians, Nairs and Brahmins in Kerala always prefer English medium not Malayalam. How to educate our people? If Sanskrit is *Deva Bhasha* (language of gods) why the same *Bhoodevatas* are not educating their children in their language?

Disowning gods: Why they are encouraging our people to study Sanskrit and train our people to become temple priests? These *Bhoodevatas* will soon disown their gods and language because of the global influence of English and the influence of other semitic religions which are true religions. *Vaidiks* will disown whichever is not profitable to them.

As our Editor says Hindus do not have anything permanent other than their permanent interest.

They will even sell their women. They have done it earlier. They gave their women to the Mughals, the

Portuguese and finally the British and got everything in India. Zionist Jews too do this by engaging their women in spy works, they ask their beautiful girls to apply lipstick which is an indication that they are ready for prostitution. This is how lipstick became part of culture. Without knowing history women simply apply lipstick even today.

Why do they prefer the Christian English-medium educational institutions? Even L.K. Advani and many other *hindutva* leaders went to Christian English medium institutions. That means they had the foresight that one day English would become the most important language of the world but our innocent (ignorant) and simple-minded people did not understand it. Even today, after several years of our writings our people still suffer from mother-tongue mania. They will die like this.

English or perish: My son was from the very kindergarten was educated in English. After his BSc+IT training he was selected. When hundreds of Brahmins were selected my son was the only Dalit Christian who was selected just because of his proficiency in English and quick comprehending capabilities. Today he is working in a foreign bank as Asst. Manager, drawing high salary.

I believe that our Dalit brothers and sisters will have to go a long way or get ready to be perished. What are the responsibilities of the educated and highly placed Dalit fathers and mothers? Are they concerned only with reservation? Or are they truly concerned about their future and the future of their children? If the answer is yes, then they should seriously sit and think to chart out a long-range programme for their children. Our Editor used to ask at all meetings:

Who asked you not learn English? Did any Brahmin stop you from learning English? Why those who can afford to send their children to English medium institutions are not sending?

"Caste identity" debate: My conviction is those Dalits who are still under the control of Hinduism, uphold the anti-human values of Hinduism, can never rise and live like those who are outside Hinduism. From where do we get our values? Religion, especially from Buddhism, Christianity, Islam and Sikhism. These are the only four religions of the world which promote good

values but we should have intelligence to identify the best of the four.

Had Budha been alive what religion he would suggested for us? For the past 30 years I have not come across any such honest debate. The only sincere debate we had in DV was on "caste identity" and of course there were hot exchanges on this issue and the result was a book itself and our Editor was conferred an international award though the Brahmins refused to recognize his scholarship. India has never encouraged honest intellectuals. India is a barren desert, if not a rotting and stinking land because of Hinduism. Nay, India is the land of 3Ds: Division, Despair and Death, says Day Spring International, California, USA. For saying this truth Brother John Gillman was outrightly condemned by India's Brahminical writers, academicians and the opinion makers 25 years ago. Truth is never accepted by India's intellectuals and that is the reason Babasaheb called them intellectual prostitutes of India.

Corrupt Dalit leaders: In what sense our *avarna* people are Hindu? They all enjoy the bum-licking of the Brahmins and the Nairs of Kerala and they will prefer to eat the shit and drink the urine of the upper castes. Can a self-respecting Dalit, Tribe, Ezhava and other OBC think and say that he is Hindu? They only think that they are Hindu. Because of the weakness of the 430 Dalit organizations in Kerala and the dishonest and perverted leaders of these organizations, the

Brahminical forces have been able to convert them to Hinduism. But in India, unless one becomes a Christian or a Muslim, all others are Hindu. This is the mystery in our country.

Strength of Islam: What was the religion of Afghanistan? What was the religion of the North-East India 100 years ago? If Kandahar (in Afghanistan) had the biggest Budha statue in the world, the Taliban had dynamited it and destroyed. It means Afghanistan was once Buddhist. The RSS Bible, *Bunch of Thoughts*, says that it was because of the conversion of the Afghan tribal people into Buddhism, they could easily get over to Islam. History says that no people in the world had a permanent religion and it is subject to change.

But those people in the world who had converted to Islam and became Muslims never changed their religion. Why? Even Christians changed their religion and became Muslims.

Our Dalit intellectuals should ponder on the issue of conversion.

Love what the enemy hates: Our enemy is happy over our conversion to Buddhism. The enemy will do everything for our conversion to Buddhism. What should we do in this matter? If we are ready to interpret both Babasaheb and Mao then we should love what our enemy hates and hate what our enemy loves. Very simple. (indigenoustraju@yahoo.com) ■

Caste war within Maoists

COM. AYYANKALI

Indian "Maoists" are indeed the most amazing jokers of the century. These guys never understood that large-scale attacks must never be undertaken unless they have spread all across the country and are in a position to cut off and disrupt supply lines of the Indian Army. Instead of aiming at such a target, they concentrated on sensational attacks like trying to blow up Chandrababu Naidu's car and trying to assassinate Bengal CM Buddhadev Bhattacharya. They have still not understood that protracted peoples' war will only mean people running away from them after getting tired of endless war, unless it is fought in a manner which will prevent this.

Tribal revolt: But the Brahminical mechanical and ritualistic mind will never understand this. On top of all these blunders, they have ignored the already existing caste war, and have betrayed the working class Dalit Bahujans and tribals who have begun to rebel against them.

Even after the Maoist split on caste lines, they have not improved or changed their ways — Brahmins and

Reddys continue to call the shots. At this rate these Brahminical fake Maoists will only be wiped out. Only after that the real caste-class war can begin without any more confusion.

A *Times of India* report adds from Midnapore: As the Centre prepares for "Operation Green Hunt", top Maoist leaders are huddled in a hideout, some 40 km from Lalgah, trying to decide whether to agree to talks or fight it out. After two days of brainstorming, they are yet to come to a consensus. While Kishanji — the (Telugu Brahmin) military strategist responsible for brutal killings in Bengal — insists on a showdown with the state forces, another powerful section of the CPI (Maoist) central committee, led by Dalit Gopinathji alias Durga Hembram, wants talks at the earliest.

The Centre's offer of truce or a massive crackdown has triggered an intense 'internal dialogue' among Maoists. Of the 36 CPI (Maoist) central committee members, around 30 — including those from Bihar, Jharkhand and Orissa — are attending the meeting. (See also p.18) ■

In communist Kerala, Dalits suffer

B.R.P. BHASKAR, TRIVANDRUM

Payyanur in Kannur dt. boasts of a rich and glorious heritage. The town's website says, "Payyanur is one of the ancient civilized places in Kerala." It has a place of pride in the history of the freedom struggle and the communist movement. Lately, however, it is making news for the wrong reasons. Last month, Paul Zacharia, a noted writer was roughed up by the CPM (Democratic Youth Federation of India) after making a speech.

Woman auto-driver: Also last month, Chithralekha, a young Dalit woman auto-driver, came under renewed attack from a trade union which has been harassing her ever since she ventured into the male-dominated profession. She was trained under a govt. project. She obtained loan under the Prime Minister's Rozgar Yojana (employment scheme) and bought an auto-rickshaw. The pro-CPM auto drivers union did not admit her into the fold. As Chithralekha persevered, the union had to give in. However, male colleagues at the auto stand made things difficult for her. They abused her with caste appellations and caste aspersions on her character. But she refused to be cowed. She was also beaten up.

Caste hatred: The man who had damaged her vehicle later attempted to run over her auto. She filed yet another complaint against him, and the police arrested him. The union then launched a vicious poster campaign against her. Later, her auto was set on fire. But the union could not destroy her never-say-die spirit. Forced to leave Payyanur, she and her husband, Shreeshkanth, who is also a trained auto driver, worked as wage laborers.

Carmel Christy and Jenny Rowena, two researchers who studied l'affaire Chithralekha concluded that it was not merely a case of conflict between a woman and a trade union.

The union was dominated by the OBC Thiyyas and its hostility towards Chithralekha was based on untouchability and gender.

They viewed the union's campaign against Chithralekha as part of an attempt to maintain caste hegemony. The union, which did not approve of the marriage between Dalit Chithralekha and Thiyya Shreeshkanth, had become an instrument for maintaining caste and gender boundaries in the Malabar region, they said. In June 2008 a Kannur-based committee presented Chithralekha with a new auto-rickshaw bought with public contributions. She then resumed as auto driver in Payyanur but harassment continued. On Jan. 20, she complained the police of assault. The union lodged a counter complaint she was drunk. The police wanted to take her for an alcohol test but she refused. She said the police had assaulted her too.

Fact-finding report: A fact-finding team consisting of Prof. Gail Omvedt of the Indira Gandhi National Open University, Prof. Nivedita Menon of Delhi University and two local activists, V Geetha and KK Preetha, visited Payyanur and gathered evidence and found inconsistencies in the versions of the union and the police.

Its preliminary report, said, "The January 20 incident is not an isolated one. Other Dalit women auto-drivers in this region have faced intense intimidation, sexual harassment, caste-related abuse, accusations of promiscuity and immorality and damage to their autos."

It noted that the union's statement regarding Chithralekha's behavior used metaphors that insultingly linked her caste status, gender and sexual immorality. It also sought to cast doubts on her marital status. It observed that the union leaders' unease with Chithralekha and characterization of her as a woman 'living outside the track' revealed their inability to tolerate this Dalit woman's assertiveness, stubborn courage and confidence despite her caste and gender.

Thus Spake Periyar

It is our opinion that for the growth of human society both the sexes ought to have those qualities in equal measure, which our comrade listed as belonging to the two separate sexes. Nature's design itself is suited for such equal sharing. However, due to human artifice, male selfishness and conspiracy, this has been subverted. We could say that merely on account of the additional burden of having to become pregnant with child, carry it for ten months and deliver it, the women's status need not be different from the men with respect to having the qualities of valour, anger, domination and hardness. Similarly, merely because men do not conceive and deliver children, their position need be any different from that of women in respect of qualities such as love, peace and caring. **If we respect true equality and where there is true love, it is certain that, but for the single duty of conceiving and delivering children, all other matters are the same for both the sexes.**

The interpretation of the phrase *tharkondal* as being suffused with love is mainly intended to protect Valluvar from blame and does not do justice to his *kural*. And again it is not appropriate to explain the term as referring to a woman, whom a man does not have anything to learn from. It is again meaningless to suggest that the idea of falling in worship is a practice not prescribed for men. And also if men have the right to own women, the latter too should have the right to own the former. If there is a condition for women to fall in worship of men, men too should fall in front of women. This is what is known as men-women equal rights. Everything else instead of this, we can easily say, is merely selfishness, brutishness and certainly not love.

Our comrade has suggested that Valluvar does speak of chastity for men too. Though this is possible, what we say is that what is prescribed here for women is not the same for men. In support of male chastity, our comrade has adduced two *kurals* as evidence. They are:

Of what use is purity when under surveillance
Most valued is the self-guarded purity of women
Men of imperfect hearts along seek

Women Enslaved, (pp.15 to 16) (1st edn. 2009), Critical Quest, 420, G-Block, Phase-VI, Ayanagar, New Delhi - 110 047, email: criticalquest@gmail.com.

Concept of chastity for women & men

The shoulders of whores with their hearts elsewhere

These, he seems to suggest emphasize male chastity. Our own opinion, however, is that they are not intended for the that purpose. The meaning of the first *kural* is this: if women are chaste because they are under surveillance then it is useless. Women ought to be chaste voluntarily. The second one is intended to censor men who go after prostitutes and does not refer to men who go about mixing up with women out of love or lust. The term used for the description of men is virtue as ideal and not an obligatory code. In this way, we could quote several other *kurals* to show that the *kural* does not advocate uniform morals for both the sexes.

Finally we are grateful to our comrade for the realisation he has brought to us. Just as he would have it, whenever a doubt arises from a reading of the wrings of great men, we have been writing about it only as questionable. However in this matter of chastity, we think that we do not have any doubt in the reading of the *kural* we have mentioned; and we are pleased to inform that in this matter we also took care to collect the opinions of several learned men. Again we beg to state with humility that in the matter of *kural* and its author, our reverence to both, though may not exceed that of our comrade, is certainly not less than his. There are several evidences for this. We need not worry at all about the two other *kurals* (quoted by him) which suggest that it is stupidity to have an opinion different from that of the majority and to find fault with great men. For whosoever is of the nature of speaking forthrightly what he considers right, needs to be ready to confront not only such *kurals* but many others of the same kind. Such a conclusion need not lead one to any worry.

III. LOVE

The purpose of this essay is to explain that apart from the general meanings denoted by terms such as affection, desire and friendship, the term love (*kadal*) as it refers to man-woman relationship does not signify any special content.

Vipassana cult to hinduise Budhists

DR. SADHU RAMTEKE, 3/2-MIG COLONY, VISHWAKARMANAGAR, OPP. SUPER SPECIALITY HOSPITAL, NAGPUR - 440 027

The *Vipassana* cult started by the Marwari S.N. Goenka is a Brahminical weapon to destroy the Buddhist movement rejuvenated by Dr. Ambedkar in 1956. The aura around the name of Budha helped Goenka to gain popularity and become fabulously rich. Maharashtrian Budhists are at the forefront to popularise *Vipassana* among Budhists. In this background the book, *Buddha Dhamma Banam Vipassana*, by Dr. Vinod Anavrat is a serious attempt to expose the real face of the bogus *Vipassana* cult. He cautions the Budhists against falling in the trap laid by Goenka and his Brahminical coterie.

Vipassana, why only in Viharas: The author asks: What is the secret of Goenka and his Hindu *chelas* refraining from teaching this great (?) technique in Hindu temples? Why the *viharas* and the Budhists alone are targeted? If *Vipassana* is such a non-sectarian technique, then why spare Hindu temples, the bastions of Brahminical supremacy? Why at Igatpuri (Nasik dt.) Goenka exclusively trains Buddhist monks but never any Hindu *mahants* or Jain *sadhus*? Why the Buddhist monks and the Dalit Goenkawadis are silent on this? Goenka says his meditation technique is secular. Why then only the Budhists are asked to

promote secularism? Hinduism lacks the spirit of brotherhood. It is also tyrannical as it divides the society into different *varnas* and innumerable castes. If so how can we expect the followers of this religion to be secular? That is why any number of *Vipassana* retreats cannot bring any perceptible changes in the Hindu behaviour. The fault does not lie with the people but the inbuilt divisive spirit in Hinduism that forces them to practice and nurture inequality.

Not reform but revolt: *Vipassana* strengthens the Brahminism. Goenka, a spiritual humbug, is misleading the educated but innocent Budhists.

A Buddhist, Ratnakar Gaikwad, a Dalit IAS officer, sanctioned leave for govt. servants in Maharashtra for attending a 10-day Vipassana camp. Brahminists will be for ever grateful to him.

Babasaheb embraced Buddhism to seek liberation from

Hinduism. But *Vipassana* has undermined his mission. Dr. Ambedkar said:

"If the Hindu Social Order is to fall to the ground, it can happen only under two conditions. Firstly, the social order must be subjected to constant fire. Secondly, they can't subject it to constant fire unless they are independent in thought and action".

Besides Maharashtra, Uttar Pradesh is the latest in the hit list of Goenka. He has infiltrated the BSP-ruled state. Bahujan News, the Hindi weekly from Agra, is poisoning the minds of Hindi-knowing Budhists in UP. It regularly devotes minimum one full page for Goenka.

Rs. 2 lakh cash prize: *Vipassana* masks the original image of the Budha as a revolutionary. One should not ignore the social context in which Budha had to launch the crusade against the oppression unleashed

on the *shudras*. Hence on conversion to Buddhism on Oct.14, 1956 at Nagpur Babasaheb said:

Buddhism can emancipate the universe. But unless justice prevails, there cannot be peace. (p.191).

Ambedkarites therefore should spell out their priorities for justice. Dr. Vinod Anavrat has dedicated the book to Ven. (late) Nirgunanand Mahathero who vehemently

opposed the Goenkawadi *Vipassana* retreats. An annexure detailing the reply given by Bhante Nirgunanand to Goenka exposes his murky business. Budha had never taught *Vipassana*. Dr. Anavrat way back in 2005 itself had announced a Rs. 1-lakh cash prize for anybody showing a single reference wherein the Budha ever taught *Vipassana* to householders as propagated by Goenka. I have added another Rs. 1 lakh.

Bribe offer to DV Editor: Through *Vipassana* Goenka wants to enslave the Bahujans. This is what the Congress is also doing. Goenka and his bum-licker Buddhist supporters are digging the grave for themselves as well as for Budhists.

The author also quotes an incident narrated by the Editor of *Dalit Voice*, V.T. Rajshekar, wherein high profile Budhists in Bombay met him and offered a big

"bribe" for stopping the Debate in DV on *Vipassana* (p.160). Such a predatory band is a blot on the name

of Budhists who have benefited due to job reservations given by Dr. Ambedkar.

Vultures gather over George Fernandes "body"

OUR CORRESPONDENT

Bangalore: Love of property kills the humanity in man.

Even as the fake socialist George Fernandes is dying, the vultures are hovering over his body to enjoy the feast.

Wife Leila Kabir, a Muslim, has taken full control of the dying Mangalorean (Roman Catholic) Christian. She was nowhere to be seen for all these years because George was running around with a Kerala Nair woman, Jaya Jetley, caught on camera by the

Tehelka while demanding bribes while George was Defence Minister.

Lately, George brothers and some fair-weather socialists have also come scenting the smell of the crores. These vultures are clearly visible. Many are waiting.

China has better democracy than India or West

OUR CORRESPONDENT

Bangalore: What do the Western countries and their Brahminical bum-lickers in India mean by saying that "China needs greater liberalisation at home and sympathetic engagement with the West?"

The meaning is simple: China is not allowing even the whisker of the Zionist Jew and Brahminists to enter China. Most of the people advising China "to liberalise" are also the very same wolves in sheep's clothing who destroyed the Christian West and imposed their Jewish tyranny on the West. China knows it too well.

Beijing's underground city: During the Soviet regime, controlled by the Zionist Jews, they tried their best to infiltrate China and influence Mao. But the Chinese Communist Party blocked any Zionist wind blowing into China. This provoked Soviet Russia.

When we last went to China, we were told about a Soviet plan to attack Beijing. China built a whole city under Beijing fearing an aerial attack. None was allowed to see the underground city but we were taken.

The very same Zionist Jews, who have now taken over the whole of West and particularly USA, are sending their secret agents like the Google, Microsoft etc. to China. One by one all of them are being kicked out.

Dalai Lama is a dangerous Zionist-Brahminist agent.

The Communist Party of China is fully aware of the Zionist-Brahminist saboteurs. It has rejected the Western-style of democracy outright. China is much more democratic than India or any other Western country.

Plight of Muslims under terrorism

MUSTAFA KHAN, MALEGAON, MAHARASHTRA

Never before was the situation for the Muslims in India so awful as today. An accused in terror attack in Bombay 26/11, Fahim Ansari, wants bail to come out and search a lawyer who can defend him. Reason: his lawyer Shahid Azmi has been shot dead by Chhota Rajan gang in the name of "patriotic killing."

7 YEARS IN JAIL

His move suggests that he accepts the judicial system. Despite its shortcoming he still trusts it to exonerate him ultimately.

Azmi himself had gone through the rigmaroles of the judicial system and had successfully overcome hurdles including five years in jail when he completed junior college education and graduation. He knew that the system was biased against the minority and yet he did not lose faith in the institutions of the country.

They redeemed him only to be killed as he was fighting for many others like him who were incarcerated.

The Sachar Commission has already documented that the highest number of inmates everywhere in the country is of Muslims.

Another accused, Saquib Nachan, is booked for local train blast at Mulund 2003. He has petitioned the SC to investigate all the cases of terrorism since 2002.

There is something terribly wrong with conduct of investigation and the judicial system. According to him the Muslim youths are languishing in prisons across the country without trial. He has spent seven years in prison and others have also gone through the same length of time and even more.

The suffering of Nachan and Ansari or the late Azmi must also be viewed as an off shoot of the global strategy of

(The waging of 'War on Terror' on Muslims by the sole super power - the USA - have given its strategic partners - India and Israel - to kill, humiliate and dispossess the Muslim population under their control with the US public eying it with approval. Thus the USA is seen as an accomplice in the murders and mayhem that goes on in Israel and India. — Brig. (Retd.) Usman Khalid.

Americans in the region. The gravitational pull that India and Pakistan exercise over the Americans is reflected in local bomb blasts in India.

BOMB ATTACK ON PAKISTAN

Of late President Obama has authorized operation Af-Pak; and Marjah in Afghanistan has been baptized in fire. The fall-out of this can and does affect situation in India. Muslims as a community in India are unconnected to the war on terror either in Afghanistan or Pakistan or even in Kashmir valley. The Af-Pak strategy and the

Pakistan's strategic depth into Afghanistan primarily bring the US into the subcontinent. Every drone attack or ground advance beyond the Khayber pass means more bomb attacks in Pakistan and its spill over into India.

PUNE BOMB

If Pune blast is a consequence of this it proves Foreign Secretary Nirupama Rao right because she had pointed out at the possibility. "We have to be constantly alert to this possibility." However if we have not got the clues and found any lead in the matter, it would give away our weakness in the investigation of the matter.

In a hurry, as it often happens, to show some breakthrough to the bosses or to affiliates in ideology, it is also possible that more people like Ansari or Nachan would be made to wear the cross like some of the accused in Malegaon blast of 2006 whose only "crime" was to carry placards depicting Laden and denouncing the unjust war of George Bush on Iraq.

The entry of terrorism thanks to America has destroyed what Alexander Pope rejoiced, happy the man whose wish and care a few paternal acres bind, content to breathe his native air in his native town.

Brahmin praise for Periyar E.V.R.

A social reform question which figured in the columns of the *Hindu* in April, 1925, was the controversy over the functioning of the Tamil Gurukula Vidyalyaya at Sermadevi in Tinnevely District conducted by V.V.S. Aiyer, onetime revolutionary and associate of Bharati. Dr. Varadarajulu Naidu and other non-Brahmin leaders had objected to non-Brahmin boys of the institution being asked to take their meals separately. The matter went to Gandhiji who advised inter-dining but employment of Brahmin cooks. Dr. Varadarajulu Naidu was not satisfied with this arrangement as he did not like the condition about employing Brahmin cooks. He asked for the return of money subscribed to the funds of the Gurukula.

Request to British Govt.: In a letter published in the *Hindu* on April 15, V.V.S. Aiyer said that except in the case of two Brahmin boys, in the case of all other Brahmin and non-Brahmin students there was common dining, and he made it clear that no Brahmin taken into the Gurukula thereafter would be given any exemption from the general mess. Speaking at a public meeting at Salem, E.V. Ramaswami Naicker said they must settle the Brahmin question even while the British supremacy lasted, otherwise they would have to suffer under the tyranny of what he called Brahmnocracy.

On April 21, V.V.S. Aiyer announced in the *Hindu* his resignation as head of the Gurukula. He said his

opponents seemed to have developed a special hatred against him and in order to make it easier for other members of the ashram to negotiate with them he would step down from his post.

Commenting on the controversy, the *Hindu* wrote: "We hope that the suicidal and unsavoury disputation would be brought to a speedy termination by the adoption on both sides of a policy of give and take, remembering that social questions cannot be settled satisfactorily either by cowardly running away from them or by thrusting changes down the throats of unwilling people.

The Hindu, the Mount Road Maha Vishnu, the Madras-based largest Brahminical media empire of India, had hurled the vilest abuses against Periyar E.V. Ramaswamy, considered as India's second greatest Indian after Dr. Ambedkar.

But in a souvenir titled 100 Years of the Hindu — The Epic Story of the Indian Nationalism, the same Hindu showered superlative praise on Periyar who drove out all the hate-mongers from the country's purest Dravida land — Tamil Nadu.

On p.337 of the Hindu souvenir, it pays the following tribute to Periyar for fighting Brahmin racism in the then Madras presidency. It also quotes a speech made by Periyar at Salem on May 25, 1925:

On April 28 the Ashramites of the Gurukulam elected T.R. Mahadeva Aiyer as the new head of the Ashram in place of V.V.S. Aiyer.

Periyar quits Congress:

The controversy was one of the contributing factors for E.V. Ramaswami Naicker drifting away from the Congress and later forming an organisation of his own whose avowed objective was to eliminate Brahmins and Brahmin influence in Tamil

Nadu which it wanted to secede from India. The above document, supplied by K. Veeramani, head of the Dravida Kazaghram started by Periyar, was read by Editor V.T. Rajshekar, at the packed Periyar Thidal function to felicitate the brave police officer S.M. Mushrif, author of the fast-selling book, *Who killed Karkare?*, which exposed the *vaids* behind the Bombay terrorist attack of 26/11. ■

Tribals fight Brahmin Maoist

Calcutta: Gurucharan Kisku, a tribal aide of maoist leader Koteswara Rao alias Kishenji (Brahmin), has hinted at a major rift between the Maoists and the tribals. Kisku, who has accused Kishenji of ignoring the interests of tribals, has decided to start his own squad. Suggesting the Maoists-Tribal divide, Kisku said, "Maoists are following the proletariat line where tribal distinctness is not recognized. So there is neither any cultural uplift nor tribal development." "People in tribal areas are showing signs of resistance to Maoists and I am with them. I am also in touch with tribal leaders who have supported my stand," Kisku alias Marshal added. Kishenji was only making use of tribals rather than actually fighting for them. "The movement in Bengal is not a tribal movement as claimed by Kishenji, it is anti-tribal." ■

Muslims deceived

Vijayawada: A round table meeting on Muslim reservations organized by the Popular Front of India, Vijayawada branch, here on Feb.20 accused the govt. of deceiving the Muslims in the name of reserving 4% of seats in education and employment prior to the general elections "only to get benefited by the Muslim vote bank".

The meeting was organised at the Press Club in the wake of the Supreme Court verdict scraping the reservations announced by the govt. It was chaired by Shaik Abdul Rahman, convener of the Muslim Reservation Porata Samiti. Representatives of SC/ST/BC and minority wings of various organisations described the verdict as "nothing but the state govt. failure". ■

Dr. Ambedkar deliberately neglected by rulers for demanding social justice

DR. BHARATHI THUMMAPUDI, TIRUPATI

The Ministry of Information and Broadcasting in its ad in the *Hindu* (April 14, 2008) said: "The nation salutes *Bharat Ratna* Baba Saheb Dr. Bhimrao Ambedkar, architect of Modern India, on his birthday April 14". It took about four and half decades to honour Dr. Ambedkar with *Bharat Ratna* and more than six decades to recognize him as the architect of modern India after "independence" of this *Maha Bharat*. Dr. Ambedkar, a neglected national-level leader, is not neglected by accident. It is intentional. Deliberate.

PRIVATE PROPERTY CAUSE OF SORROW

Babasaheb was the architect of modern India in every sense. When almost all the "national" leaders were fighting for the "independence", Dr. Ambedkar was the only one trying for social justice, socio-economic and cultural development along with political liberation.

He was the only leader donning a Western suit reflecting his modern thinking. His education in the US (MA and PhD in economics from Columbia University) and (MSc. and DSc. from London School of Economics and political science, Bar-at-Law from Grace Inn, London) helped him expand the horizons of knowledge. Hence he was always planning and working towards a new nation or a new world free from exploitation. Hence he is not just a national leader but a philosopher who wished to lead his country into the world — from social, cultural, economic and political exploitation. His modernism is based on the

synthesis of the French ideals: liberty, equality and fraternity and the rationalistic thinking of Charvaka and Budha's ideology of *Bahujana Hitaya; Bahujan Sukhaya*. He understood the world's great ideologies and great minds. Hence he tried to show a meaningful understanding of Marx's theory of private property as the root cause of sorrow/suffering with Budha's teaching of desire/passion as the cause for sorrow. If the exploitation, suffering and enslavement are connected with private property of Marx, the desire too is connected with personal wealth, certainly connected with social evils.

Dr. Ambedkar wanted an advanced nation and advancement is possible only with reason but not religion. He wanted the nation to shed its superstitions and embrace Buddhist dhamma, rooted in rationalism. Reason is essential for the growth of any individual or any nation.

SOCIAL DEMOCRACY

John Milton, a great renaissance scholar and English poet, in his *Areo Pagitica* (1644) states that breath of reason, the immortal element of life, is the fifth element of life in addition to the four elements of life-earth, air, water and fire.

Even if a country reaches the height of excellence in philosophical thought, literature, arts and science and yet will face civil wars and social disorder if there is no social democracy. Otherwise the inequality that results from social discriminations, be it based on race, religion, language, caste or sub-religions, build up a static electricity

as in the clouds in the sky and at an unexpected moment result in thunders and lightning and have devastating effect. Such revolutions bursting the seams create an instability and intervening region of terror which is very injurious to the establishment of a welfare state where all people attain satisfaction and wealth.

NOT CHARITY - BUT JUSTICE

Stability is very intimately dependent on words like "fair", "rights", "justice" and is not connected with pity, sympathy, charity etc. That is how Carlyle connected these two realms by saying justice before charity.

What holds good for individuals and society also holds good for governments. Bigger countries casting covetous eyes on their smaller neighbours and the stronger pouncing on weaker ones through war, diplomacy and cunning as the European imperialistic governments behaved will lead towards struggle sooner or later. Dr. Ambedkar (on Dec.17, 1946) in the Constituent Assembly said that state has to make economic, social and political justice a reality and further added that there may be social and economic justice in the country, that there would be nationalization of industry and nationalization of land..." (Vol.1, 100).

He added unless a country's economy is a socialistic, no govt. can do justice — social, economic and political. Economic and political justice have no meaning without social justice. That is how the Indian constitution gives the highest importance to social justice.

He predicted that if social

democracy is not established there may be a danger for the nation's political democracy. He said on Nov.25, 1949:

On 26th January 1950, India will be an independent country (cheers) what would happen to her independence? Will she maintain her independence or will she lose it again?

(Official report Vol.X, p.977)

He further gives the reasons that may become a threat to the country's stability. He said on the 26th January 1950:

We are going to enter into a life of contradictions. In politics we will have equality and in social and economic life, we shall by reason of our social and economic structure, continue to deny the principal of one man one value (p.979).

A JUST SOCIETY WON'T PRODUCE TERRORISTS

That is why he argued for making a political democracy as social democracy as well. He always pointed out the paradox in Indian democracy and said inequality is a

great threat to democracy. If there is no social justice even the sovereignty of a democratic nation will be destabilized.

Today social justice is on the top of agenda of every govt. and uppermost in all bilateral and multilateral discussions.

Just societies don't have or produce terrorists. Social justice destroys instabilities caused by fighting groups. Social justice has been found to be a more efficient weapon than the conventional weapons of warfare. ■

COMMUNICATION

Zionists forcing WW-III to kill America

MLECCHA, SAN FRANCISCO, USA

This is Mleccha, though I have chosen my actual Muslim name as Mikhail bin Yahya. I have by no means forgotten you. I am still waiting for my lawsuits to settle to free myself up to relax and come visit you. I have not forgotten you even the slightest bit. I am still quite anxious to see Dalit Liberation and leadership. A "prediction mathematician" crunched the data here in America and said World War III is inevitable, and it will happen because of Zionist scum in Palestine. The only good thing about it is maybe Muslims will unite finally, like the Europeans and Anglo-Americans have NATO.

The Muslims need their own military alliance so people will respect them. Even if America takes the side of Zionist scum, it will still lose. We failed in Iraq and half of America does not like being Israel's rescue-daddy. Taking the side of Israel will bankrupt us and divide us, but nonetheless, the "Israel" we know shall perish. My guess, after American involvement, America will be broken and the UN and virtually the whole world will turn on Israel and eventually the Muslims will form a solid bloc. Let us hope for united leadership. And let us hope the Oppressed are remembered, the Bahujan.

DV as my teacher: When I say I want to spread Islam, it is an Ambedkarite Islam, actually your perspective of Islam. You of course have friends who also have excellent perspectives. I would say more than any other man, you are my teacher, our generations' teacher. Every generation has someone of value they need to listen. The last generation, it was Babasaheb

Ambedkar, before him it was Birsa Munda. Most generations have at least a couple of people they should listen to. Your values are the values the entire world needs now. I would not have as clearly seen the Zionist monster that I do now had you not displayed it. It's insidious.

The average Jews are actually not the leaders of the conspiracy, but are the pawns of the wealthy Jews of the Zionist Congress. The leading Jewish families control the world's banks. This conniving Zionist Cabal created Irgun, but changed its name to Likud (it's political party in Palestine) and Tzahal (it's Jewish military in Palestine), so it appeared to be a legitimate government rather than a terrorist organization.

Jews in America, who actually don't all agree with Likud or even care what they think and do, will scream if America neglects poor little Israel. They have a loud voice in Washington DC and the American media demanding we blindly support Israel. Meanwhile Likud is blindly leading us into World War III, and you already saw how we failed in Iraq.

America stands no chance against Iran and the entire Muslim world. Petrol will be absolutely unaffordable. Very few Jews are free from being blind to the evils of the state of Israel, because even the liberal Jews who oppose the Israeli government blindly say "There are good progressive Jews in Israel, so I support Israel." I can only sadly watch as Zionist Jews manipulate America into a sad demise. ■

Even West is shocked over India's anti-China stand

OUR CORRESPONDENT

Bangalore: Indian rulers love the Khatri Sick PM because he is their most loved loyal dog. As a world Bank nominee his behaviour is no surprise — though in the process he has endangered the Indian economy inside and its security outside.

The most serious and worrisome aspect which has shocked even Western observers is India going against China by hugging the renegade Dalai Lama. During his recent meeting with President Obama in the White House, the Tibetan exile has pleaded for US-India closer cooperation.

As the agent of the Zionist Jews he has to say this. But can India afford to go against China which even the US is afraid to hurt?

Jews don't trust "Jews of India": India's Brahminical rulers (15%) are not interested in India because they don't belong to India. Hence they don't love India. So it is quite natural they are pressing the Khatri Sick PM to go closer to US. The Jews and "Jews of India" are cousins. But the Jews have their own doubts about their cousins.

America is not only a super power but world famous for its honesty, efficiency, hard work, scientific and technological superiority. But what about our

Brahminical rulers? They are famous only for bragging. They are dishonest, lazy, deceptive and extremely untrustworthy — being rank racists. Australia has given all the proof of their behaviour.

The Indian rulers hate India. China knows this very well.

Fall of India: Right now the "Jews of India" are using their closeness to the US Jews to ride over us and further enslave over 85% of its non-Hindu population. India would have gained a lot by getting closer to China. But China has no Jews.

Jonathan Hoslag's latest book, *China & India: Prospects for Peace* (Columbia University Press, pp.234, \$37.50), discusses all these issues. But our rulers are not interested in facts of history.

As days pass India is going from bad to worse (134th position out of 182 countries in the world) but China is already a super power. India-China border dispute is unresolved. Meanwhile, China has fully encircled India.

Even pro-Zionist, pro-American experts are unable to understand the behaviour of the Indian ruling class of which the Khatri Sick PM has become the darling. Dangerous days are ahead. ■

India misses the bus as China masters English

OUR CORRESPONDENT

Bangalore: English has already become the world language. Every international conference is conducted in English. Future belongs to English.

But this rule does not apply to India where its ruling Brahmins say we must go back to Sanskrit — a dead language — even as almost 90% of them have mastered English and bagged the best jobs in India and the West.

Stinking worms: This love of Sanskrit is only to fool the slaves. Those who can read, write and speak Sanskrit are not even 2,000. Whom then are they trying to fool?

As a community noted for acute stomach-ache, they are afraid if the slaves are allowed to study English they will steal a march and their rulership will be threatened.

As India has not even 5% people knowing English (reading, writing, speaking) China has silently stolen a march.

A Times correspondent in Beijing (Feb.21, 2010) says Chinese have virtually mastered English and defeated India — as they did in every other sphere.

Everywhere you can hear Chinese speaking the best of English. Already it has become a super power — even as India is being treated as a stinking worm.

English was introduced in 1980s and within 30 years "Chinese have grasped the keys to the gateways to a whole new world", it says.

But the Indian rulers are not ashamed. Their satisfaction is that they have succeeded in keeping the slaves out of English. What do they care if the country dies — it does not belong to them. ■

US Blacks salute Dalits & call for joint struggle

DEDON KAMATHI, LOS ANGELES, USA

We are ready for the Revolution. We salute the continued militancy of V.T.Rajshekar and the *Dalit Voice* staff who have brought the struggles of the Dalit people to the consciousness of many Africans in the US, Europe, the Caribbean and Latin America. Decades have passed but the struggles of our people continue.

Racist America: The recent election of Barak Obama demonstrates the crisis of the US White capitalist ruling class and their allies to camouflage the US racist and Islamophobic and anti-Third World foreign and domestic policies. Obama, a puppet of the European ruling class, who has an African and a Muslim background, shows how desperate the US is in trying to shore up their imperialist tentacles in the African and Muslim world by thrusting Obama as the new US image of "hope and change". Imagine one of the most racist countries in the world, in the same league as India, that stole the whole country, the US, from indigenous peoples and then stole millions of Africans from Africa to build this European Settler colony called the United States.

Clearly from Somalia to Afghanistan, from Iraq to Zimbabwe the world is rejecting the US and the Caucasian ideological and economic path. Africa, Latin America and the Islamic world have not only rejected but in some cases have challenged thru indigenous peoples movements the rule of the European ruling caste throughout the world. Cuba, Venezuela, Bolivia, Honduras, and Dominica bloc is just one example of the rejection of the Euro-Spanish elites.

China with its contradictions has successfully moved from one of the poorest countries of the world to a superpower status in a brief 20 years to provide political and economic alternatives to the Western capitalists bloc.

Afro-Americans living in the US are in deep crisis. Our conditions have continued to deteriorate. 85% of my people are worst off today by all social development indicator than any period since slavery. Under the period of segregation by default we created a extremely thriving business, academic, farming, social, media, service, spiritual and full employment sectors. Our unemployment rate, homelessness rate, prison rate were extremely low.

Blacks on decline: Our self esteem was strong manifested by the rise of the Universal Negro Improvement Association and African Communities League which had over 5 million members worldwide and created a series of infrastructure alternatives all rooted in Pan Africanism. But today the Blacks are on the decline, Black farms are non-existent, Black colleges falling, Black radio, magazines dying. We have over 1 million of our youth in prisons and over 95% in the crime courts. We have over 35% unemployment rate and another 30% underemployment.

Our rates of homelessness, hunger, death is on the rapid rise.

The level of self hate and self destruction via the Zionist/Israeli controlled media which constantly bombards our youth with Black on Black gangsterism, raping, pimping, sexism and promotion of the drug culture has made the Black communities war zones. Subliminally the promotion of the White beauty make out dark skinned people believe they are ugly and have little value. We view our own women as inferior to White women. The portrayal of Africa as a land of savages, terrorists and poverty has made the sons and daughters of Africa hate our roots, our history, our culture. Yes, the fact that for over 500 years we have and continue to fight to throw out these European multi-nationals and settlers but they won't leave. Our people are being bombarded with their Eurocentric values of money by any means necessary, individualism, competition, White supremacy. Of course the US prison industrial complex including the courts, lawyers, prison etc. are making supper profits.

Our revolutionary forces continue to struggle to combat these self destruction tendencies and are constantly being attacked by the US intelligence agencies and their Zionist collaborators. The dollar diplomacy as well as covert psychological campaigns has ripped away many of the cadre of the 60ties thru 80ties. Yet whenever there is oppression there is resistance and localized cells of student and youth activist are rising throughout the US. There is a core cadre of Black Panthers, All African People's Revolutionary Party and other organizations continue to provide the generation link to the younger generation. We are increasing our ties to Africa and to the Black world.

We stand by the Dalit people in general and *Dalit Voice* in particular — ready for the revolution.

We will restart communications. We are clear that the struggle of the Dalit is one of the most unacknowledged struggles against Brahminism, another form of European Capitalist/Imperialist supremacy. We join in absolute, 100% unity in defeating the Hindu/Brahminism domination of the Dalit.

*The situation of India's Black Untouchables (Dalits), constituting about 20% of the country's 1,300 million population, is worse than the Afro-American situation in US which you have so graphically painted. You have to only see to believe it. Our Brahminical rulers (3%) have joined hands with their Zionist blood brothers. So much so the country is fast falling year by year but the media is shielding the Truth. We are bringing out *Dalit Voice* converting our blood into sweat. And yet surrounded by gloom and doom — EDITOR.*

Jews & "Jews of India" are cousins: DV theory proves right

CHANAKYA'S ARTHASASTRA & ZIONIST PROTOCOLS ARE THE SAME

Jesus was killed by the Jews (Just as Budha was killed by the *vaidiks*) and condemned. And had him executed by the Roman Governor of Palestine, which then belonged to Romans.

Henry H. Klein, himself a famous Jew and a top lawyer of New York, says the top secret document, *Protocols*, was first published in 1897 and again 1905 by a Russian professor. The world famous British Museum, London, had a copy of the secret document from 1906. But India has not so far produced an honest *vaidik* to expose the treacherous aims of the *Arthashastra*. For translating the secret book from Sanskrit to English, Shama Sastry of Mysore was punished.

The *Protocols* outlines the secret Zionist conspiracy to destroy the Christian world. The

Arthashastra says how to destroy India's 98% non-Brahmins.

America is controlled by 2% Jews and India by 2% *vaidiks*.

Jews are called the "Chosen people" and the *vaidiks* called *Bhoodevatas*.

The objectives of the *Protocols* have been fulfilled and also that of *Arthashastra* in India.

The *Protocols* is to enslave the Christian world, make them bankrupt and then rule. The *Arthashastra* has already completed the job.

Read the booklet, *A Jew Exposes the Jewish World Conspiracy*, Henry H. Klein, a Jew, New York. (pp.24, Rs. 20).
