## India heading for civil war : We will have no future if Hinduism is allowed to exist for long

**D**r. Kancha Ilaiah is our good-old friend whom in *Dalit Voice* we have hailed as one of India's rarest honest intellectuals.

We have read his latest book, *Post-Hindu India* (2009), fully and congratulate the author for **identifying** the country's principal enemy.

**Identifying** the enemy needs good lot of skill plus courage. And courage comes from where? Conviction.

Dr. Ilaiah had the courage to **identify** India's principal enemy: that is Brahminism of which the Brahmin is the architect. In DV we have said it from the very beginning.

Yes You may ask: What about the non-Brahmin landed gentry like the Marathas (Maharashtra), Reddis (AP), Nairs (Kerala), Jats (Punjab etc.), Vellalas (TN), Kayasths (Orissa and Bengal). And many more. They are the real oppressors of the Dalits, tribals and even the OBCs. They are also our enemies. In fact they are the real killers.

**Who is the principal enemy:** But Dr. Ilaiah, himself belonging to the oppressed OBC, does not say that the landed *shudra* castes or OBCs are our principal enemy because he has made a study of the law of contradictions which helps find the principal contradiction.

**Under the Indian conditions, the principal contradiction (enemy) is the Brahmin.**

The landed *shudra* castes indeed are also the enemy, but they are not the principal enemy.

Some people ask: what about the non-Brahmins? Those who raise such questions are agents of the Brahmins who are trying to curry favours with the Brahmins.

**All landed castes are the bum-lickers of Brahmins. Once**

### Appeal to DV family members

*Dalit Voice* is getting world-wide appreciation. But the oppressed Dalits and Bahujans (85%), for whose liberation from Brahminical tyrants it is working inside India, appear unconcerned — if not unconscious.

If those crushed and crying under the feat of the tyrant is not interested in *Dalit Voice*, why should we sweat, toil, face the Enemy wrath, incur losses and get a bad name ?

Dr. Babasaheb Ambedkar wept and died a sad man. We are still worse as we complete 28 years and step into the 29th — EDITOR.

**the bum is eliminated, the bum-lickers are automatically dead.**

In Tamil Nadu, the Periyar Movement no doubt fought the Brahmins and eliminated them. But once the non-Brahmin landed *shudra* castes like the Mudaliars, Naidus, Gounders, Chettiars etc. took over the rulership, they started oppressing the SC/ST/OBCs. The process of eliminating the principal contradiction is a continuous process. In TN, the OBCs and SC/STs did not continue the Periyar revolution.

Those interested may order for a copy of the *Law of Contradictions* by Mao Tse-tung (Rs. 45).

**Barking dogs:** Sorry to say India's academics have not produced a scholar of such courage and conviction like Kancha.

Our greatest satisfaction is that every word and every sentence that the author says in this book is exactly what we have been saying in the *Dalit Voice* for the past 30 years.

So whatever the barking dogs in the Brahminical world may say about us, we stand fully vindicated because of the strong support we got from the tallest intellectual academic in a country that unfortunately has turned into a vast intellectual desert.

However, we have some doubts on his conclusion.

**Hinduism is not a religion:** The first is about Hinduism, which he calls a religion.

A religion needs three things to be called so, according to Dr. Karen Armstrong, the international authority on the subject:

- (1) It must have a founder
- (2) A god.
- (3) And a holy scripture.

Without these three qualifications, a creed cannot be called a religion.

**Even the Supreme Court of India has said Hinduism is not a religion but a way of life.**

All other religions like Buddhism, Islam, Christianity, Judaism, Sikhism have this qualification. But not Hinduism.

**Civil war:** Our only doubt or rather disagreement with Kancha is on his prediction of a civil war by the oppressed in India. We will be too happy if a civil war begins. But we see no sign of it. As the Editor of *Dalit Voice* with readership all over India, and our frequent travels all over, we are in touch with the representatives of the oppressed people. We see no signs of a civil war. However we see

lots of anger, even sporadic violence.

**However, we see no signs of a civil war. Even if it comes, such a civil war will be led by the Brahmin only.**

**Brahminical counter-revolution:** However, what we see today is a fast developing Brahminical counter-revolution.

*Abhinav Bharat*, led by a Chitpavan Brahmin, aided by Zionist Israeli funds and weapons, is spear-heading one such counter revolution.

**Death of Hinduism:** The happiest news is the author's prediction of the sure death of Hinduism which is the other name for the caste system that is killing the country. The Brahmins, drivers of the caste bulldozer, also know it but they don't care what happens to the country. Why? Because as Aryans, they are foreigners, and hence do not love this country of which we are the original inhabitants.

**What a paradox that this less 3% alien Brahminical people have been allowed to remain as our rulers for the past over 3,000 years. Is it not a better wonder than the "Seven wonders of the world" ?**

The author, a Political Sc. Professor at Osmania University, Hyderabad, goes on unravelling the different aspects of this wonder of all wonders of the "barbaric religion" in pages after pages in the book.

**Brahmins love wars:** We thank the author for exposing the Brahminic love for war and violence (*Violence in Hinduism*, Dr. K.S. Bhagavan, DSA-1986). As this is written they are preparing for yet another war on Pakistan. Yes.

**Brahminism cannot survive without war and violence.**

That is why "they have called war a divine dispensation" and "perfected the art of war and sex". The killing of all the "Kshatriyas of the world" by their great god Parashurama is hailed as a divine act and Kerala is named — *Parasurama Shristi* — after this god.

**God Krishna, a wonderful sex god, ordering Arjuna to kill his cousins, uncles on the battlefield is brought out as a "divine text", called the Bhagwad Gita, and Gandhi, the Father of their nation, calling it his life's breath. What wonderful jokers this country has produced.**

**Founding fathers of racism:** The world does not know all these jokers because India's Brahminical

media has suppressed the supreme truth that Hindu India is the founding father of racism. The very name of the Brahminical religion, *Varnashrama Dharma*, means it is a racist creed exposing its racist essence. What does *varna* (a Sanskrit word) mean? Anything which is white is alone divine. Black, brown and yellow are hated by the Brahmin. That is why this eternal Brahminical war on India — and against its Black Untouchables OBCs and the Yellow Mongoloid tribals of North-East.

As founding fathers of racism in the world, *vaiddik* rulers of India have injected racism into every aspect of life — including what we eat, our skin colour, agriculture, science, art, culture, sports, health sciences, religion. No aspect of our life is spared from the Brahminic racist onslaught.

That is how India has sunk from the Third World to the Fourth.

**Spiritual fascism:** The author gives a number of instances of Brahmin violence but at the same time claiming that their Hinduism is the "world's only non-violent religion". But Kancha says the "Brahmins worship only violence".

"The spiritual violence of Brahminism is defined as non-violence".

Since they only have the sole monopoly on writing and media, which is 150% Brahminical, what they write is taken as truth. That is how Kancha calls Hinduism as spiritual fascism. Wonderful.

Look, how the Brahmin is enjoying, holidaying, luxury living, dancing, dining and sexing all through the 365 days in the year. All this the foreign scholars can believe only if they see it with their own eyes. No. The "Brahmin enjoys life only when others are suffering", says Kancha (p.201).

**India's most violent people:** The Brahmin, by training, is made to be timid (p.204) but his self-love makes him hate others. And this hate drives him to become the country's most violent person. So much so he worships only violence (p.206). In the whole world, it is only the Brahmin god who is the most violent, fully armed with deadly weapons.

That is how the Brahmins control India only through violence. Spiritual fascism and intellectual goondaism — the two expressions so beautifully coined by Kancha — the "two gigantic octopuses eating the very vitals of the society" (p.215).

So much so the country has wasted 60 precious years because India that is Bharat has met with a ship-wreck hitting the twin rocks of spiritual fascism and intellectual goondaism. Beautiful.

That is how, as per Kancha's prediction, India is facing a "civil war situation" (p.234). Fine. We welcome if it is true. Rather, we will join it.

**Rapid hinduisation of SC/ST/BCs:** Brahmins by nature being timid — cowards — will have no courage to face our sturdy SC/ST/BCs and ferocious Muslims but they used their poison philosophy of Hinduism to douse any rebellion of the "low castes". If the Muslims and Christians twist their tail, the Brahmin will direct his mighty state apparatus itself to kill and finish the rebellious "terrorists".

What is deeply worrying us is the rapid *hinduisation* (enslavement) of the SC/ST/BCs. It is this weapon that is keeping the oppressed Dalits as slaves who are let lose as blood hounds to kill the Muslim and Christian.

**Look at the magic of this Brahminical strategy. When the SC/ST/BCs are ground to dust by the Brahminical socio-cultural machinery, they feel no pain but simply surrender as slaves with a smile. This we call "slaves enjoying their slavery".**

**Slaves used to kill Muslims:** But the same obedient slaves enjoying their slavery suddenly get all the courage — fretting and fuming with all the fire in their stomach — jump out to kill and burn the Muslims and Christians.

What is this marvellous magic in the Brahmin *mantra*?

**His own enslavement, daily killing and torture, poverty and persecution will not anger the SC/ST/BC. But the same timid fellow is roused to action to kill and burn the Muslim and Christians. They demonstrated their anger pulling down the Babri Masjid and later killing 2,500 Muslims in Gujarat.**

Should we not admire the Brahmin for this mysterious power in his *mantra*?

Kancha says a "war of nerves" is now going on all over the country. Yes he is right. This war of nerves will assist the overthrowing of Brahminism. This may even reach the stage of war (p.235).

This sentence of Kancha is followed by a big *if*.

"If the upper castes use weapons to suppress the struggle for equality, the lower caste masses

may move into all forms of war of weapons" (p.235).

**Our doubts:** This is where we have our serious doubts. Among the SC/ST/BCs — the three important segments of the *Avarna Bahujan Samaj*, BCs are the worst *hinduised* (meaning enslaved) lot. Mulayam Singh, Lalu Prasad Yadav in the cowbelt are the best examples of the *hinduised* slaves of Brahmins. Even Nitish Kumar, an OBC Kurmi, is a Brahminical slave. But Mayawati of the Dalit section is not.

Dalits (20%) are the one and only section which has the courage to say we are not Hindu and never Hindu — echoing Dr. Bhimrao Ambedkar, our Father's words. BC political leaders have no courage to say this in public.

**Even if we think that the "war of words" will lead to "war of weapons", the Brahmins may instigate our own BC brothers to tackle the Dalits. What leads us to such a conclusion is an organic unity between Dalits and BCs has not so far taken place in the cowbelt where such a war will begin.**

**Muslim hatred:** The more serious worry is the tremendous hate against Muslims generated by the Brahmins in the heart of the SCs and BCs — the two blood brothers. In all the anti-Muslim pogrom these two are used as the principal tools with the Brahmin actors standing and watching behind the screen with great joy.

Hinduism has created so much of distrust leading to disunity which in turn led to war of nerves between the "Hindu" and the Muslim. The Brahminical media is sitting in the drivers seat in this war.

**Periyar movement killed:** How the Brahmin divided and destroyed the country's most powerful anti-Brahmin movement led by Periyar EVR in Tamil Nadu is before us. *Dalit Voice* itself became the victim of this Brahminical strategy which succeeded in convincing the TN Dalits that such the great humanist, Periyar, was anti-Dalit. We can't get a better example in the whole country for the efficacy of the Brahminical strategy to divide and rule.

**Punjab turmoil:** Look at the latest development in Punjab where the Brahmins infiltrated into Dalits and instigated them against the Jat Sikh who themselves were already made monkeys by the Brahmin in the current "war of nerves" in Punjab. No doubt both the Dalit Sikhs and Jat

Sikhs are waging a "war of nerves" but such a war will not lead to civil war and a fighting war. Rather, the Punjab scene is working in favour of the "spiritual fascists and social smugglers".

**DV caste war theory:** Kancha is a great supporter of our caste war theory propounded in our book, *Caste — A Nation Within the Nation* (Books for Change, Bangalore, 2002). Since "class" in India is nothing but caste, India's road to socialism will be through caste war. This is what we have said. Kancha agrees with this and says the "Indian civil war will be on the basis of caste" (p. 238).

**That is why we have to strengthen every caste, particularly the lowest castes, which will force those above it to take to violence culminating in a caste war. All caste wars are welcome. The recent Gujjar-Meena caste war in Rajasthan is a step in right direction.**

**Shudra slaves of Brahmins:** We liked Kancha's criticism of the *shudra* castes. "The *shudras* as a community have not acquired the philosophical capacity to understand this limitation" (p.243).

Both in property and positions the *shudras* are a peanut before the Brahmins. All the *shudra* castes may have the muscle and the political power but they remain as the servants of the Brahmins all over India. The *shudra* behavior today is totally stupid though they once led the anti-Brahmin movement. But today they are slaves of Brahmins who use the *shudra* to hammer the SC/ST/BCs.

**DV worry:** After seeing "conditions of civil war", Kancha finally repeats the universal truth: "Civil wars occurred in societies where slaves realised that they are slaves" (p.244). Not only the entire SC/ST/BC castes have become slaves but slaves enjoying their slavery. How can we expect a revolution in a country packed with unthinking, unconscious serfs and slaves? This is our worry.

**No media:** In the whole of India we don't have a single powerful media of our own. The electronic media is totally mad, entertainment-oriented, money-making machine, fully engaged in making our people into monkeys. *Dalit Voice* is the only journal, but it is in English. Despite reaching 30 years we are still crawling because the English understanding percentage among the oppressed caste is not even 1%.

OBCs have good lot of money. Some Muslims and Christians are quite rich. Even about 10% of the Dalits have some spare money. But to this

day, the oppressed Bahujans (85%) have not thought of having even a mediocre media.

**Barring Dalit Voice there is not even a single all-India English journal with an international standard and scholarly guts. Kancha knows it.**

**Zionist control of church:** Christians with their enormous Western support are in a position to launch a media but the White Western Christian leadership listens only to Brahmin advice. Besides, the awesome zionist control over the Christian West will not permit them to go against the Brahmins, the blood brothers of zionist Jews. It is wheels within wheels.

How then to challenge the powerful enemy in the absence of a media?

Kancha says (p.245) all our fellows hate Brahmins. There is no doubt about it. But they are all owning the enemy culture, religion and dying for the sake of Brahmins (p.245).

**Kerala's Ezhava slaves:** The best example is Kerala's toddy tapper OBC Ezhavas forming a formidable 30% of the state population which has completely forgotten their Sri Narayana Guru. Who can save such an unthinking people? (DV Edit Nov.16, 2009: "EMS was Brahmin first, communist next: Cheated Dalits, OBCs, Muslims & destroyed Kerala").

**Even the new Buddhism which Babasaheb Bhimrao Ambedkar preached slipped into the Brahmin boiling cauldron and got transformed into a Brahmin spiritual fascism.**

The country's most revolutionary children of Babasaheb are caught in the Brahminical counter-revolution by running after the elusive political power or money power — none of which they will get.

Yes. Babasaheb did produce a "definite theory of revolt" (p.247) but the cunning Brahminical fox derailed this movement by inventing the magic formula that "political power is the master-key that can open any lock".

How then to kill Hinduism? It is true that Babasaheb Ambedkar said "Dalits are not Hindu and were never Hindu". Wonderful.

**Roaming skeletons:** But did the Dalits work to kill Hinduism? We are sorry to say no. Dalits being the last and the least in the human pyramid called Hinduism, and carrying its whole weight, should have been the angriest and the most ferocious revolutionaries of the country. But

where is the sign of revolution? All over India the Dalits are groaning, but unable to even sigh loudly. The world's most naked Brahminical barbarism has made them the roaming skeletons.

**Brahmins feel threatened:** We agree that "Brahminism feels threatened". We have said it hundreds of times. Islam and Christianity are adding to their worry. Muslims have turned to bomb and terrorism. But to counter the Muslim, they have *hinduised* Dalits and OBCs by converting Pakistan as our greatest enemy. War preparations against Pakistan are being made and the Brahmin media is manufacturing all sorts of cock and bull stories against Pakistan. All this to instigate the Dalits and OBCs to attack Muslims in India.

How far the Brahmin will succeed in their mission can't be predicted. If the current "war of words" between India and Pakistan graduates into a fighting war against Pakistan — which is also a nuclear power, and strongly supported by the super power China — what will happen to the Brahmin brag and boast?

But the Brahmin is not bothered if India suffers on account of this war. They are a set of hate-mongers. To them every drop of blood that falls on the ground from our body is like sipping a glass of cold beer.

Kancha wants us to "locate the targets and attack it properly" (p.253). But how can we locate it? Who has the ability? Who will do the attack?

**Abhinav Bharat kicks RSS:** Yes. Kancha is right in saying the birth of RSS (1925) indicates the death of Hinduism. Abhinav Bharat has dismissed RSS.

It means the contradictions within the Brahmin body is sharpening. The RSS-BJP kicking out the non-Brahmin L.K. Advani and handing BJP back to a Marathi Brahmin proves that power struggle is intensifying. (DV Edit Dec.16, 2009: "Living death of Advani should be a warning to all non-Brahmin leaders bum-licking Brahmins").

That Hinduism is sinking within India (p.258) is true. But Hinduism is like deathless creature - though Kancha says "there is no future for India if Hinduism exists for long" (p.265). He predicts that the builders of Hinduism have a strong death wish. Such a death will reinvigorate and rebuild India into a strong country.

We are happy that DV has contributed its mite to hasten the death of Brahminism and bury it 100 fathoms deep.

# Kancha Ilaiah's challenge to Hinduism

KAKI MADHAVA RAO, IAS, FORMER CHIEF SECRETARY TO ANDHRA PRADESH GOVT.

Dr. Kancha Ilaiah's latest book, *Post-Hindu India*, is the fourth book of the author and is easily the best. The unique quality that I notice in his writings is its originality and earthiness. In Telugu, we call such person as *Matti Manishi*. He ably upgrades these qualities with a lot of research work in academic area and field studies. Obviously his social and economic background drives his work. In that sense he is a true and able successor to Mahatma Jotirao Phule and Dr. Babasaheb Ambedkar. He enriched their message with the knowledge acquired from the field, fortified it with incisive reasoning and carried forward their torch a long, long way, within and outside the country, with the strength of his commitment and conviction.

## INDIA'S INHUMAN INEQUALITIES

This book is earth-shaking. It will earn accolades from Bahujans and invite sharp arrows from the Brahmins. Why? It analyses the Hindu religion in the light of facts of life from the early days of man's hunting civilization till today with reference to the productivity of each caste. The caste system is created by the Brahminic writers in the *Rigveda*, *Bagavathgita*, *Manusmriti* and so on. Brahmins are a consumption class while Sudras, Adivasis and Dalits (who be, referred to as Bahujan) are producing classes. He says that Brahmins are, thus, exploiters of Bahujan and these religious texts and subsequent commentaries, which project Brahmins as superior and Bahujan

as inferior, are meant to protect and perpetuate this exploitation.

Hindu religion is the only religion which blatantly claims that god created men as unequals while Buddhism, Christianity and Islam proclaim that god created all human beings equal. Any religion involves belief in a god or prophet or a holy scripture. It also involves a place of worship for all its followers.

## CURSE OF MANU SMRITI

A Christian goes to church of his choice; a Muslim is free to go to a Mosque. Similarly every Christian is eligible to become a pastor and every Muslim a *mulla*. But in the case of Hindu religion, Dalits were barred from entering a temple, till the constitutional guarantee was given. The Constitution is violated in many a place even now.

Death of Hinduism is nearing

 For copies write to DV office.

**From the inception of Hindu religion, only the Brahmin can be a priest. Nobody other than a Brahmin can become a priest.**

See the following canons of inhuman inequalities between Brahmins and Bahujans enunciated in the *Manu Smriti* and subsequent commentaries:

If an Untouchable reads the Hindu scriptures he should be blinded and if he hears their contents while a Brahmin is reciting them, he should be

made permanently deaf by pouring boiling lead in to his ears.

If an Untouchable performs any of the functions of the higher caste, the king should confiscate his entire property and drive him out of the kingdom.

Untouchables should not earn beyond their barest minimum needs, lest they should cause misery to the Brahmin.

The mad, the drunk, the child, the senile and the Untouchable are unfit to be witnesses in a court of law.

Whatever exists in the world is the property of the Brahmin on account of the excellence of his origin.

Being a deity, the Brahmin is above law and above king.

He should tie a big broom behind his back so that the space tread by him is cleaned by himself.

He should not enter temples.

He should not draw water from public tanks or wells used by upper castes.

## NO DEMOCRACY UNDER HINDUISM

All the above (which was ironically created by the Brahmins in they name of god himself) show that there is no spiritual democracy in Hinduism. It is akin to political fascism of Mussolini and Hitler. This spiritual fascism creates "social smugglers", "Intellectual goondas" and resultant exploitation and inequity. Ilaiah comes with a proposition that this is harming the country as it militates against creativity, scientific innovations and economic development. Remember the famous phrase of "Hindu Rate of

Growth" of 3% increase in GDP. It is only in the last decade that we got out of Hindu growth rate. But this increased growth is accompanied by the inequity of producing a handful of billionaires and crores of poor people. After all, is not inequity a god's creation, as per the great Manu?

## REPAIR HINDUISM OR FACE DEATH

**Spiritual Fascism in Christianity has been reformed by Martin Luther. But even the so called progressive thinkers like Raja Ram Mohan Roy and Vivekananda did not work for bringing in spiritual democracy in Hindu religion.**

It is in this background that Ilaiah is giving a spirited warning to Hindu religion to reform itself or face death. It is still not a war cry to destroy Hinduism. At the same time it is an exhortation to the *sudra* leaders to wake up from their slumber (injected by the Brahmins in the name of god) and strive for spiritual democracy and equality. By saying that they should follow the path of struggle of Dr. Ambedkar, Ilaiah's suggestion is for action plans like Mahad tank entry; which in this context means take over the priesthood of the temples and temple properties.

## DECLARE CIVIL WAR

Universal right to all castes is the true test of spiritual freedom and equality. If Hindutva forces resist these moves by *sudras*, the latter should declare a civil war to establish spiritual democracy. And if the civil war is forced on the *sudras*, Dalits and Tribals by the Hindutva forces, the sacred thread, which was the marker of superiority, should be used as the marker for attack, says Ilaiah. He quotes the examples of civil wars in Europe. All civil wars in the world attacked the symbols of ruling class that

constructed the social self of working class as unworthy of being respected. The royal/feudal caps, dress codes, peculiarly made out shoes that they alone were entitled to use were attacked in all European civil wars. Are Mulayam Singh Yadav, Lalu Prasad Yadav, Narendra Modi, Nara Chandrababu Naidu, Sharad Pawar and Karunanidhi listening? If they listen and get into action they can make it happen.

Latin Americans and Africans were taken out of spiritual darkness during the expansions of Christianity and Islam. Similar moves by Buddhism were eventually defeated by Hindutva forces. The same thing is now happening with Christianity as seen from the attacks in Orissa. The same obscurantist forces will try to thwart the efforts of Sudra, Dalit and Tribal movements to gain spiritual democracy and we will have to see if they can resist the onslaught of *sudras* who constitute more than 50% of the country's population and who will be readily supported by another 22% of Dalits and Adivasis.

## ASOKA'S WHEEL

And if the *sudra* leaders fail to reform the Hindu religion, should they leave it and join Christianity, Islam or Buddhism as Dr. Ambedkar did?

This book reveals that Ilaiah is a cattle herder, shepherd, tapper, weaver, blacksmith, gold smith, potter, tiller, harvester, barber, shoe maker, the mason, honey collector and Podu cultivator — all rolled into one. He is learning the science of traffic regulation and the secrets and the value of united action from ants, bumming with the bees, cajoling the caterpillar, entertaining the earthworm, feeding, washing and riding the buffalo, selecting the grass for the sheep — every minute of his life and in every context. Such

is his close study and identification with the lives of productive caste/ classes.

See his explanation of Asoka's wheel. The invention of wheel of the bullock cart and horse carriage has led to the greatest inventions of rail engine, motor vehicle, Aero- plane, power generator, spinning wheel and industrial wheel. He sees Ashoka's wheel as a symbol of progress.

## "OM" COULD NOT PRODUCE FOOD

He says zero was discovered by cattle herders and shepherds — otherwise how could they have counted hundreds of cattle and sheep? He complains that Aryabhata, a Brahmin, stole the idea from them and claimed it as his discovery. Ilaiah says labour is real capital hidden in the body of the labourer which comes first before and over and above plant and machinery. It is the washer man who invented the practice of bleaching. The tiller is the first soil scientist. He knows how deep to till in each type of soil and at what moisture level and for what kind of seed to be seedled. The potter is his successor scientist, who can select the right type of soil for brick making. The blacksmith is the inventor of furnace.

He rejects the idea of Aryan and Brahmin superiority. The three great Prophets Budha, Jesus and Muhammad are non Aryans. The production classes in India which feed mankind are non Brahmins. "Om", supposed to be the most powerful, magical and musical first word to come out of the mouth of the creator but it could not produce food.

**Let there be no doubt about Ilaiah's nationalism. I say this in the context of the accusation by Indiresan in a TV debate that Ilaiah is not a patriot as he is**

vehemently supporting the reservation for OBCs in IIMs and IITs.

#### HINDUISM KILLED INDIA

In Indiresan's world anybody who does not swear by "merit" of his definition, is not a patriot. The disabilities imposed by Manu (listed above) means nothing to Indiresan. Denial of education and economic backwardness for centuries does not worry him. Concept of level playing field is irrelevant to him. constitutional provisions that give special facilities in matters of education and employment for socially and educationally backward sections make no sense to him. Bahujan children born to illiterate parents, studying in public schools, in regional language, in rural and tribal village even today, must compete on par with non-bahujan children, born to professors, judges, lawyers and civil servants, studying in English medium schools in the cities and towns. And that is the only merit that a patriot Indiresan will permit.

Ilaiah's whole agony in this book is the harm caused to the country by Hindu religion and how cleansing the spiritual fascism will help India's economic progress and inventive skills. When he says — if *Hindutva* forces keep fomenting communal riots, Kashmir will become another Muslim country — he is not wishing it to happen but he is warning the *Hindutva* forces against manufacturing such riots.

#### BRAHMIN CORRUPTION

It is said that the civil war in USA made that country most productive country in the world. Ilaiah wants reformation of Hindu religion or civil war to bring the required change, to make India to reach such pace of development.

One of the ills of caste system is inter-caste marriage. Marriage within family and caste groups is not

conducive for physical and mental growth. Dr. Ambedkar said that in any system the head is responsible for the functioning of the rest of the organs. Since Brahmins claim and act as head of Indian society, they are responsible for the inequality, exploitation and lack of growth of the country.

Does Dr. Ilaiah go overboard in running down Hindutva forces? He talks of the extensive corruption of Brahmins in civil services. The perception of people working in civil services is that Brahmins are less corrupt than others. He says sari is an undignified dress as it leaves some part of the body uncovered. Sari comes next only to *burkha* in covering maximum part of the body. How much of the body of the westerners is covered by their dress compared to the sari? Ilaiah says that prayer to an abstract god like Holy Book Quran and Guru Grandh Sahib leads to greater imagination and inventiveness as mothers get educated to read the scriptures and an educated mother helps her child to learn better; whereas idol worship

puts an end to imagination. Sikhs and Muslims pray the abstract objects — their holy texts. Their inventive skills are in no way superior to Christians and Jews.

#### BRAHMIN BEHIND GUJARAT RIOTS

He says the Gujarat riots are a handiwork of Brahmin forces. What about Narendra Modi, the most visible face of Gujarat riots, who is a *sudra*? Will he treat him as collaborator of Brahmins and enemy of the non Brahmin cause? Or has Modi become a converted Brahmin? Impossible, even god cannot do it. Modi can opt out of Hinduism but he cannot upgrade his caste into Brahmin caste in this life. Because, as a *sudra*, Modi is supposed to be born from the feet and not from the mouth of Brahma, the creator.

In the end I must say this. Ilaiah laments that not a single *sudra* acquired the status of a philosopher so far. He disproves his own statement. His ideas and writings anoint him as the first *sudra* philosopher in the making. ■

#### Kerala Christians in love with Brahmins

For over 200 years the Christians of Kerala have been denigrating Hindu religion, the caste system and how Hinduism degrades human beings.

The oppressed Dalits, Tribals and OBCs, victims of Brahminism, embraced Christianity in a big way and constitute 25% of the Kerala population — the single largest in the country. When the "lower castes" in the church overwhelmed the upper caste Syrian Christians, who constitute the church leadership, they realised the danger. Hence the current "inculturation policy" of the church sporting *sindhoor dots*, *Ashrams*, *Yesuvedams*, Hindu names, *mangal-sutra*, *mantras*, *Bhajans*, *Arathi*, *rathams*, *kuthhuvilakku*, calling their pastors "lyers" — and now insistence on continuation of the caste system for and within their flock.

They started telling the story of a Trichy Italian Padiri, named Di Nobili, calling himself a Roman Iyer. Why are these Christian religious leaders now seeking cover under the very system they have been, and are, bad-mouthing and denigrating all these years? Despair or something much more sinister? Why the church is actively promoting and fostering hatred against Dalits, OBCs? There is no shock. The Syrian (upper caste) leadership of the church wants to perpetuate its position with the help of Brahmins and Nairs.

## DV supports Telengana & all smaller states

OUR CORRESPONDENT

**Bangalore:** When Brahminism is admitted as our principal enemy, then we have to bend all our energies to destroy it. One of the ways to do it is to break all big states into smaller ones. That is why DV has always supported the demand for separate Telengana. And the break-up of all bigger states.

Congress bosses of AP may say violence is not the way to achieve it. But no demand of the oppressed was ever achieved without war and violence. Brahminism is against smaller states because smaller the state blood-sucking becomes more difficult.

**Fear of upper castes:** One argument of the oppressed castes within the Telengana comprising nine districts, which includes the capital city of Hyderabad, is that the very same Velamas (2%), Reddis 8% and 2% Karnams will dominate the new state with 30% OBCs, 25% Dalits and 33% Muslims.

K. Chandrasekhar Rao, heading the Telengana movement, is a Velama, also a landed upper caste.

AP consists of three regions of which Telengana is the most backward. The other two are Rayalaseema and the coastal Andhra, the most advanced.

Every state (the country itself) is dominated by the upper castes who in turn are controlled by the Brahmins. The landed *shudra* castes control the states and the Brahmin in Delhi.

**Khamma, Reddy domination:** It is true that the Reddis and Khammas of the coastal Andhra, who control Hyderabad today, will not allow separation of Telengana. Nor will the Brahmins.

The ruling Congress has conceded Telengana but to get Hyderabad City included in it, Chandrasekhar Rao may have to fast again and perhaps die like Potti Sriramulu who died in 1952 to annex AP from Madras state. That means more violence. They may not even agree to constitute Hyderabad into a central territory like Chandigarh.

**Language no criterion:** The fear of the over 85% oppressed, including Muslims of Telengana, is of Velama-Reddy domination. Does not matter.

India was never one single nation. Caste alone is a nation (*Caste — A Nation Within the Nation*, V.T. Rajshekar. Rs. 140, write to DV for copy) in such a multi-national country.

Casteism is killing the country. We can strengthen the unity of India by breaking it into tiny "nations". Bodoland, Bundelkhand, Old Mysore, Vidarbha, Kodagu, Gorkhaland etc. etc.

Remember, language is not the criterion. Why did the Brahmins carve out a separate state of Uttarkhand out of UP — both Hindi speaking?

Otherwise, ever-lasting caste wars will destroy all of us.

DEATH OF "AKHAND BHARAT"

## Signs of India breaking into nation-states

OUR CORRESPONDENT

**Bangalore:** The chaos that has gripped AP as this is written (Dec. 16, 2009) is bound to spread all over India. Because India is not a "nation" — but a subcontinent of several warring nations — groaning under the feet of Aryan Brahmins.

DV has said it hundreds of times but our **Voice** is drowned in the fury of Brahminical thunder and lightning.

**Mala-Madiga divide:** Andhra Pradesh had a taste of it as this written. India was never one united whole. AP itself was under three states of Maharashtra, Hyderabad and Madras state.

Language (Telugu) did not unite the Telugu people of AP. Untouchable Malas and Madigas got divided on ethnic identity.

The warring people of the three regions are all "Hindu" only. If the Hindus are all one and their *Hindu Rashtra* is a nation, as the Brahminists claim, why the Hindus in AP today are fighting and demanding a break-up? Also see how the leadership of Chandrababu Naidu and many others is simply destroyed. See the power of the "nationality question".

*Hindu Rashtra* is a myth. Say it as loudly as possible. We have explained this in detail in our book, *Caste —*

*A Nation Within the Nation*, (Books for Change, Bangalore, 2002, p.80).

**What is a nation:** Religion, language, territory do not forge a "nation". What unites a people is the willingness to suffer together — a feeling of consciousness of kind. Babasaheb calls this "consciousness" as the nationality. India, therefore, is not a nation.

We see a strong tendency of India breaking up. This is a good sign. The helpless, unthinking oppressed people, having been made unconscious by the Brahminical masters, show their frustration, desperation only through violence. This is a good sign. As they have not identified their Brahminical enemy oppressor, they show their

anger against a running train, a stationary bus or a police constable. Once in a way "nationality question" bursts out as it happened on Telengana. This led to protests in Rayalaseema and coastal Andhra areas.

**Akhand Bharat myth:** If the Brahmin rulers are wise, AP must be divided three-way. All those people in India aspiring for nationhood must (and will) get their nation. They have to fight for it — and die for it.

India itself will break into pieces. The *Akhand Bharat* is a big bullshit.

Those Aryan Brahminists coming in the way of our nationality upsurge will be thrown into the Arabian Sea. ■

## SC judges don't know meaning of caste system

OUR CORRESPONDENT

**Bangalore:** Even judges of the country's highest Supreme Court (SC) are ignorant of the caste system which is the English translation of the Sanskrit term, *Varnashram Dharma*. In a judgment two judges, Dalveer Bhandari and A.K. Patnaik, both upper castes (*Times of India*, Dec.6, 2009) made a sweeping statement without thinking:

"It is absolutely imperative to abolish the caste system as expeditiously as possible for smooth functioning of the rule of law and democracy in our country".

We have said it hundreds of times that the caste system is killing India.

But we have also said abolishing the caste system amounts to destruction of Hinduism itself — because

the caste system is the other word for Hinduism. If Hinduism goes how can the upper castes make SC the close preserve of their *jatwalas*? The whole Brahminical man-made, pyramid-shaped caste system will collapse — ending the 63-year-old Brahminical rule.

The SC itself has many judgments fully defending the caste system. Over 90% of our people are victims of the caste system which the Brahmins say is a divine creation. Those upholders of the *Varnashram Dharma* have said they are above the law, above the constitution and above the country. Both Bhandari and Patnaik must know that it is the constitution of Manu that governs India and not the constitution made by Dr. Ambedkar. ■

## Thus Spake Periyar

The indispensable essentials needed for society are also denied to a lot of people, who are now leading a difficult life in sorrow. We have adequate land. Yet the landless people are many. In such a world which has all adequate amenities for a happy life, we have starvation, poverty, worries, and a life confronted with struggles.

Is there any relationship between all these and god?

Is there any relationship between all these and man?

There are people who connect the matters in the world with god. But, we do not see any one blaming god anywhere for all these worldly evils. Can it be said that people have no ability and intelligence to overcome all these evils?

Of all the living creatures man is the most intelligent. It is man who created god, religion, philosophy and spiritualism. It is also said that extraordinary men have actually succeeded in realising god. Some are said to have become one with god itself.

**Science liberated man:** I venture to ask, why even such greatmen have not found out a way for all these follies of the world. Because people have not learnt to realise that these affairs of the world have nothing to do with god, they are not able to think and judge independently

It is the scientists and the rationalists who were able to do something good to humanity to alleviate their sufferings. They succeeded in their attempts to bestow good to man because they boldly dissociated themselves from god and religion. Their conviction and pessimistic outlook prompted them to pursue research work and find out a number of scientific inventions which consequently lead to the growth of rationalism. Even this is cognisable only in the West. They are the people who have resorted to change the face of the earth. They are the people who still strive to reshape the world for the future.

Why are we born? Why should any one struggle for food, when we have a world rich in all resources? Why should people die? These questions were once staggering the human mind. But today it is not so. Many things are exposed correctly in the rational way

*The World to Come*, (pp.6 to 9) (1st edn. 1980), Periyar Self-Respect Propaganda Institution, 50 - EVK Sampath Road, Madras - 600 007.

## Miracles of science & rationalism

nowadays. This trend will one day, not only reform the society but also revolutionise it. When that time comes, there will be no money in the form of coin. It will cease in the world. No one need to strive hard. There will be no job that will be deemed mean. There may not be a government vested with full power as we have now. There will be no slavery at all. There will be no need to depend on others of sustenance. Women will not require special protection, safeguards and support.

**World without wars:** In the world to come, it will be enough for a man to work for merely one or two hours a day to lead a happy life as the *mahatmas*, *zamindars*, religious heads as *matathipathis* and the Brahmins. Labour for merely two hours would be quite sufficient to enjoy all the pleasures of life. Even as an individual complains of a pain in the leg, ear, nose, belly, bone and so on, in the new world to come, the difficulties and draw backs of any single individual would not be tolerated by the society. Such a society based on cooperation and unity would be in the world shaped to come. Wars as waged now, would not take place in that world. People will not be forced to lose their lives in wars, plunders and murders. There will be no unemployed people, struggling hard for food and jobs. People may seek jobs only with the motive of keeping a healthy body. Rare articles, wonderful sights and scenes, worthy exhibitions, would be easily available for all people to enjoy. There will be no money lenders, private businessmen, industries and private concerns dominated by capitalists. There will be no agents, brokers and middlemen seeking profit.

The Navy, Army and Air force would be an anachronism in the co-operative world state of the future. Warships and arms meant to destroy the population will not exist. The task of seeking a job for livelihood would be very easy and within the reach of every human being. Pleasures would increase in leaps. The longevity of man would go on increasing by fresh research. Whatever might be the phase of increase of the population, the efforts and time needed to produce the necessities for life would be minimised.

## Letters to Editor

**Yousaf Irfan**, Lahore, Pakistan (yousafirfan61@yahoo.com): It is sad to admit that the attacks on Pakistan will increase in coming days. I find no man to counter these subversive activities. The matter is quite confusing and complex. The govt. takes no practical steps to check or control the situation. The govt. and the public know very well the people behind these killings and blasts. They cannot be stopped because the govt. itself is behind these culprits. The govt. is protecting them. Three weeks back, four American commandos of Black Water in Afghan robe, were caught by the police having pictures of ISI headquarter at Islamabad. Within an hour they were ordered to be released by Federal Interior Minister Rehman Malik. The same thing about the blast in Moon Market, Allama Iqbal Town, Lahore. The culprits are caught red handed but they are set free. Presently the civil, military and political hierarchy of Pakistan have dual nationalities. Their sons and daughters live abroad and the bank balance is also in the West. It is all due to the wrong and treacherous decisions Gen. Mushraf took to help the invading Americans in Afghanistan. Now Pakistan and US are together killing the Afghan and Tribal natives. The situation in Pakistan is very bad. Indo-Israeli and American hands are settled on the Pak-Afghan border i.e. Durand Line. Pakistan is on the verge of a bloody revolution and that revolution will be anti-American and anti-India in nature. Pakistan cannot survive if it remains part of Indo-American-Jewish forces. Pakistan is an ideology and ideology cannot be demolished by guns. Pakistan has deviated from the Islamic ideology. Pakistan is destined to survive and it will get better Pakistani nationalist rulers very soon. No Muslim in the region can think that such a blessed Muslim state can be wiped out from the map of the world. The divine will is with Pakistan. Pakistan defeated Russia. It is still capable of defeating Brahminists and America in the region. Only the will and determination of Gen. Muhammad Zia-ul-Haq is needed. Pakistan is so important that all evil forces of the world have united to destroy it. Obama named Pakistan 30 times in his speech on Afghanistan. The situation will improve only after bloody revolution and that is not far away.

*It took such a long time for you to discover the hands of the Jews and "Jews of India" behind your current blood-letting. We too in India are victims of the same twin forces who are enemies of humanity. You are right in admitting that Pakistan strayed from the path of Islam. There*

*are lots of sincere supporters of your cause in India but you are not interested in supporting them. Brahminism is killing India and all its neighbours but no effort is being made by Pakistan even to identify those victims (mustadafeen) let alone strengthen or uniting them. Your institution has the mandate to take up such a challenging responsibility — EDITOR.*

**Alan Billups**, USA, (alotus@worldnet.att.net): I have sent a packet of literature in which included some information from Dr. Delbert Blair which is specific to your situation. DVD/CD/audio the Blackman and woman, the pinnacle gland. Dr. Jewell Pookrum also speaks about the function of melanin which gives you a higher potential spiritual ability. Please review my book and then CD/DVD which will show you the solutions to all your problems and can primarily be solved within each one of you and then as a collective.

*Budha himself was finished and his thoughts banished from India over 2,500 years ago. How can we revive it today when not only the Brahminical enemy has joined hands with its Zionist brothers, captured govt. power, media power, all the resources and reduced the Black Untouchables of India (30%) as their unpaid slaves? Even the Buddhism revived by Dr. B.R. Ambedkar, the Father of India, has been swallowed by the Enemy. How to propagate and publicise your valuable material when we have no media of our own except our feeble Voice - Dalit Voice — EDITOR.*

**Sudhir**, 19308-Tomlee Avenue, Torrance-90503, USA: I have been reading *Dalit Voice* on and off over the years from afar as I live in the USA now. My summarized view on this journal is that while it does serve a certain population well and I am sure that some of the facts are true, the overall tone of the journal is so negative, antagonistic and bitter that after reading one I am so put off that I do not read another one for some time. The next time I read it I am hoping that the tone is more constructive and it is not. I am therefore writing this with the hope that in future the editorials are more constructive with examples of some outrageous behaviour by the hated Brahmin community along with incidents of good behaviour by the same community. This would give Brahmins and other upper castes who may be reading this to emulate the good and not bad. I am living in the US for a long time and I have seen the US undergo a transformation over the years, which is by no means complete. The real trigger for this transformation has been a positive and can do attitude by both the Whites and Blacks. I therefore have a vain hope that the next

time I read DV I am both enlightened with good news and make a commitment to help those who have unjustly suffered persecution simply based on where they were born. A little bit about me. I was born into a very progressive Chitpavan family and raised by parents who rejected all Brahmin traditions, everything from idol worship to accepting caste distinctions. They raised us to believe that all men/women are born equal. In the face of stiff opposition from grandparents they enrolled us in Christian schools and encouraged us to attend church/mass. My mother also taught in a Christian school where she would eat with Christian and other Hindu castes much to the horror of the other Brahmin teachers. We were taught not to criticize anybody's food or eating habits and encouraged to partake and share with anybody else's food be it meat or not. Even though I do not live in India anymore I do visit every year as I sponsor three schools in remote areas for tribals. What I do find now on my visits is the shift to where a lot of the senior officers in the Govt., banks etc. are SC/ST /Backward Classes. I make it a point to talk to them on how they now see themselves and how their children behave. My conclusion from these talks is that they now see themselves as the new Brahmins and refuse to let their children marry someone even from their own community and encourage them to marry outside. When I asked them why, their reply generally was that they now are the educated/privileged class and do not want their children to marry below their status. I told them that they were behaving like the old Brahmins and their reply was they saw nothing wrong with that and that they would like their children to marry only those with education, money and influence. This may not be true for everyone but it certainly is the majority

trend and thereby a new class of Brahmins is being born in India. The old Brahmins could survive for a long time as change in India came slowly. However the new class of Brahmins will manifest much more rapidly as the world is changing at such a rapid pace as never before in history. (sfd19@yahoo.com)

*We like you because you are an "honest Brahmin". However, there are lots of contradictions which need to be answered separately because these are the doubts and*

*fears that naturally come to an "honest Brahmin". The situation in India is too serious, too complicated, too confusing. The very fact that India is fast going downhill in the United Nations human index is because of this. Ours is a 30-year old journal, the country's leading voice of the oppressed constituting over 85% of the population. I am the author of over 100 books. You live in far off US but we live in this dung heap - unable to breathe free — EDITOR.*

### Can we trust a cobra & sleep with it?

SANCHARI BHATTACHARYA, CALCUTTA

You will have to trust people. Otherwise how will you measure the amount of change that your movement has brought over? All Brahmins are not harmful, atleast those who are sensitive. In fact the Brahmins are also in a pitiable state. They are bearing the burden which their forefathers have placed on their shoulders. I know a few Brahmins who eat beef. Religious mores and morals have become much relaxed atleast in Bengal. Calcutta has always offered Taslima Nasreen a safe refuge. A new day will come but we will have to work very hard. Won't you be happy if in this struggle for equality you get the Brahmins by your side?

*You have raised the question of "trust". Yes. Is it possible to "trust" a cobra and sleep with it when we know full well its poisonous bite will kill you? In our long experience of 30 years in the Indian journalism we could not find one Brahmin whom we can trust. Dr. Ambedkar "trusted" a Brahmin lady doctor and married her. And she only killed the "Father of India". It is for the Brahmins to create trust in us. Not vice versa. Brahmins offered Taslima refuge in Calcutta to hurt the Muslims. In the tragic history of India, Brahmins have always acted as the enemy of the Bahujan Samaj. If you want to work for us we have given you the agenda in our answer to your question (DV Dec. 16, 2009 p.23) — EDITOR.*

**Dr. Awatar Singh Sekhon**, 8507, 174 St. NW, Edmonton AB, T5T 2B8, Canada: The editor of the *Rozana Spokesman*, Punjabi (www.rozanaspokesman), Chandigarh, has been losing credibility. A front page ad. published recently relates to Prakash Singh Badal. The advertisement is false. Where was Badal in the last 25 years or since "Operation Bluestar" (June

1984) which was in fact an undeclared Brahminical war on the Sikh nation. Badal was a party to the "Operation Bluestar" of June 1984 and a collaborator with the RAW. The p.1 advt. reminds me the words of Winston Churchill: "The news media people are like prostitutes". They sell their very soul for money. Master Tara Singh was a stooge of Nehru and M.K. Gandhi etc. The latter is known for the genocide of the Zulu Tribe of Africa, well known for sleeping naked with his own nieces and other women. The

Sikhs have been robbed of their Sikh nation on Aug. 15, 1947 and Gandhi and their Brahmin-Baniya clique were deliberately made a landless nation. The Sikh elected representatives have rejected the Indian constitution, in its draft and final form. None of the Sikhs elected representatives has signed/accepted the Indian constitution 1950. The Sikh elected members were Hukam Singh, Bhupinder Singh Mann and Kapur Singh, ICS, MP.

**Omar Khalidi**, Aga Khan Programme for Islamic Architecture, Massachusetts Inst. of Tech., Cambridge, MA-02139, USA: We are your great admirers and have been reading *Dalit Voice* since long time. More power to you. (okhalidi@mit.edu).

*What do you mean by "you are our great admirers"? India is in very bad shape. The entire media is in the hands of the enemy which is spitting fire against Muslims and instigating clashes — converting India into a battlefield. When you are holding such important position in USA, it is not enough if you simply "admire" us. You must do something to save this country, the home for the world's single largest Muslim population — EDITOR.*

**Terrill S. Wyche**, Laurel, USA (twyche6@aol.com): Ever since I read V.T. Rajshekar's book, *Dalit — The Black Untouchables of India*, (Clarity Press, USA) I have been looking to meet brothers and sisters here in the United States who share the same views as those of V.T. Rajshekar. I am of the same mind as Rajshekar and I am enthusiastic to meet brothers and sisters who want to see a world free of racist caste system (racism).

**Jason Matthews**, California, US (kinmut@yahoo.com): I was curious to know if the Dalits or the Dravidians you refer to them as "Black Dalits", I wanted to know do you mean Black as in African Black and they are the same race as Africans and are a part of the African diaspora? Also, is this story of them being Black in the oral traditions or culture of the Dalits?

*India has the world's largest number of Blacks outside Africa and that they are kept as Untouchable, unseeable and even unthinkable by the Brahminical (2%) rulers of India. That is how India has become the world's founding father of racism. Our book, *Dalit — The Black Untouchables of India* (Clarity Press, Atlanta, USA, 2003, US\$ 9.95) will tell you all. Africans and Dalits belong to the same race. We are the original inhabitants of India. The US Blacks also came from Africa. But the Aryan Whites have kept us enslaved. India is ruled by its 2% Aryan (White) racists — EDITOR.*

**Anwar Haque**, Islamabad (haque8888@gmail.com): The Israeli-Brahminical forces are attacking Pakistan daily. The entire drama is created for several reasons and objectives:

- 1) To create confusion and uncertainty among common people.
- 2) Lower the morale of the people.
- 3) Defame Islam and Muslims.
- 4) Create conditions for possible future attack of India on Pakistan.
- 5) Create a justification for an attack on nuclear installations of Pakistan.
- 6) Block the support for the forces fighting against Kuffar control of Afghanistan.
- 7) To Keep heroin supply intact for the entire benefit of Zionist drug mafia

It has implanted several Qadyanis and other agents in several key positions of Pakistan. There is strong resentment among people. The people are not stupid as they understand very well the motives behind all these attacks.

*Israeli-Brahminical attack has some truth. We too are having such fears for a long time. The Jews and the "Jews of India" will do whatever it is in their interest but are its victims doing? During our two interactions at Lahore University (both this year and last) we found them a poor stuff. India has more Muslims than Pakistan. In fact we have the world's largest Muslim concentration. But this community, which once ruled India for 800 years, is today totally silenced and suppressed. Pathetic. India is fast going downhill because of the Brahminical poison. But Muslims, the worst victim of Brahminism, are intellectually crushed mercilessly. Untouchables are pushed to slums — EDITOR.*

**Anthony Elmore**, USA: In the book, *Anacalypsis*, Godfrey Higgins shows clearly that the teachings of Abraham (the name Abraham means "A Brahmin") and over time the name became Abraham. Higgins writes how Buddhism was once all over the world. But the age of ignorance came with Brahmin teachings and spread all over the world. The root of Christianity and Judaism is Brahmin teachings and when these teachings became prevalent over the world, the world got screwed up. The pain of allowing such things to happen is a human suffering that is too unbearable. When I looked at what has happened in India to the Black people and I review the Buddhist teachings we can understand. We can correct what has happened by bringing the correct teachings back to India. The true Buddhists are the "Black Buddhist" and to show the real power of Buddhism we must bring "True Buddhism" back to India. This Buddhism is the Buddhism of Nichiren Daishonin but it will come not in the form as we see in Japan today. It will be us,

the Black people in America, who will bring you this Buddhism.

*You are right on Abraham. From this came the name Brahmin. You have defended our theory that the Jews and the Brahmins are blood brothers. However, you seem to have made light of tackling our Brahminical oppressors. They tackled the Sakyamuni himself and perhaps even killed him. Then drove out Buddhism out of India. Ever since then, Brahmins have been ruling India — only by exercising mind control on us. Since "Independence" (1947), their mind control is 150%. This is because of their total hold on the media. If we have to make a dent (not defeat) then, it is possible only by having our own media. But we are paupers. To bring about any revolution, the slaves must first realise they are slaves. Dalits have the pain and suffering but they don't know who is sucking their blood. *Dalit Voice* is doing this job. It is a drop in this Brahmin ocean — EDITOR.*

**Balwant Singh Bohoru**, B-257, Ranjit Avenue, Amritsar - 143 001: I considered DV as a spokesman of Dalits and minorities. But I have observed that it misguides Dalits an creating rift between Sikhs and a section of Ravidasia clan. Now these misguided people, instead of being a follower of *Guru Granth*, they became followers of Brahminical rites.

**Aravind Mulimani**, (aravindmulimani@gmail.com): I am reader in Geography in Karnataka University, Dharwad, working since 1990. I am a regular reader of DV. I have DV back volumes and purchased your books. It is true that our intellectual force is not contributing to the society. The reason is probably they have not properly read the Ambedkar literature or they have no mind to read. They have not understood about their existence in Indian society. They are only leading the life under the banner of reservation. It is very difficult to transform their path until they realise themselves.

**Purushottam Dhutraj**, (purushottam.dhutraj@yahoo.com): I have started reading your books. They

are very revolutionary. I have never read such books after Babasaheb and Mahatma Phule.

*All good things — whether reading or eating — must be shared with soul-mates. Please introduce our literature to friends — EDITOR.*

**Dalip Singh Pandhi**, Chandigarh (dspandhi@rediffmail.com): Our caste is a name invented by persons bent upon exploiting us. We are the original Indians and fought against the Aryan raiders. In Punjab, we are Chamars. I am proud of my caste. The *Harijan* word created by M.K. Gandhi, a Hindu Baniya. When you use the word Dalit, which is not a constitutional term, that will deprive us of all the constitutional benefits. The Chamars have the best of wisdom and character and our forefathers remained kings of the land. The reservation for the SCs for entry into higher

services was approved in 1949 by the Central Govt. But this was not implemented. There was no legislation for the implementation of the reservations but only instructions which were not mandatory. We are about 17% of the population including ST in India and in Punjab we are about 28%. In Punjab, some got converted to Sikhism, *Adharmi* and *Mahashas* and our identity got shattered. Our caste got divided and became puppets in the hands of upper castes. Babasaheb Ambedkar got frustrated and became a Buddhist. Gandhi fooled the poor people and became the *Bapu* though he could not

### Mleccha embraces Islam

MLECCHA, SAN FRANCISCO, USA

I went through an overwhelming life change in early December. I formally and publicly accepted Islam, so it is no longer a private matter. My parents and co-workers all know I am Muslim. What I found so nice about Islam is it includes all the older major religions except Hinduism. Even many Muslims think the Prophet refers to the Budha, and Navayana Buddhism fits perfectly with Islam. For me, this is a good change, because I feel I have become a more peaceful person with the five daily prayers. I am still angry at the ills of the world, but have a new calm which frees me from anxiety about being able to fix it. I have not forgotten my obligation to you or the world.

*Congratulations. A White American Christian citizen embracing Islam is a slap on the face of the Zionist-controlled America — EDITOR.*

satisfy the presiding officer of a court when he was a lawyer in South Africa and returned to India as a failure. The partition of India caused big migration with murders, loots of property and molestation of the Hindu and Sikh girls. I am first a Chamar and then a political leader. I was four times legislator and remained Minister for Scheduled Castes and BCs and belong to the Shiromani Akali Dal as political adviser. The Sikhs are basically sentimental, illiterate and cannot understand the tricks of the Brahminical system.

**Siva Nagaiah Bolleddu**, Research Scholar on Dalit Lit., 7-120, Thumuluuru, Kollipara Mandal, Guntur dt. - 522 304: It gives me immense pleasure to know

about an exclusive Dalit magazine that speaks on Dalit issues. Really, it helps the scholars and social thinkers who intend to view India through the eyes of caste after/before nation. I would like to be guided further. I want to be your special correspondent in Vijayawada, one of the largest areas in AP where Dalits are educated but still in the hands of caste suppression. The coastal area of AP is known for its strong Dalit movements since 1920s. Adi Andhra movement, Karamchedu and Tsunder movements are the major milestones in the history of AP. My qualification is my Dalit identity and experience as a scholar of Dalit literature.

**Dalip Singh Wasan**, Advocate, 101-C, Vikas Colony, Patiala - 147 003: The Dalits must note that there shall be no merger and they shall never become part of the Hindu society. The time for merger of all religions and groups has not come. Rather all of them must establish their separate identity. Dalits must see that the Hindus do not swallow them. The only source left for them is to rise politically. Hindus are only 15% and the rest are Sikhs, Muslims, Christians and the Dalits. If these four groups want to counter the Hindus, their oppressors, they must join hands politically and easily come to power in all the states and even at the Centre. All the four may remain a separate groups but must have joint political front.

**Com. Ayyankali**: The 83-year-old Sharad Patil resigned from the CPM in 1978 after rebelling against its casteism and formed his Satyashodhak Communist Party (based in Dhule, Maharashtra). The ideology of his party is Phule-Ambedkar-Marxism. He has written several volumes on caste-class struggle. He also knows Sanskrit and happens to be an indologist. All the *savarna* marxists hate him and fear him due to this. However, he is not inclined towards caste war like you. His solutions are also based on non-revolutionary methods of inter-caste marriage. He has not grasped your "caste identity" theory (caste war theory). But his analysis of the caste society can be useful for us. However, he wants to ban marriage within the same caste. Sharad Patil is honest in analysing casteism. M.S. Jayaprakash must write more often and totally expose the Aryan Brahminist *manuwadi* fake

marxists led by EMS. As far as I am concerted your "caste identity" and "caste war" theories are the gold standard of genuine revolutionary politics in India. Any theory will have to be better than your "caste identity" and caste war — only then I will even bother to look at it. What is the difference between Mayawati and Sharad Patil? Mayawati has abandoned caste struggle and Sharad Patil wants inter-caste marriage. With such kind of class collaboration, how can any revolution happen? So I cannot agree with Sharad Patil. But since he is more honest about caste factor, I merely wish to study his theories so that we can draw the right conclusions for our own good.

**M. Palaniappan**, Lecturer in Planning, Dept. of Urban Planning, School of Planning & Architecture, 4, Block-B, Ring Road, Indraprastha Estate, New Delhi - 110 002: SCs and BCs should come together and have to fight collectively against the evils. But it is so sad to note that our people are fighting with each other in the name of caste. We are the same people and original people of this land. I have been facing problems in my institute ever since I joined as lecturer on July 29, 1992. Still I have been working as a lecturer. It is very funny. My institute has refused to promote me. My institute follows different rules. And am approaching 50 years of age I have decided to write to the Govt. of India about the injustice. I belong to Sathyamangalam (TN) area.

**Siddhartha Kamble** (siddhartha\_kamble@yahoo.com): I have been a regular reader of DV over the past 10 years, first up to 2005 when at Ankleshwar and in Assam (2006-2009) and of internet edition of DV. You may not remember me. When you had come to Bharuch (Gujarat) I was with Brother Haridas with whom you were having constant communication. We organised a life-member drive from Ankleshwar (Gujarat). There are many like me who are and will always spread the eye-openers which you provide us through DV to the oppressed Indians. The Brahminical forces are in operation since thousands of years making us their mental slaves. It is a tragedy that as Babasaheb rightly said our people have started enjoying their slavery. To change the mindset, and mainly the "fear of god" which is being exploited by the Brahmins, it is going to take some time. The problem is our educated brothers are busy pleasing their Brahminical masters to get some petty things at the expense of social emancipation of our people. I am in Bombay and through an Ambedkarite centre, Tahthagat Culture Centre, we are trying to fight Brahminical *samskaras* and initiate the Navayana of Babasaheb Ambedkar.

**V. Dhanapal**, (danapalv@yahoo.com): I have almost finished reading all the 11 issues of *Dalit Voice*. My way of seeing our society matches exactly with your way of seeing it. Besides, I have found so many new eye-openers in your writings. But I don't grasp the logic behind equating (all the time) the Jews with the Brahmins. Jews in their diaspora had well-knit international network of communities which served them well to be bankers, traders, merchants etc. Due to this advantage they might have made lot of profits. But they did not have the control on the society as the Brahmins had. They did not create a social order as the latter group did. They had been victims of pogroms, etc. They might have been closely related to Brahmins biologically few thousands years ago. For that matter, if you go back few million years, all the people (Dravidians, Aryans etc.) of earth share common ancestors. For India of this century and future, what is the use of equating Brahmins with Jews? May be the answer lies in one of your books. That is why I am eagerly waiting for your complete set of books.

*You are new to our "Jews and Jews of India" theory. All that you said in defence of Jews has no basis in history. We have lots of literature written by Western scholars on this subject including the world famous Henry Ford, founder of the Ford Motors. That the Jews were the victims of pogroms was also what we believed until we searched for the Truth. Truth is never served on a silver plate. You have to go*

## Hindu hatred of Muslims will not allow united India

NEERAV PATEL, DALIT POET, AHMEDABAD

This refers to DV article on "United India with Pakistan & Bangladesh" (DV Dec.1, 2009 p.22) — a long neglected urgency. The article by T. A. M. Nurul Bashir of Bangladesh is worth pondering about but I don't think Hindus will ever agree to the proposal. You know how much they hate the Muslims. The birth of Pakistan and Bangla Desh is an all-time good riddance for them and they are now repenting on their blunder of not transferring the entire Muslim population to Pakistan at the time of partition. But it is different with the Dalits. We very much want Muslims but Hindus want them as their slaves, bonded laborers, servants, scavengers, toilet-sweepers, shit-bearers et al and live in perpetual luxury. You can recall M.K. Gandhi's steadfast stand and 'fast unto death' drama on Dr. Ambedkar's demand of 'separate electorate' and then only imagine the demand for separate 'Dalitstan'. They will never, ever allow Dalits to secede and will never allow Muslims to join and reunite with them. With the changed image after the 9/11 horror and post-Babri retaliations, the Muslims have become pariah, the new Untouchables for the Hindu. They are afraid to know these 'new Untouchables' can react violently unlike the meek and timid Dalits. And, therefore, I would advise Brother Bashir to stop his wishful thinking, howsoever rational and well-intentioned it may sound. Forget about the nostalgia of re-unification and think instead of the neglected, persecuted nationalities denied their human rights as our Editor so loudly advocates through the masthead of *Dalit Voice*. Although I am an idealist like you and would very much wish to see the world as a real global village, I am pragmatic enough to understand that it will not come into existence without bringing in practice the idea of universal brotherhood. Sadly, the current campaign of globalisation doesn't include in its agenda the ideal of global brotherhood.

Muslims to force them to vacate East Punjab. M.A. Jinnah offered the Sikhs some attractive proposals but Master Tara Singh rejected them. I have quoted some passages from the *Freedom at Midnight*, an authentic work:-

#### Master Tara Singh mischief

... The Sikh leadership had met at a secret council in Nedou's Hotel in Lahore. Its purpose was to decide Sikh strategy in case partition was accepted. The dominant voice at the council was that of the hot-eyed fanatic who had started the March conflagration by hacking down a Moslem League banner with his *kirpan*. Tara Singh, called "Master" by his followers because he was a third-grade school teacher, had lost many members of his own family in the violence he had provoked, and one passion motivated him now, revenge.

"O Sikhs", he had shouted in a speech that foretold too well the tragedy soon to overtake the Punjab, "be ready for self-destruction like the Japanese and Nazis. Our lands are about to be overrun, our women dishonored. Arise and once more destroy the Mogul invader. Our motherland is calling for blood. We shall slake her thirst with our blood and the blood of our enemies." (p.230-231).

#### RSS joins Sikhs

A group of Sikh extremists, Savage reported, had linked hands with the most fanatical political group in India, the RSS. At their head stood Master Tara Singh, the third-grade school teacher who had called on his followers to drench India in blood at the Sikhs' secret convocation in Lahore. The two groups had agreed to pool their resources and energies in a pair of terrorist actions.

The Sikhs, with their better organization, training and knowledge of explosives, would destroy the heavily guarded "Pakistan Specials", the trains destined to convoy from Delhi to Karachi the key men and stores assigned to the new state. Tara Singh had already installed a wireless set and an operator to flash information on the train's departure and its route to the Sikh armed bands that were to attack them.

... No Sikh or Hindu police would accept an order to go in after them, and to send in Moslem police was unthinkable. (p. 246).

#### Pak train destroyed

Five days later, during the night of August 11 to 12, the Sikhs of Tara Singh successfully executed the first phase of the program they had agreed to with the RSS. Two charges of gelignite buried along its right of way destroyed the first Pakistan special five miles east of the Giddarbaha railroad station in the Ferozepore District of the Punjab (p.47).

Khushwant Singh shows a Dalit is more sincere to

the Guru than others who burnt his thatched hut to cremate Guru's body:

#### Jinnah & the Sikhs

Jinnah told them (the Sikh leaders) that if they opted for Pakistan he would guarantee them protection of life, property, freedom to practice their religion and the privileges they had enjoyed under British rule.

When M.A. Jinnah failed with Akali/Sikh leaders he tried his efforts with Maharaja of Patiala, Yadvindra Singh.

"Jinnah met the Maharaja of Patiala and his Prime Minister, H.S. Malik, ICS, in the house of Malik's elder brother Sir T.S. Malik, in New Delhi" (for details see chapter xviii of *A History of the Sikh People*, Dr. Gopal Singh. (*A History of the Sikhs*, Vol.II, Khushwant Singh).

**Note:** Muslim League always referred to the Congress as Hindu Congress but Master Tara Singh himself was Hindu (Nanak Chand Malhotra). So he deliberately ignored this warning. The position of Master Tara Singh was so strong and dominant at that time, that no Akali/Sikh leader could dare defy him. That is why he sided/opted for Hindu Congress/India.

**Ashok Yadav**, Patna: We observed the death anniversary of Babsaheb Ambedkar and denounced the demolition of Babri Masjid on Dec.6 (2009). It is a strange coincidence that both the events came on the same date. The All-India United Muslim Morcha organised a seminar, "Dalit Muslims: Problems & solutions". It was brought out clearly at the seminar that the Babri mosque was demolished on the day of the death anniversary of Dr. Ambedkar. The Hindu caste system had its worst critic in Dr. Ambedkar. To erase the memory of Dr. Ambedkar, and to put in place a *hindutva* symbol in the form of demolition of Babri mosque in parallel to Dr. Ambedkar's legacy, to pollute and defile the memory of Dr. Ambedkar on Dec. 6 every year, the choice of date for demolition was made. The seminar did not confine itself to this coincidence. It discussed the demolition of yet another mosque in Rampur-Bairiyya village, East Champaran dt. of Bihar on Dec.6, 2007. This mosque was demolished not by the Brahminical forces but by the upper caste Muslims of the village who hate their *Pasmanda* (lower caste Muslim) brothers who had built a separate mosque because they were being discriminated in the common mosque of the village. One speaker said the *Pasmanda* leaders had not realised the great potential of their movement. The *Pasmanda* movement gave a body blow to the majoritarian Hindu communalism.

One speaker questioned Congress leader Salman Khursheed's declaration that the govt. was considering a separate quota for OBC Muslims under the 27% OC quota. There was no need for such a separate quota as they are already getting it under the common quota. If the govt. was serious it should rescind the 1950 Central Govt. order that ejected out the depressed castes professing Islam and Christianity from the Central and State list of Scheduled Castes, and gave reservation of Dalit Muslims not in the name of religion but on the basis of their caste. Feroz Mansoori, the president of the youth wing, said Salman Khursheed was only trying to break the unity of OBCs along religious lines and prevent OBC Muslims joining their blood brothers. Delhi was promoting Ashraf Muslims and suppressing the caste-based identities of lower caste Muslims. A BAMCEF Dalit activist congratulated *Pasmanda* Muslims for embracing Islam. But the upper castes too embraced Islam to get favours from the Muslim kings and feudal lords. So the same caste system engulfed the Indian Muslim community too. The Sachhar Committee report had said Ashraf, Ajlaf, Arzal are three social categories among Muslims. Dalit-*Pasmanda* Muslims reject the Sachhar report which helps Muslims in perpetual state of harbouring false hopes from the caste. Buddha Sharan Hans presided over the meet. Kamal Ashraf, working president of the AIUMM, dwelt on the functioning of the organisation. The main speakers of the seminar included noted Janata Dal (U) leader Nihora Prasad Yadav, Prof. Mohammad Sharif, head of department, Law College, Patna University, Patna; Prof. Ramashis Singh, Editor, *Aap Ka Aina* magazine; Rakesh Priyadarshi, the noted Dalit poet; Umesh Rajak, BAMCEF pracharak, Ashok Yadav, writer on social justice issues etc.

**Badudeo Mazumdar**, 164/C/51 - Lake Gardens, Calcutta -700 045: Dalits were one again on Oct.14, 2009 violently debarred from entering the Ekambareshwar temple at Chettipulam village in Nagapattanam, Tamil Nadu. This is nothing new. Babasaheb Ambedkar too faced such ugly resistance from Brahmins. He had bitter experience. I thought with spread of education, democratic values, awareness and rationality this obnoxious issue will be a thing of the past. But no, this is happening today, and almost throughout India in varied degrees. This is a serious issue. Dalit can be a scientist, engineer or a doctor or an academician but can't be allowed to enter a Hindu temple because he is impure. Caste discrimination and the repugnant pollution flow

from the Hindu *shastras*. Upper castes (Hindus) started believing these distorted concepts being in religious texts and these being in force for the last 5,000 years since the Aryans came to India, have gone into Hindu blood stream. He does not consider caste discrimination as anything wrong. It is in the *shastras*, so what's wrong. In other words caste-apartheid gets its sustenance from the Hindu *shastras*. The difference between South Africa's apartheid and India's caste system is the SA variety had no religious sanction. That is how SA apartheid vanished, caste apartheid continued in India despite its so called progress and modernity. The objectionable paragraphs and references in Hindu scriptures require reformation. So long as the Hindu scriptures are not reformed, caste apartheid in some form or the other will continue. But will Hinduism admit reforms? There are two alternatives: (1) Dalits may stop going to temple. 2) Dalits may build their own temple. The second one is more viable. Reformation would make Hinduism strong and vibrant. The govt. should start a strong media campaign against the caste.

*Brother Basudeo is wrong. The Father of India, Dr. Bhimrao Ambedkar, has said Hinduism cannot be reformed. Only after realising it, he went over to Buddhism. Hundreds of saints have tried and failed. Please give up the hope of repairing a broken mirror. Even the most poor and illiterate have embraced Islam and Christianity after realising this supreme truth. Please read our literature. Know the Truth and the Truth shall make you free — EDITOR.*

**Dennis Selvan**, Madras: Look at the character and behaviour of the Brahmin priests in our "holy temples". The priest of Machcheshwara Peruman temple, Devanathan, who had been on the run for about two months, surrendered before the Judicial Magistrate-I, Kancheepuram, on Nov.7,2009 and was remanded in judicial custody till Nov. 30. The police got scent of his impersonation after his sexual escapades with a few women on the temple premises that were recorded by himself on his mobile phone, became public. A case was registered against him but he fled Kancheepuram along with his wife Ganga and two teenage daughters. The Kanchi police said that they would file a petition before the magistrate, seeking custody of the accused for further inquiry. Meanwhile, the Madras High Court rejected his anticipatory bail. The police have also taken into custody his wife. They are questioning seven of Devanathan's relatives at Pazhaiya Seewaram village, 20 km from Kancheepuram.

means Hindus form only 15% of our population.

No social scientist, historian or even a journalist will give you these figures.

Because it reveals the shocking strength of the Bahujan Samaj.

Please take down these statistics and circulate them.

#### CLOSELY GUARDED SECRET

These statistics are a closely guarded secret which only the Brahmins know.

They will not disclose it because it is dangerous. "Know the Truth and Truth shall make you free", says the Bible.

Together, the Bahujan Samaj becomes 85% of the population. Of this, the Dalits 20% and Muslim 15% are the most revolutionary.

**Dalits are the fire and Muslims are the petrol. If petrol poured into the burning fire, what will happen? Brahminism will be burnt alive.**

Brahmins are the only people to know these facts. That is why these population figures are not revealed.

I have published these statistics many times in *Dalit Voice* and also said it at many public meetings.

To this day, no Brahmin social scientist has challenged these figures.

#### EDUCATED DALITS BETRAY BABASAHEB

In the light of these figures I will now try to examine the two deadly weapons used by the Brahminical rulers to kill our revolutionary movement.

**No.1:** refers the betrayal of Babasaheb by our educated and employed Dalit employees.

The constitution came into being in 1951 when the job reservation for SC/ST began.

It is now 59 years but those who

secured the reserved jobs are only about 5% out of the Dalit population of 20%.

But in the jobs for sweepers and scavengers it is 100% implementation because none other than our people are ready.

All-India services like IAS/IPS etc. have to statutorily implement the SC/ST quota.

But there are several fields for which there is no reservation for SC/ST like higher judiciary, scientific services, defence etc.

#### CONSTITUTION SUBVERTED

That is how the ruling Brahmins have subverted the constitution itself and cheated Babasaheb.

**So we have only about 5% reservation among SC which include sweepers and scavengers.**

Brahmins have very effectively sabotaged the constitution in the name of merit and efficiency.

I have written a book itself on this subject, *Merit - My Foot*. All our books are kept outside for sale.

**When the Brahmins have sabotaged the SC/ST reservation itself, why our educated Dalit youths are not getting angry?**

#### MARRYING BRAHMIN GIRLS

Even when some Dalits are allowed into govt. service, why did they forget Babasaheb because of whom they have been able to secure the job?

**Babasaheb himself has said in his last days with tears in his eyes that the "educated Dalits of India have betrayed me". Yes. This is a fact.**

Many of our Dalit boys have married Brahmin girls. They have forgotten not only Babasaheb but even the very community. I know scores of IAS, IPS officers, judges.

They have no courage to speak. Brahmins and all other upper castes run their *jati* hostels to their *jati* children. They also run educational institutions.

But we have not seen any such thing in our community.

#### DALIT ACADEMICS DISAPPOINT

Look at BAMCEF itself, which is the organisation of govt. employees. We find hardly any enthusiasm.

**Our Dalit academics are a total disappointment.**

Look at the Brahmins. They have condemned and rejected the RSS itself for failing to fulfil its promise of establishing the *Hindu Rashtra*, meaning *Brahmin Rashtra*.

*Abhinav Bharat*, *Ram Sene*, *Sanathan Samstha* and many others are not under the RSS. Lt. Col. Purohit, a serving officer in the Army, has condemned RSS itself for not crushing the Dalits and Muslims. See, how angry the Brahmins are. They have rejected L.K. Advani who built BJP and demolished the Babri Masjid.

But our people, who are treated as the slaves of India, are not even getting angry. We have not only become slaves — but slaves enjoying our slavery. What a fall.

**By this time our Dalit youth should have turned into tigers and lions — eating our enemies. But today we have become lambs and sheep to be slaughtered and made Biryani. (loud cheers)**

#### VIPASSANA POISON

Who can save such a people? As the Editor of *Dalit Voice* I have the picture of whole country. It is simply pathetic, heart-rending.

Many a time I silently weep over the way our educated Dalit officers drawing a monthly salary of Rs. 30,000 to Rs. 50,000, have

betrayed their own father, the Father of India. They have taken to *Vipassana*, Sabarimalai, Tirupati visits.

Who can save a people who do not want to save themselves?

**No.2:** Now, I come to the second serious mistake we have committed under the Brahmin influence.

All over the world oppressed people resort to **struggle** to recover their lost human rights.

Islam has a beautiful Arabic word for struggle: *Jihad* to which Brahmins have given a wrong meaning.

Struggle is going on in Palestine, Kashmir, among the Blacks in Africa. Even in Nagaland.

All over the world the oppressed people **struggle** for their human rights.

In India, one vital section which has completely lost its human rights is the Dalits.

#### SLAVERY IN INDIA GOING STRONG

**Slavery is abolished all over the world but Hindu India is proudly displaying its slavery.**

Dalit Panthers was the first in India to launch such a **struggle** to recover our lost human rights.

But the crooked Brahmins who have infiltrated every movement of the oppressed, tried to mislead the Dalit struggle for human rights by quoting Babasaheb Ambedkar saying "political power is the master key that will open all the locks".

I have read all the books of Babasaheb — not once but many times.

#### STRUGGLE FORGOTTEN

We have one page devoted to "*Thus Spake Ambedkar*" in every issue of *Dalit Voice*.

But so far we have not been able

to trace where exactly Babasaheb has made such a statement.

We have consulted many experts but nobody could trace this particular sentence. In the book, *Annihilation of Caste*, Babasaheb made it very clear that power can be secured only after **struggle** and sacrifice.

#### R.S.S. DOESN'T BELIEVE IN NON-VIOLENCE

But in India, all the oppressed people are told to form political parties, contest elections and come to power.

Tell us one state or even portion of a state where the oppressed have been able to secure their human rights by "capturing political power".

Brahmins who are about 2% have no chief minister, hardly any political power. How are they ruling and controlling, even our breathing? Why our people are not understanding this simple truth?

The struggle for Kashmir self-determination is India's oldest and single biggest struggle. The oppressed Kashmiris are fighting and dying daily to achieve *Azadi* (liberation). Still they are not able to achieve anything.

Maoists are fighting and dying since decades in the Eastern part of India.

They are able to spread their net over about 20% of the country. But the Brahminical rulers are using police to gun them down. Even army is getting ready.

In the North-East, the Mangoloid tribals are fighting not by forming political parties but through armed struggle.

The Assamese Brahminical party of ULFA has taken to violent struggle.

RSS and the Abhinav Bharat Brahmin terrorists do not believe in non-violence — nor in contesting

elections to achieve their *Brahmana Rashtra*.

**Give us one example in the whole of India or outside where deprived destitutes were able to recover their human rights through the ballot box?**

Political power is no power. The real power has passed into the Brahmin who control the media, judiciary, finance, industry etc.

Yes. Mayawati is able to capture power for BSP in UP.

But twice before she captured UP and lost. We are great supporters of Kanshi Ram and Mayawati but we refused to join BSP only because of this reason.

#### POLITICAL POWER NOT GIVEN BUT TAKEN

**Political power is not given, but taken — seized. To seize, you need strength. Not mere physical strength but intellectual strength.**

With police, army and more than that the most poisonous media being the monopoly of Brahmins, how can we capture power? Still our Dalit, OBC youth are all rushing to join political parties and rotting there.

We have searched all the volumes of Babasaheb published by the Maharashtra Govt.

In Vo.17, Part-III (p.388-389) is published a speech by Babasaheb addressing the 5th conference of the UP Scheduled Caste Federation in 1948 at Lucknow on April 25, 1948.

#### POLITICAL POWER AS MASTER-KEY

In that speech, he said:

"Political power is the key to all social progress and Scheduled Castes can achieve their salvation if they captured power by organising themselves into a third party and holding a

balance of power between the rival political parties — Congress and Socialists”.

This is the only reference that comes closest to the now famous claim of “political power as the master key”. The situation in 1948 was entirely different.

Brahmins were not strong then. Dalits could have then joined with Muslims, who are a big force in UP, to come to power. They did not.

They could not capture power because they were not organised.

Brahmins have no political power. There is not even a single Brahmin chief minister. No Brahmin can get elected — with minor exceptions. Yet they control all the parties and the whole country? How could they control India without political power?

I was a close friend of Kanshi Ram. We are of the same age. Except joining BSP, I was with him throughout.

**It is the Chamar power that helped Mayawati to come to power.**

There is no Chamar power in any other state.

This is a big subject which we want to throw out for Debate in *Dalit Voice*.

Brahmins will not hand over power to you on a golden plate.

If Dalits organise themselves into a force every effort will be made to break them. If the Brahmins fail, they will bring the Army to finish us.

What is needed is intellectual strength. This is first priority. Do you have it?

It is the intellectuals and intellectuals alone who can lead a society.

#### INDIA IN GRIP OF CIVIL WAR

But they can also be misled if they are not honest intellectuals.

Babasaheb was an honest intellectual but Brahmins are dishonest and corrupt to the core.

How can we trust them?

So we have to produce lots and lots of honest intellectuals and then organise, which Waman Meshram is doing through BAMCEF.

I found one such person in Kanshi Ram and now another in Waman Meshram.

But to further our cause we need a powerful media of our own.

Brother Meshram is convinced about it. We have assured our full support in this direction.

Before concluding, I have to warn you that the country is in the grip of a civil war. Everything is breaking down. Confusion is total. The govt. is not able to govern. Nothing is working. This is the right time for us to strike. Violence is spreading all round. India is being pushed from the third world to the fourth world. If the educated Dalits and Muslims fail to exploit this golden opportunity, Brahmins will clamp down another emergency and further tighten their grip on our neck.

That is all I have to say.

I have spoken too long. But I am sure I have made you think.

Making you think is itself a big achievement.

Thank you. Jai Bhim. ■

are not with the Brahmin. Even anti-Brahmin thinkers are termed “Hindu”.

**Brahmins do not put any condition to become a Hindu. They want only the number. Not the thought.**

But in the case of other religions this is not the case. You have to be baptised (or take *deeksha*) to become Muslim, Christian or Buddhist. Your thoughts akin to Buddhism do not make you Buddhist. You have to be converted first. But to become a Hindu, no need for conversion. See how the Brahmin has deceived you.

Is this not “minority mindset?” You are protecting that mindset. How other religions will grow? Without any attempt or thought they are declaring people as Hindu.

Because the other religions do not have the will to grow.

Even if one accepts Buddhism, Phule-Ambedkar thought, without proper *deeksha* you call him Hindu. his attitude helps the Brahmins only?

**We should not wait for conversion. We should fathom the history and call all non-Brahmins as non-Hindu if not anti-Hindu.**

If we have the guts then only we can do this. If Hinduism is another name for Brahminism then all the Bahujans are non-Hindu.

Let us get out of this stupid mindset. Spread this message to all our people. To all our indigenous brothers and sisters that they are not Hindu. Do not dub the illiterate BCs as Hindu. They know nothing about Hinduism. They by nature are egalitarian. They do not hate people of their own because of caste. ■

## Iran becomes nuclear power ?

OUR CORRESPONDENT

**Bangalore:** Great news. Iran has become a nuclear power — supported by China and Russia. Congratulations.

Iran alone in the Islamic world has the courage and the readiness to confront the Zionist Israel. This is the sole single country that is the cause of the world's longest lasting problem (Palestine) —disturbing peace in the whole world.

**Jews of India's war preparation:** If President Obama, who is failing to discipline the Zionist tyrant, has to succeed in Middle East he must quietly encourage Iran to do the job.

The Zionists are doing their best to destabilise, if not

destroy Iran. But they will fail. The forces of history are behind Iran. The Zionists are a cursed people.

**The only fellows who go with them are their Brahminical cousins. The two — the Jews and “Jews of India” — are jointly operating in Pakistan and causing its daily terrorist attacks to provoke Pakistan so that India could launch yet another war.**

Brahminism cannot survive without frequent war and violence.

Will there be another war between India and Pakistan? Internally so weak and economically so hollow (and China standing solidly behind Pakistan), will the Brahminists get the courage to launch a war? ■

NO BAPTISM NEEDED TO BECOME HINDU ?

## Brahminical trick that boosts “Hindu” population

NAGESH CHAUDHARY, RAHATI COLONY, JAIL ROAD, NAGPUR 440 022

Power is in the brain. Because it is the brain which orders the hands and legs which by themselves are not powerful without the brain.

Brahmins have chosen their seat inside the head. The head of the *Purusha* in the *Rigveda* is the Brahmin. The *Purusha*, they say, is the model of society, and this model is topped by the Brahmin. The *shudras* are the feet. Our society is exactly like that Brahmin, the head orders and the legs obey. That means the Brahmins are the masters and the *shudras* are the slaves. The *varna* model connotes that.

**Shudra as head:** A social revolution is possible when the *shudras* (including *ati-shudras* - Untouchables) become the head (brain of the society). The rulers bow before the Brahmin because they consider the Brahmin

as the head and they as the shoulders — hands. The hands too are under the control of brain. The *shudras* can try to become the head (brain) but those attempts have failed in the past.

**Minoritism:** We are in the “minority mindset”. Agreed —that Brahmins have compelled you to demand separately. But how long we shall be in that mindset? Without conversion, without agreement in thoughts and deeds, the Brahmin has made all the people “Hindu”. What is common between the Brahminic rituals and the *Adivasi* rituals? What is common between the Untouchable religious practices and those of the Brahmin? What is common between the OBC religious practices and those of the Brahmin? The birth, death, wedding ceremonies are all different. In thought they
